Designed with
Comfort
top of mind

Monumental improvements in speech clarity and noise reduction are complemented by the extremely lightweight ergonomic design of the VMX 100. Not only does it fit the contour of your ear, superior personalized wearing comfort is achieved thanks to a unique 3D ball joint. This enables adjustment of the microphone boom to personal preferences.

And the sleek, slim VMX 100 fits neatly in your pocket. Discreet, durable and sophisticated, the VMX 100 is simple to use and compatible with all Bluetooth® mobile telephones. It also comes with a compact carrying case for convenient storage.

 **Bluetooth**

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Sennheiser Communications is under license.

The blueprint for
VMX 100
excellence

Combining the high-end sound quality known from Sennheiser music recording and reproduction systems with the leading sound perception technologies originally developed for digital hearing instruments by William Demant, Sennheiser Communications has created and is proud to present a truly revolutionary wireless mobile headset – the VMX 100.

@@@Everything else is noise. @@@With the VMX 100, noise is no problem. @@Background noise stays where it belongs. In the background. @@Everybody benefits.

@@The genius of VoiceMax™ is a unique directional system using two microphones and advanced digital processing to distinguish speech from other noises. The two microphones work in synergy; one to emphasize your voice, the other to remove noise. @@The VMX 100 is also easy on your ear. VoiceMax™ works in tandem with an advanced noise management system. Incoming signals are analyzed to isolate speech from noise.

Only speech comes through loud and clear. .
