Manual abstract:

Content may differ from the final product, or from software provided by service providers or carriers, and is subject to change without prior notice. For the latest version of the manual, refer to the Samsung website, www.samsung.com. Content (high quality content) that requires high CPU and RAM usage will affect the overall performance of the device. Samsung is not liable for performance issues or incompatibilities caused by edited registry settings or modified operating system software. Attempting to customise the operating system may cause the device or applications to work improperly. Software, sound sources, wallpapers, images, and other media provided with this device are licensed for limited use. Extracting and using these materials for commercial or other purposes is an infringement of copyright laws. Users are entirely responsible for illegal use of media.

You may incur additional charges for data services, such as messaging, uploading and downloading, auto-syncing, or using location services. To avoid additional charges, select an appropriate data tariff plan. For details, contact your service provider. About this manual Default applications that come with the device are subject to updates and may no longer be supported without prior notice. If you have questions about an application provided with the device, contact a Samsung Service Centre.

For user-installed applications, contact service providers. Modifying the device's operating system or installing softwares from unofficial sources may result in device malfunctions and data corruption or loss. These actions are violations of your Samsung licence agreement and will void your warranty. <http://yourpdfguides.com/dref/5388412>

•nly microSIM cards work with the device. O •ome LTE services may not be available depending on the service provider. For S details about service availability, contact your service provider. 1 Remove the back cover. Be careful not to damage your fingernails when you remove the back cover. Do not bend or twist the back cover excessively.

Doing so may damage the cover. 2 Insert the SIM or USIM card with the gold-coloured contacts facing downwards. 10 Getting started •o not insert a memory card into the SIM card slot. If a memory card happens to D be lodged in the SIM card slot, take the device to a Samsung Service Centre to remove the memory card. •se caution not to lose or let others use the SIM or USIM card. Samsung is not U responsible for any damages or inconveniences caused by lost or stolen cards. 3 Insert the battery. 2 1 4 Replace the back cover. 11 Getting started Removing the SIM or USIM card and battery 1 Remove the back cover. 2 Pull out the battery.

3 Pull out the SIM or USIM card. 12 Getting started Charging the battery Use the charger to charge the battery before using it for the first time. A computer can be also used to charge the device by connecting them via the USB cable. Use only Samsung-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device.

•hen the battery power is low, the device emits a warning tone and displays a low W battery power message. •f the battery is completely discharged, the device cannot be turned on I immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the device. Charging with the charger Connect the USB cable to the USB power adaptor and then plug the end of the USB cable into the multipurpose jack. Connecting the charger improperly may cause serious damage to the device.

Any damage caused by misuse is not covered by the warranty. 13 Getting started •he device can be used while it is charging, but it may take longer to fully charge T the battery. •f the device receives an unstable power supply while charging, the touch screen I may not function. If this happens, unplug the charger from the device. •hile charging, the device may heat up. This is normal and should not affect the W device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging. •f the device is not charging properly, take the device and the charger to a I Samsung Service Centre. After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket.

Do not remove the battery before removing the charger. This may damage the device. To save energy, unplug the charger when not in use. The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The device should remain close to the electric socket while charging. Checking the battery charge status When you charge the battery while the device is off, the following icons will show the current battery charge status: Charging Fully charged 14 Getting started Reducing the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: •hen you are not using the device, switch to sleep mode by pressing the Power button. W •lose unnecessary applications with the task manager. C •eactivate the Bluetooth feature. D •eactivate the Wi-Fi feature.

D •eactivate auto-syncing of applications. D •ecrease the backlight time. D •ecrease the brightness of the display. D Inserting a memory card Your device accepts memory cards with maximum capacities of 64 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device.

•ome memory cards may not be fully compatible with the device. Using an S incompatible card may damage the device or the memory card, or corrupt the data stored in it. •se caution to insert the memory card right-side up. U •he device supports the FAT and the exFAT file systems for memory cards. When T inserting a card formatted in a different file system, the device asks to reformat the memory card.

•requent writing and erasing of data shortens the lifespan of memory cards. F •hen inserting a memory card into the device, the memory card's file directory W appears in the SD memory card folder under the internal memory. 15 Getting started 1 Remove the back cover and bauch screen to contact water. The touch screen may malfunction D in humid conditions or when exposed to water. •o avoid damaging the touch screen, do not tap it with anything sharp or apply T excessive pressure to it with your fingertips. •eaving the touch screen idle for extended periods may result in afterimages L (screen burn-in) or ghosting. Turn off the touch screen when you do not use the device. 20 Basics Finger t which notifications will be blocked, tap Settings → My device → Blocking mode. •ower saving: Activate or deactivate power-saving mode. P •creen Mirroring: Activate or deactivate the screen mirroring feature.

S •i-Fi hotspot: Activate or deactivate the Wi-Fi tethering feature. W •Beam: Activate or deactivate the S Beam feature. S •FC: Activate or deactivate the NFC feature. N •riving mode: Activate or deactivate driving mode. D •mart stay: Activate or deactivate the smart stay feature. S •ync: Activate or deactivate auto-syncing of applications. S •light mode: Activate or deactivate flight mode. F The available options may vary depending on the region or service provider. To rearrange the options on the quick setting panel, open the quick setting panel, tap then tap and drag an item to another location. , and 28 Basics Home screen The Home screen is the starting point to access all of the device's features.

It displays indicator icons, widgets, shortcuts to applications, and others. The Home screen can have multiple panels. To view other panels, scroll left or right. Rearranging items Adding an application icon On the Home screen, tap Apps, tap and hold an application icon, and then drag it into a panel preview. Adding an item Customise the Home screen by adding widgets, folders, or panels.

Tap and hold the empty area on the Home screen, and then select one of the following categories: •pps and widgets: Add widgets or applications to the Home screen. A •older: Create a new folder. <http://yourpdfguides.com/dref/5388412>

Select a network from the list of detected Wi-Fi networks, enter a password if necessary, and then tap **Connect**. Networks that require a password appear with a lock icon. After the device connects to a Wi-Fi network, the device will automatically connect to it any time it is available. Adding Wi-Fi networks If the desired network does not appear in the networks list, tap **Add Wi-Fi network** at the bottom of the networks list.

Enter the network name in **Network SSID**, select the security type and enter the password if it is not an open network, and then tap **Connect**. Forgetting Wi-Fi networks Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it. Select the network in the networks list, and then tap **Forget**. Setting up accounts Google applications, such as Play Store, require a Google account, and Samsung Apps requires a Samsung account. Create Google and Samsung accounts to have the best experience with the device. Adding accounts Follow the instructions that appear when opening a Google application without signing in to set up a Google account. To sign in with or sign up for a Google account, on the Applications screen, tap **Settings** → **Accounts** → **Add account** → **Google**. After that, tap **New** to sign up, or tap **Existing**, and then follow on-screen instructions to complete the account setup. More than one Google account can be used on the device. Set up a Samsung account as well.

37 Basics Removing accounts On the Applications screen, tap **Settings** → **Accounts**, select an account name under **My accounts**, select the account to remove, and then tap **Remove account**. Transferring files Move audio, video, image, or other types of files from the device to the computer, or vice versa. The following file formats are supported by some applications. Some file formats are not supported depending on the version of the device's software or the computer operating system. • **usic**: mp3, m4a, mp4, 3gp, 3ga, wma, ogg, oga, aac, and flac M • **mage**: bmp, gif, jpg, and png I • **ideo**: 3gp, mp4, avi, wmv, flv, and mkv V • **ocument**: doc, docx, xls, xlsx, ppt, pptx, pdf, and txt D Connecting with Samsung Kies Samsung Kies is a computer application that manages media libraries, contacts, and calendars, and syncs them with Samsung devices. Download the latest Samsung Kies from the Samsung website. 1 Connect the device to the computer using the USB cable. 2 Transfer files between your device and the computer. Samsung Kies launches on the computer automatically. If Samsung Kies does not launch, double-click the Samsung Kies icon on the computer.

Refer to the Samsung Kies help for more information. 38 Basics Connecting with Windows Media Player Ensure that Windows Media Player is installed on the computer. 1 Connect the device to the computer using the USB cable. 2 Open Windows Media Player and sync music files. Connecting as a media device 1 Connect the device to the computer using the USB cable.

2 Open the notifications panel, and then tap **Connected as a media device** → **Media device (MTP)**. Tap **Camera (PTP)** if your computer does not support Media Transfer Protocol (MTP) or not have any appropriate driver installed. 3 Transfer files between your device and the computer. Securing the device Prevent others from using or accessing personal data and information stored in the device by using the security features. The device requires an unlock code whenever unlocking it.

Setting a face unlock On the Applications screen, tap **Settings** → **My device** → **Lock screen** → **Screen lock** → **Face unlock**. Fit your face in the frame to be captured. Then, set a backup unlock PIN or pattern to unlock the screen in case the face unlock fails. 39 Basics Setting a face and voice unlock On the Applications screen, tap **Settings** → **My device** → **Lock screen** → **Screen lock** → **Face and voice**. Fit your face in the frame to be captured and then set a voice command. Then, set a backup unlock PIN or pattern to unlock the screen in case the face and voice unlock fails. Setting a pattern On the Applications screen, tap **Settings** → **My device** → **Lock screen** → **Screen lock** → **Pattern**. Draw a pattern by connecting four dots or more, and then draw the pattern again to verify it. Set a backup unlock PIN to unlock the screen when you forget the pattern. Setting a PIN On the Applications screen, tap **Settings** → **My device** → **Lock screen** → **Screen lock** → **PIN**.

Enter at least four numbers, and then enter the password again to verify it. 40 Basics Setting a password On the Applications screen, tap **Settings** → **My device** → **Lock screen** → **Screen lock** → **Password**. Enter at least four characters including numbers and symbols, and then enter the password again to verify it. Unlocking the device Turn on the screen by pressing the Power button or the Home button, and enter the unlock code. If the unlock code is forgotten, take the device to a Samsung Service Centre to reset it. Upgrading the device The device can be upgraded to the latest software. This feature may not be available depending on the region or service provider. Upgrading with Samsung Kies Launch Samsung Kies and connect the device to the computer. Samsung Kies automatically recognises the device and shows available updates in a dialogue box, if any. Click the **Update** button in the dialogue box to start upgrading. Refer to the Samsung Kies help for details on how to upgrade. • o not turn off the computer or disconnect the USB cable while the device is D upgrading. • hile upgrading the device, do not connect other media devices to the computer. W Doing so may interfere with the update process. 41 Basics Upgrading over the air The device can be directly upgraded to the latest software by the firmware over-the-air (FOTA) service.

On the Applications screen, tap **Settings** → **More** → **About device** → **Software update** → **Update**. 42 Communication Phone Use this application to make or answer a call. Tap **Phone** on the Applications screen. Making calls Making a call Use one of the following methods: • **eypad**: Enter the number using the keypad, and then tap . K • **ogs**: Make a call from the history of incoming and outgoing calls and messages.

L • **avourites**: Make a call from the list of favourite contacts. F • **ontacts**: Make a call from the contacts list. C **Speed dial numbers** For speed dial numbers, tap and hold the corresponding digit. **Number prediction** When entering numbers on the keypad, automatic predictions appear. Select one of these to make a call. 43 Communication Finding contacts Enter a name, phone number, or email address to find a contact in the contacts list. As characters are entered, predicted contacts appear. Select one to place a call to it. Making an international call Tap and hold 0 until the + sign appears. Enter the country code, area code, and phone number, and then tap .
