**Manual abstract:**

Content may differ from the final product, or from software provided by service providers or carriers, and is subject to change without prior notice. For the latest version of the manual, refer to the Samsung website, [www.samsung.com](http://www.samsung.com). Content (high quality content) that requires high CPU and RAM usage will affect the overall performance of the device. Applications related to the content may not work properly depending on the device's specifications and the environment that it is used in. Available features and additional services may vary by device, software, or service provider. Applications and their functions may vary by country, region, or hardware specifications. Samsung is not liable for performance issues caused by applications from any provider other than Samsung. Samsung is not liable for performance issues or incompatibilities caused by edited registry settings or modified operating system software.

Attempting to customise the operating system may cause the device or applications to work improperly. Software, sound sources, wallpapers, images, and other media provided with this device are licensed for limited use. Extracting and using these materials for commercial or other purposes is an infringement of copyright laws. Users are entirely responsible for illegal use of media. About this manual Default applications that come with the device are subject to updates and may no longer be supported without prior notice.

If you have questions about an application provided with the device, contact a Samsung Service Centre. For user-installed applications, contact service providers. Modifying the device's operating system or installing softwares from unofficial sources may result in device malfunctions and data corruption or loss. These actions are violations of your Samsung licence agreement and will void your warranty. W • f the battery is completely discharged, the device cannot be turned on I immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the device. • f you use multiple applications at once, network applications, or applications I that need a connection to another device, the battery will drain quickly. To avoid disconnecting from the network or losing power during a data transfer, always use these applications after fully charging the battery.

Charging with the charger Connect the USB cable to the USB power adaptor and then plug the end of the USB cable into the multipurpose jack. 10 Getting started Connecting the charger improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty. • he device can be used while it is charging, but it may take longer to fully charge T the battery. • f the device receives an unstable power supply while charging, the touch screen I may not function. If this happens, unplug the charger from the device. • hile charging, the device may heat up. This is normal and should not affect the W device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging. • f the device is not charging properly, take the device and the charger to a I Samsung Service Centre.

After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket. To save energy, unplug the charger when not in use. The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The charger should remain close to the electric socket and easily accessible while charging.

Checking the battery charge status When you charge the battery while the device is off, the following icons will show the current battery charge status: Charging Fully charged 11 Getting started Reducing the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: • hen you are not using the device, switch to sleep mode by pressing the Power button. W • lose unnecessary applications with the task manager. C • eactivate the Bluetooth feature. D • eactivate the Wi-Fi feature.

D • eactivate auto-syncing of applications. D • ecrease the backlight time. D • ecrease the brightness of the display. D Inserting a memory card Your device accepts memory cards with maximum capacities of 64 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device. • ome memory cards may not be fully compatible with the device. Using an S incompatible card may damage the device or the memory card, or corrupt the data stored in it. • se caution to insert the memory card right-side up. U • he device supports the FAT and the exFAT file systems for memory cards. When T inserting a card formatted in a different file system, the device asks to reformat the memory card.

• requent writing and erasing of data shortens the lifespan of memory cards. F • hen inserting a memory card into the device, the memory card's file directory W appears in the SD Memory card folder. 12 Getting started 1 Open the cover of the memory card slot. 2 Insert a memory card with the gold-coloured contacts facing downwards. 3 Push the memory card into the slot until it locks in place. 4 Close the cover of the memory card slot. Removing the memory card Before removing the memory card, first unmount it for safe removal. On the Home screen, tap → Settings → General → Storage → Unmount SD card. 1

Open the cover of the memory card slot. 2 Push the memory card until it disengages from the device, and then pull it out. 3 Close the cover of the memory card slot. Do not remove the memory card while the device is transferring or accessing information. Doing so can cause data to be lost or corrupted or damage to the memory card or device. Samsung is not responsible for losses that result from the misuse of damaged memory cards, including the loss of data. 13 Getting started Formatting the memory card A memory card formatted on a computer may not be compatible with the device.

Format the memory card on the device. On the Home screen, tap → Settings → General → Storage → Format SD card → Format SD card → Erase everything. Before formatting the memory card, remember to make backup copies of all important data stored on the device. The manufacturer's warranty does not cover loss of data resulting from user actions. Turning the device on and off When turning on the device for the first time, follow the on-screen instructions to set up your device.

Press and hold the Power button for a few seconds to turn on the device. • ollow all posted warnings and directions from authorised personnel in areas F where the use of wireless devices is restricted, such as aeroplanes and hospitals. • ress and hold the Power button and tap Flight mode to disable the wireless P features. To turn off the devicethe image. 21 Basics Tilting Tap and hold two points on the screen, and then tilt the device back and forth to zoom in or out.

Palm motions Use palm motions to control the device by touching the screen. Before using motions, make sure the palm motion feature is activated. On the Home screen, tap → Settings → Controls → Palm motion, and then drag the Palm motion switch to the right. Sweeping Sweep your hand across the screen to capture a screenshot. The image is saved in Gallery → Screenshots.

It is not possible to capture a screenshot while using some applications. 22 Basics Covering Cover the screen with a palm to pause media playback. Samsung Smart Pause Use this feature to pause videos when you look away from the screen. On the Home screen, tap pause. → Settings → Controls → Smart screen, and then tick Smart During video playback, look away from the screen to pause the video. To resume playback, look at the screen again. 23 Basics Using

Multi Window Use this feature to run multiple applications on the screen at the same time. • nly applications on the Multi Window tray can run. O • his feature may not be available depending on the region or service provider. T To use Multi Window, on the Home screen, tap → Settings → Device → Multi window, and then drag the Multi window switch to the right.

You can use two types of Multi Window. <Split screen Multi Window> <Pop-up Multi Window> 24 Basics Using a split screen Multi Window Use this feature to run applications in a split screen. Launching applications in a split screen Multi Window 1 Drag your finger from the right edge of the screen towards the middle of the screen.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY TAB PRO 8.4 SM-T320 user guide](http://yourpdfguides.com/dref/5580553)

<http://yourpdfguides.com/dref/5580553>

Alternatively, tap and hold . The Multi Window tray appears at the right side of the screen.

Multi Window tray 2 Tap and hold an application icon on the Multi Window tray, and then drag it to the screen. Release the application icon when the screen turns blue. 25 Basics 3 Tap and hold another application icon on the Multi Window tray, and then drag it to a new location. You can launch the same application in a split screen at the same time. Only applications with next to its icon support this feature.

Sharing content between applications You can easily share content between applications, such as Email and Internet, by dragging and dropping them. Some applications may not support this feature. 1 Launch Email and Internet in a split screen Multi Window. Access the Multi Window options 26 Basics 2 Tap the circle between the application windows, and then tap ••: Switch locations between Multi Window applications. . Tap the circle between application windows to access the following options: •: Open a list of recently used applications in the selected window. •: Share items, such as images, text, or links, between application windows by dragging and dropping them. •: Maximise the window. •: Close the application. 3 Tap and hold an item in the Internet window and drag it to a location in the Email window.

27 Basics Creating a Multi Window combination Use this feature to save currently-running Multi Window applications as a combination. 1 Launch multiple applications in a split screen Multi Window. 2 Open the Multi Window tray and tap → Create. 3 Enter a title and tap OK. The currently-running Multi Window combination is added to the Multi Window tray. To launch applications using a saved combination, select the combination from the Multi Window tray. Using a pop-up Multi Window Use this feature to launch applications in pop-up windows. 1 Drag your finger from the right edge of the screen towards the middle of the screen. Alternatively, tap and hold . The Multi Window tray appears at the right side of the screen.

Multi Window tray 28 Basics 2 Tap an application icon on the Multi Window tray. A pop-up window appears on the screen. Minimise the window. Close the window. Maximise the window.

You can launch the same application in multiple pop-up windows at the same time. Only applications with next to its icon support this feature. 29 Basics Notifications Notification icons appear on the status bar at the top of the screen to report new messages, calendar events, device status, and more. Drag down from the status bar to open the notifications panel. Scroll the list to see additional alerts.

To close the notifications panel, drag up the bar that is at the bottom of the screen. From the notifications panel, you can view your device's current settings. Drag down from the status bar, and then tap to use the following options: •i-Fi: Activate or deactivate the Wi-Fi feature. W •PS: Activate or deactivate the GPS feature. G •ound: Activate or deactivate silent mode. You can vibrate or mute your device in silent S mode. •reen rotation: Allow or prevent the interface from rotating when you rotate the device. <http://yourpdfguides.com/dref/5580553>

38 Basics Applications screen The Applications screen displays icons for all applications, including any new applications installed. On the Home screen, tap to open the Applications screen. To view other panels, scroll left or right. Rearranging applications This feature is available only in the customisable grid view. Tap → Edit, tap and hold an application, and then drag it to a new location.

To move it to another panel, drag it to the side of the screen. Organising with folders Put related applications together in a folder for convenience. Tap → Edit, tap and hold an application, and then drag it to Create folder. Enter a folder name and then tap OK. Put applications into the new folder by dragging, and then tap Save to save the arrangement. Rearranging panels Pinch on the screen, tap and hold a panel preview, and then drag it to a new location.

Installing applications Use application stores, such as Samsung Apps, to download and install applications. Uninstalling applications Tap → Uninstall/disable apps, and then select an application to uninstall it. Default applications that come with the device cannot be uninstalled. 39 Basics Disabling applications Tap → Uninstall/disable apps, and then select an application to disable it.

To enable the application, on the Applications screen, tap Settings → General → Application manager, scroll to DISABLED, select the application, and then tap Enable. • ownloaded applications and some default applications that come with the D device cannot be disabled. • hen you use this feature, disabled applications disappear from the Applications W screen but are still stored in the device. Using applications This device can run many different types of applications, ranging from media to Internet applications. Opening an application On the Home screen or the Applications screen, select an application icon to open it. Some applications are grouped into folders. Tap a folder, and then tap an application to open it. Opening from recently-used applications Tap to open the list of recently-used applications. Select an application icon to open. Closing an application Close applications not in use to save battery power and maintain device performance.

→ Task manager, and then tap End next to an application to close it. To close all Tap → Close all. running applications, tap End all. Alternatively, tap 40 Basics Help Access help information to learn how to use the device and applications or configure important settings. Tap Help on the Applications screen. Select a category to view tips. To sort categories by an alphabetical order, tap To search for keywords, tap . . Entering text Use the Samsung keyboard or the voice input feature to enter text. Text entry is not supported in some languages.

To enter text, you must change the input language to one of the supported languages. Changing the keyboard type Tap any text field, open the notifications panel, tap Choose input method, and then select the type of keyboard to use. Using the Samsung keyboard Set options for the Samsung keyboard. Enter uppercase. Enter punctuation marks. Break to the next line. Delete a preceding character. Enter uppercase. Move the cursor. Enter a space.

41 Basics Entering uppercase Tap before entering a character. For all caps, tap it twice. Changing the keyboard type Tap and hold , and then tap to change the keyboard type. and move the floating keyboard to another On the floating keyboard, tap and hold location. Changing language keyboards Add languages to the keyboard, and then slide the space key left or right to change language keyboards. Handwriting Tap and hold , tap , and then write a word with a finger. Suggested words appear as characters are entered. Select a suggested word. Use handwriting gestures to perform actions, such as editing or deleting characters and , and then tap → Help → inserting spaces. To view the gesture guides, tap and hold Using handwriting gestures.

This feature may not be available depending on the region or service provider. 42 Basics Entering text by voice Activate the voice input feature and then speak into the microphone. The device displays what you speak. If the device does not recognise your words correctly, tap the underlined text and select an alternative word or phrase from the dropdown list. To change the language or add languages for the voice recognition, tap the current language.

Copying and pasting Tap and hold over text, drag or to select more or less text, and then tap Copy to copy or Cut to cut. The selected text is copied to the clipboard. To paste it into a text entry field, tap and hold at the point where it should be inserted, and then tap Paste. Connecting to a Wi-Fi network Connect the device to a Wi-Fi network to use the Internet or share media files with other devices. (p.

127) Ensure that the Wi-Fi connection is active before using Internet applications. Turning Wi-Fi on and off Open the notifications panel, and then tap Wi-Fi to turn it on or off. • our device uses a non-harmonised frequency and is intended for use in all Y European countries. The WLAN can be operated in the EU without restriction indoors, but cannot be operated outdoors. • urn off Wi-Fi to save the battery when not in use. T 43 Basics Joining Wi-Fi networks On the

Applications screen, tap Settings → Connections → Wi-Fi, and then drag the Wi-Fi switch to the right. Select a network from the list of detected Wi-Fi networks, enter a password if necessary, and then tap Connect. Networks that require a password appear with a lock icon. After the device connects to a Wi-Fi network, the device will automatically connect to it any time it is available. Adding Wi-Fi networks If the desired network does not appear in the networks list, tap Add Wi-Fi network at the bottom of the networks list.

Enter the network name in Network SSID, select the security type and enter the password if it is not an open network, and then tap Connect. Forgetting Wi-Fi networks Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it. Select the

network in the networks list, and then tap Forget. Setting up accounts Google applications, such as Play Store, require a Google account, and Samsung Apps requires a Samsung account. Create Google and Samsung accounts to have the best experience with the device. Adding accounts Follow the instructions that appear when opening a Google application without signing in to set up a Google account. To sign in with or sign up for a Google account, on the

Applications screen, tap Settings → General → Accounts → Add account → Google. After that, tap New to sign up, or tap Existing, and then follow the on-screen instructions to complete the account setup. More than one Google account can be used on the device. Set up a Samsung account as well.

44 Basics Removing accounts On the Applications screen, tap Settings → General → Accounts, select an account name under My accounts, select the account to remove, and then tap Remove account.
