INT   MENU

Note
New messages in the calls list/ answer machine (network mailbox) list (➔ p. 8) are indicated by a flashing display.

Display keys:
Pressing a key launches the function that appears above that key in the display.

Display	Function when pressed
INT	Call other registered handsets ➔ p. 10.
MENU	Open main/submenu (see Menu tree ➔ p. 15).
⟲	Go back one menu level.
↕	Scroll up/down or adjust volume with.
↹	Move cursor to left/right with.
◄C	Backspace deletes one character at a time.
OK	Confirm menu function or save entry.

The base station at a glance

Registration/paging key:
Search for handsets (press briefly, "Paging" ➔ p. 10)
Register handsets (press and hold ➔ p. 10).

ECO DECT

You are helping to protect the environment with your Gigaset AL110/ AL110A.

Reduced energy consumption
Your telephone has an energy-saving adapter plug and uses less energy.

Reduced transmission power
The transmission power of your telephone is reduced **automatically**:
The **handset's** transmission power is reduced depending on the distance to the base station. The transmission power **on the base station** is reduced to virtually zero when only one handset is registered and the handset is in the base station.

You can reduce the transmission power of the handset and base station **even more** by using **Eco Mode/Eco Mode+** (see Menu tree ➔ p. 16):
◆ **Eco Mode:** 80% transmission power reduction in standby mode and during a call (the range of the base station is reduced).
◆ **Eco Mode+:** 100% transmission power deactivation in standby mode (top left display icon). **Press and hold** the talk key to check that the base station can be reached. You will hear the ringing tone if the base station can be reached.

Gigaset helpdesk: 0845 3670812 (for further details ➔ p. 13)

10. handsets Open main/submenu (see Menu tree p. 15). ¢ " U T ¢ Go back one menu level. Scroll up/down or adjust volume with u. Move cursor to left/right with u. Backspace deletes one character at a time. @@The transmission power on the base station is reduced to virtually zero when only one handset is registered and the handset is in the base station. You can reduce the transmission power of the handset and base station p. 16): even more by using Eco Mode/Eco Mode+ (see Menu tree ⃞ Eco Mode: 80% transmission power reduction in standby mode and during a call (the range of the base station is reduced).

⃞ Eco Mode+: 100% transmission power deactivation in standby mode (top left display icon ½). @@@@10) briefly, "Paging" Register handsets (press and p. 10). @@@@Explain their contents and the potential hazards associated with using the telephone to your children. Care Wipe the base station, charging cradle and handset with a damp cloth (do not use solvent) or an antistatic cloth.

Never use a dry cloth. This can cause static. $ Only use the mains unit supplied. Contact with liquid Fit only the recommended, rechargeable p. 12), i. e. never use a conventional batteries ((non-rechargeable) battery or other battery types as this could result in significant health risks and personal injury. The operation of medical appliances may be affected. Be aware of the technical conditions in your particular environment, e.g. doctor's surgery. Do not hold the rear of the handset to your ear when it is ringing. Otherwise you risk serious and permanent damage to your hearing. The handset may cause an unpleasant humming noise in hearing aids. Do not install the phone in a bathroom or shower room.

The handset and base station are not splashproof. Do not use your phone in environments with a potential explosion hazard, e.g. paint shops. ! ¢ If the handset has come into contact with liquid: 1. Switch off the handset and remove the battery pack immediately. 2. Allow the liquid to drain from the handset. 3. Pat all parts dry, then place the handset with the battery compartment open and the keypad facing down in a dry, warm place for at least 72 hours (not in a microwave, oven etc.

). 4. Do not switch on the handset again until it is completely dry. When it has fully dried out, you will normally be able to use it again. f If you give your Gigaset to someone else, make sure you also give them the user guide.

Please remove faulty base stations from use or have them repaired by our service, as they could interfere with other wireless services. Disposal Batteries should not be disposed of in general household waste. Observe the local waste disposal regulations, details of which can be obtained from your local authority or the dealer you purchased the product from. All electrical and electronic equipment must be disposed of separately from general household waste using the sites designated by local authorities. If a product displays this symbol of a crossed-out rubbish bin, the product is subject to European Directive 2002/96/EC.

The appropriate disposal and separate collection of used equipment serve to prevent potential harm to the environment and to health. They are a precondition for the re-use and recycling of used electrical and electronic equipment. For further information on disposing of your used equipment, please contact your local authority, your refuse collection service or the dealer you purchased the product from. Emergency numbers cannot be dialled if the keypad lock p. 1) is activated! (Not all of the functions described in this user guide are available in all countries. ¢ AL110/AL110A / UK / A31008-M2303-L101-1-7619A31008-M2303-L101-1-7619 / starting.fm / 07.06.2011 3 First steps Check the pack contents ⃞ ⃞ ⃞ ⃞ ⃞ ⃞ One Gigaset AL110/AL110A base station, one mains adapter, one Gigaset AL110H handset, one phone cord, one battery pack, one battery cover, one user guide plus one quick start guide. If you have purchased a model with multiple handsets, the package should contain one battery pack, a battery cover and a charging cradle with mains adapter for each additional handset.

Setting up the base station and charging cradle (if included) The base station and charging cradle are designed for use in enclosed dry rooms with a temperature range of +5 °C to +45 °C. Set up the base station at a central location on a flat, non-slip surface in your house or apartment. ¤ Please note Pay attention to the range of the base station. This is up to 300 m in unobstructed outdoor areas and up to 50 m inside buildings. The p. 16). range is reduced when Eco Mode is activated (¢ The phone's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on today's furnishings, the occurrence of marks on the surfaces cannot be completely ruled out. You can also mount the base station and charging cradle on the wall. Please note: ⃞ Never expose the telephone to the influence of heat sources, direct sunlight or other electrical devices.

⃞ Protect your Gigaset from moisture, dust, corrosive liquids and vapours. Connecting the base station ¤ First connect the mains adapter 1. ¤ Then connect the telephone jack 2 and insert the cables into the cable ducts. Please note: 1 1 2 1 ⃞ The mains adapter must always be connected, as the phone will not operate without mains connection. ⃞ Only use the mains adapter and phone cord supplied.

Pin connections on telephone cables can vary. AL110/AL110A / UK / A31008-M2303-L101-1-7619A31008-M2303-L101-1-7619 / starting.fm / 07.06.2011 4 Connecting the charging cradle (if included) 2 1 ¤ Connect the flat plug from the power supply 1.

¤ Plug the mains adapter into the plug socket 2. 4 If you need to disconnect the plug from the charging cradle, press the release button 3 and disconnect the plug 4. 3 Setting up the handset for use The display is protected by a plastic film. Please remove the protective film! Inserting the battery pack and closing the battery cover Warning ⃞ Place the battery leads in the lead guides so that the battery cover cannot catch on leads and damage them when it is closed. ⃞ Use only the rechargeable battery pack recommended by Gigaset Communications p. 12), i.e. never use a conventional (non-rechargeable) battery pack as this GmbH (could result in significant health risks and personal injury. For example, the battery pack could explode. The phone could also malfunction or be damaged as a result of using batteries that are not of the recommended type.

¢ ¤ Insert the plug into the socket as shown in the enlarged view. ¤ Insert the battery pack. ¤ Place the leads in the lead guides. ¤ Place the cover on the battery compartment as shown in the diagram, then push it up until it clicks into position. If you need to open the battery cover, for instance to replace the batteries: Press down on the battery cover below its upper end and slide the cover down.

¤ AL110/AL110A / UK / A31008-M2303-L101-1-7619A31008-M2303-L101-1-7619 / starting.fm / 07.06.2011 5 Placing the handset in the base/charging cradle ¤ Place the handset in the base/charging cradle with its display facing forward. ¢ Each handset is registered with the base at the factory. You do not need to complete a registration. If you wish to use your handset with a different base or use further handsets with your p. 10). base, you will have to register the handset manually (To charge the batteries, leave the handset in the base/charging cradle. @@@@@@This is not dangerous. @@Charge status of the batteries: 11.12. @@2. p. 16) is activated, the ½ icon is displayed in the top left. @@@@@@12) or contact our Customer Care team p. 13. @@~ (Enter the phone number) c. The phone number is dialled. @@End the call/cancel dialling: Press the end call key a. @@16). "Preselection" Using the directory and lists Directory To open the directory: press h.
