www.gigaset.com/gigasetc610h Gigaset SL78H handset u u u u u Version 4.1, 21.11.2007 Illuminated graphic colour display (256k colours) Polyphonic ringtones Directory for approx. @ @www.gigaset.com/gigasetl78h For more accessories, see page 88 of this manual.

@ @ more than just a telephone Gigaset S810/S810A ? @ @ @ @ @ Your phone can do a whole lot more: u Communicate cordlessly via Bluetooth? with other devices (e. g. headsets), which also use this technology. u You can synchronise your directories on your telephone, mobile phone and PC via Bluetooth? or the USB port using the Gigaset QuickSync software (page 86). u You can save appointments (page 60) and anniversaries, e.g., birthdays (page 40), in your phone and it will remind you of them in advance. u You can designate important people as VIPs to identify important calls from the ringtone (page 37). u You can assign a picture to entries in the directory ? in future the picture will appear every time you receive a call from this number (page 37). u If you do not want to take calls where the caller has withheld their number, just set your handset to only ring if Calling Line Identification has not been withheld (page 73).

u If you do not wish to be disturbed, you can simply set up a time control so that your phone will only ring when it is convenient (page 73). VIP calls are still connected. u You can assign important numbers to the number keys on your phone. The number is then dialled by simply pressing a key (page 69). u Adapt your Gigaset to suit your handsfree requirements (page 72).

u View your personal pictures as a screensaver slide show (page 70). u You can set the display to large font to increase readability in particularly important situations (e.g., the directory and lists) (page 71). u You can adapt the menu display to suit your individual requirements so that only the most important functions (standard mode) or all functions (expert mode ?) are displayed (page 28).

Menu options that are only available in expert mode are marked with the ? icon. u Gigaset Green Home ? Be environmentally aware when using your phone. Details about our ECO DECT products can be found at www.gigaset.com/service. You can find additional information about your phone at www.gigaset.com/gigaset810. Version 4.1, 21.

1, 21.11.2007 9 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / security.fm / 18.03.

2011 Safety precautions Safety precautions Warning Be sure to read this user guide and the safety precautions before using your telephone Explain their content and the potential hazards associated with using the telephone to your children. \$ Use only the power adapter supplied, as indicated on the underside of the base. Use only rechargeable batteries that correspond to the specification provided on page 84, as this could otherwise result in significant health risks and personal injury. Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment e.g., doctor's surgery. If you use a medical device (e.g. a pacemaker), please contact the device manufacturer.

They will be able to advise you regarding the susceptibility of the device to external sources of high-frequency energy. Please refer to the ?Appendix? chapter for the specifications of this Gigaset product. Do not hold the rear of the handset to your ear when it is ringing or when handsfree mode is activated. Otherwise you risk serious and permanent damage to your hearing. Your Gigaset is compatible with the majority of digital hearing aids on the market. However, perfect function with all hearing aids cannot be guaranteed. The handset may cause an unpleasant humming or whistling noise in hearing aids or cause them to overload.

[You're reading an excerpt. Click here to read official SIEMENS
GIGASET S810A user guide
http://yourpdfguides.com/dref/4570141](http://yourpdfguides.com/dref/4570141)

If you require assistance, please contact the hearing aid supplier. Do not install the base or charger in bathrooms or shower rooms. The base and charger are not splashproof (page 84).

Do not use your phone in environments with a potential explosion hazard (e.g., paint shops). ? If you give your Gigaset to a third party, make sure you also give them the user guide. Remove faulty bases from use or have them repaired by our Service department, as they could interfere with other wireless services.

Version 4.1, 21.11.2007 u Not all of the functions described in this user guide are available in all countries. u The device cannot be used in the event of a power failure.

It is also not possible to trans- Please note mit emergency calls. 10 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 First steps First steps Checking the package contents 1 or 2 3 4 5 9 6 7 8 1 One Gigaset S810/S810A base 2 One power adapter 3 One Gigaset S810H handset 4 One phone cord 5 Two batteries 6 One battery cover 7 One belt clip 8 One plastic headset socket cover 9 One user guide If you have purchased a model with multiple handsets the package should contain two batteries, a battery cover, a belt clip and a charger 9 with power adapter J for each additional handset. 9 J Version 4.1, 21.11.2007 11 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.

03.2011 First steps Setting up the base and charger (if included) The base and charger are designed for use in dry rooms in a temperature range of +5C to +45C. Set up the base at a central point in the building on a level, non-slip surface or mount the base (Gigaset S810 only) or charger on the wall (page 91). Please note Pay attention to the range of the base. This is up to 300 m in unobstructed outdoor areas and up to 50 m inside buildings. The range is reduced when Eco Mode (page 59) is activated. The phone's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on today's furnishings, the occurrence of marks on the surfaces cannot be completely ruled out. Please note: u Never expose the telephone to the influence of heat sources, direct sunlight or other electrical devices. u Protect your Gigaset from moisture, dust, corrosive liquids and fumes.

Connecting the base First connect the tel ephone jack 2 and insert the cables into the cable ducts. Then connect the power adapter 1. 2 1 1 1 Please note: u The power adapter must always be connected, as the phone will not operate without a mains connection. u Use only the power adapter and phone cord supplied. Pin connections on tele- phone cables can vary (pin connections page 85).

Version 4.1, 21.11.2007 12 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.

03.2011 First steps Connecting the charger (if included) 2 1 Connect the flat plug from the power adapter 1. Plug the power adapter into the plug socket 2. 4 To disconnect the plug from the charger, press the release button 3 and disconnect the plug 4. 3 Version 4.1, 21.11.2007 13 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.

2011 First steps Setting up the handset for use The display and keypad are protected by plastic films. Remove the protective films! Inserting the batteries and closing the battery cover Warning Use only rechargeable batteries recommended by Gigaset Communications GmbH (page 84), i.e., Never use conventional (non-rechargeable) batteries, as this could result in significant health risks and personal injury. For example, the outer casing of the batteries could be damaged or the batteries could explode. The phone could also malfunction or be damaged as a result of using batteries that are not of the recommended type. Insert the batteries with the polarity in the correct direction. The polarity is indicated in/on the battery compartment. First insert the battery cover at the top a. Then press the cover b until it clicks into place.

To open the battery cover, for instance to replace the batteries, insert a coin into the cavity on the left-hand side of the casing, then pull the battery cover in an upward direction. Version 4.1, 21.11.2007 14 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.

fm / 18.03.2011 First steps Insert the plastic cover provided for the headset socket to ensure optimum sound in handsfree mode. Attaching the belt clip The handset has notches on each side to attach the belt clip. To attach ? press the belt clip onto the back of the handset so that the protrusions on the belt clip engage with the notches.

To remove ? press the centre of the belt clip firmly with your right thumb, push the fingernail of your left index finger up between the clip and the housing and pull the clip in an upward direction. Version 4.1, 21.11.2007 15 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 First steps Initial charging and discharging of the batteries The correct charge status can only be displayed if the batteries are first fully charged and discharged. Charge the handset in the base for 8.5 hours.

8.5 h Please note The handset must only be placed in the designated Gigaset S810/S810A base or charging cradle. After charging, remove the handset from the base and only replace it when the batteries are fully discharged. u Each handset is registered with the base at the factory. You do not need to Please note u u u register the handset again. If you wish to use your handset with a different base or use further handsets with your base, you will need to register the handset manually (page 62). After the initial battery charge and discharge, you may place your handset in the base after every call. Always repeat the charging and discharging procedure if you remove the batteries from the handset and reinsert them. The batteries may warm up during charging. This is not dangerous.

After a while, the charge capacity of the batteries will decrease for technical reasons. Version 4.1, 21.11.2007 16 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.

fm / 18.03.2011 First steps Changing the display language Change the display language if you do not understand the language currently set. Press right on the control key. O5 Deutsch English Francais It li Slowly press keys O and 5 one after the other.

The display for setting languages appears. The current language (e.g. English) is selected. Press down on the control key s ... x Deutsch English Francais Italiano Espanol Select ...

until the language you wish to use is marked, e.g., French. Back Press the right key directly below the display to select this language. The selection is marked with . Deutsch English Francais It li Version 4.1, 21.11.2007 Press and hold the end call key a to return to idle status. 17 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.

fm / 18.

03.2011 First steps Setting the date and time Set the date and time so that the correct date and time can be assigned to incoming calls, and so that the alarm can be used. Press the key below Set Time on the display screen to open the input field. (If you have already set the time and date, open the input field via the menu page 30.

) Calls Set Time Date/Time Date: 31.01.2011 Time: 00:00 The Date/Time submenu is shown on the display. The active input position flashes. Enter day, month and year as an 8-digit number via the keypad, e.g., 4 Q 2Q for 14/10/2011. Save Back Press the right or left control key to change the input position and correct an entry. Press down on the control key to switch to the time input field. Date/Time Date: Enter the hours and minutes in 4-digit format via the keypad, e.g., QM 5 for 07:15 am. Change the input position with the control key if necessary. 14.10.

2011 Time: 00:00 Version 4.1, 21.11.2007 Back Save 18 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 First steps Back Save Press the key below Save on the display screen to confirm your entry. Date/Time ? Saved The display shows Saved. You will hear a confirmation tone and the handset will automatically return to idle status. Display in idle status Once the phone is registered and the time is set, the idle display is shown as in this example.

If the answering machine is activated, the answering machine icon is displayed in the header. Displays u Reception between the base and the handset: i V ? Poor to good: i INT 1 ? No reception: \ Green: Eco Mode activated (page 59) u Battery charge status: ? { white: charged over 66% ? { white: charged between 34% and 66% Calls ? y white: charged between 11% and 33% ? y red: charged below 11% ? y flashes red: battery almost empty (less than 10 minutes talktime) ? xy xy x{ x{ white: battery charging Version 4.1, 21.11.2007 07:15 14 Oct SMS Please note If you have chosen a colour scheme with a white background, the white symbols are displayed in black.

19 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 First steps u INT 1 If Eco Mode+ (page 59) is activated, the icon is displayed in the top left corner of the display. Your answering machine is set with a pre-recorded announcement.

Internal name of the handset (page 65) Your phone is now ready for use! Connecting the headset After removing the plastic cover, you can connect a headset to the left-hand side of your telephone with the 2.5 mm jack connector. See the relevant product page at www.gigaset.com for information on recommended headsets. The headset volume corresponds to the settings for the handset volume (page 72). After using the headset, replace the plastic cover to enable optimum sound in handsfree mode. Connecting the USB data cable You can connect a standard USB data cable with a mini-B connector to the back of your handset to connect the handset to a PC (page 86). Remove the belt clip (if attached) (page 15). Remove the battery cover (page 14).

Connect the USB data cable to USB socket 1. 1 Please note Please connect your handset directly to the PC; do not connect via a USB hub. Version 4.1, 21.11.2007 20 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 First steps What would you like to do next? Now you have successfully set up your Gigaset, you will certainly want to adapt it to your personal requirements. Use the following guide to quickly locate the most important topics.

If you are unfamiliar with menu-driven devices such as other Gigaset telephones, read the section entitled "Using the phone" (page 22) first. Information on ... Setting the ringtone and volume Setting the earpiece volume Recording your own announcement for the answering machine Setting Eco Mode / Eco Mode+ Preparing the telephone for SMS reception Operating the telephone on a PABX Registering existing Gigaset handsets to a base Transferring directory entries from existing Gigaset handsets to new handset(s) Using Bluetooth devices Connecting the phone to the PC .

You can then: u Delete the character to the left of the cursor with the display key (press and hold to delete the word) u Insert characters at the cursor position u Overwrite the highlighted (flashing) character, e.g., when entering time and date. Version 4.1, 21.11.

2007 23 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 Using the phone Using the menus Your telephone's functions are accessed using a menu that has a number of levels. The menu display can be extended (expert mode ?) or restricted (standard mode). Expert mode is the active default setting. Settings or functions that are only available in expert mode are marked in these instructions by the ? icon. Switching between standard mode/expert mode and the menu overview (page 28). Main menu (first menu level) When the handset is in idle status press the right control key v to open the main menu. The main menu functions are shown in the display with icons.

The icon for the selected function is highlighted in orange and the name of the associated function appears in the display header. To access a function, i.e., to open the corresponding submenu (next menu level): Use the control key p to select the required function and press the display key OK. Briefly press the display key Back or the end call key a to revert back to idle status. Back Settings OK Submenus The functions in the submenus are displayed as lists (example on the right). To access a function: Scroll to the function with the control key q and press OK. Briefly press the display key Back or the end call key a to return to the previous menu level/cancel the operation. Settings Date/Time Settings Display Language Registration Back OK Reverting to idle status You can revert to idle status from anywhere in the menu as follows: Press and hold the end call key a. or: Do not press any key: after 2 minutes the display will automatically revert to idle status.

Settings that have not been saved by selecting the display keys OK, Yes, Save or Change are lost. An example of the display in idle status is shown on page 19. 24 Version 4.1, 21.11.2007 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / starting.fm / 18.03.2011 Using the phone Activating/deactivating the handset a With the phone in idle status, press and hold the end call key (confirmation tone) to switch off the handset. Press and hold the end call key again to switch the handset on.

Please note When the handset is switched on, an animation showing the Gigaset logo is displayed for several seconds. Activating/deactivating the keypad lock The keypad lock prevents any inadvertent use of the phone. # Press and hold the hash key in idle status to activate or deactivate the keypad lock. You will hear the confirmation tone. If the keypad lock is activated, you will see a message when you press a key.

The keypad lock deactivates automatically when you receive a call. It is reactivated when the call is finished. Please note When the keypad lock is active, you cannot even call emergency numbers. Version 4.1, 21.

Digit keys appear on the display for pre-dialling; all other keys do not have any further functions. One Touch Call You can set up your phone in such a way that pressing any key dials a previously stored number. This allows children, for example, who cannot enter a number, to call a certain number.

v One Touch Call Change multiple line input: Activation: Select On to activate. Call to: Enter or change number. Press Save to save the settings. When the function is activated, the idle display appears as shown below: i V Making an external call External calls are calls using the public telephone network. ~c Enter the number and press the talk key. or: c~ Press and hold the talk key c and then enter the number. You can cancel the dialling operation with the end call key a. You are shown the duration of the call while the call is in progress. Dialling with the directory (page 37), call list (page 41), redial list (page 41) and automatic redial (page 41) saves you from repeatedly keying in phone numbers. INT 1 Please note OneTouchCall active 0891234567 Off ? 07:15 22 Oct Continuing a call on a Bluetooth headset Precondition: Bluetooth is activated; a connection has been established between the Bluetooth headset and the handset (page 67).

Press the talk key on the Bluetooth headset; it may take up to 5 seconds to establish a connection to the handset. During the call you can adjust the volume of the earpiece and microphone with the side keys. For further details about your headset, see the user guide issued with it. By pressing any key the saved number is dialled. Press the end call key a, to cancel the dialling operation or to end the call. Deactivating the One Touch Call In idle status, press the display key Off. Press and hold the hash key #, to deactivate the One Touch Call. Ending a call a Press the end call key. Version 4.1, 21.

11.2007 31 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / telefony.fm / 18.03.2011 Making calls Accepting a call The handset indicates an incoming call in three ways: by ringing, by a display on the screen and by the flashing talk key c.

Accept the call by: Pressing the talk key c. Pressing the handsfree key d. Gigaset S810: press the display key Accept. Gigaset S810A: press the display key to divert the call to the answering machine (page 55). If the handset is in the base/charger and the Auto Answer function is activated (page 71), the handset automatically answers the call when you remove it from the base/charger.

To deactivate the ringtone, press the Silence display key. You can accept the call as long as it is displayed on the screen. ? CLIP (Calling Line Identification Presentation): the caller's number is displayed. u You have requested CLIP from your network provider. u The caller has requested CLI from the network provider. Call display with CLIP/CLI If the caller's number is saved in your directory, the number is replaced by the corresponding directory entry (/ k/l symbol and name/number). If you have assigned a caller picture to that caller, this will also be displayed. 1234567890 □ Gigaset S810 1 2 3 Accepting a call on a Bluetooth headset Precondition: Bluetooth is activated; a connection has been established between the Bluetooth headset and the handset (page 67). Only press the talk key on the headset when the headset rings; it can take up to 5 seconds. During the call you can adjust the volume of the earpiece and microphone with the side keys.

For further details about your headset, see the user guide issued with it. Accept Silence or 1234567890 □ Gigaset S810A 1 2 3 Silence Calling Line Identification When you receive a call, the caller's number is displayed on the screen if the following conditions are met: u Your network provider supports CLIP, CLI. ? CLI (Calling Line Identification): the caller's number is transmitted. 1 Ringtone icon 2 / k/l symbol from directory 3 Number or name of caller Version 4.1, 21.11.2007 32 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / telefony.fm / 18.03.2011 Making calls The following is displayed in place of the number: u External, if no number is transmitted.

u Withheld, if the caller has withheld Calling Line Identification (page 35). u Unavailable, if the caller has not arranged Calling Line Identification. If the caller number is still not displayed: Please note The ringtone can be switched off for unknown calls (calls with Calling Line Identification withheld) (page 73). activate this function if necessary. In the user guide for the device, search for the term "CLIP" (or an alternative term such as "calling line identification", "phone number transmission", "caller ID", .

..). If necessary, contact the device manufacturer. If this does not resolve the problem, it is possible that your network provider does not the CLIP service for this number.

Check the CLIP settings of your PABX and Notes on calling line display (CLIP) By default, the number of the caller is shown in the display of your Gigaset telephone. You do not have to make any other settings on your Gigaset telephone. Have you ordered the calling line display service from your network provider? However, if the caller's number is not displayed, this can be due to the following: u You have not ordered CLIP from your net- calling line display (CLIP) and that the function has been activated for you. If necessary, contact your provider. Additional information on this subject can be found on the Gigaset homepage at: www.gigaset.com/service Check whether your provider supports work provider or u Your telephone is connected via a PABX or a router with an integrated PABX (gateway) that does not transmit all information. Is your telephone connected via a PABX/gateway? You can establish this by checking for an additional device connected between your telephone and house connection, e.g., a PABX, gateway etc.

In most cases, simply resetting this device will remedy the situation: Briefly disconnect the mains plug of your PABX. Re-insert the plug and wait for the device to restart. Version 4.1, 21.11.2007 33 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / telefony.fm / 18.03.2011 Making calls Handsfree mode In handsfree mode, instead of holding the handset to your ear you can put it down, for example on the table in front of you.

This allows others to participate in the call.

Switching to mute You can deactivate the microphone in your handset during an external call. h Press key to mute the handset. The display shows Microphone is off. Press the key again to reactivate the microphone. u If the telephone is muted, all keys Activating/deactivating handsfree mode Activating while dialling ~d Enter the number and press the handsfree key.

Inform your caller before you use the handsfree function so that the caller knows a third party may be listening. Please note except the mute key h and the end-call key a will not work. u A connected headset will also be muted. Switching between earpiece and handsfree mode d Press the handsfree key. During a call and when listening to the answering machine (Gigaset S810A only), activate or deactivate handsfree mode.

If you wish to place the handset in the base/ charger during a call: Press and hold the handsfree key d while placing the handset in the base/ charger and for a further 2 seconds. For instructions on adjusting the speaker volume (page 72). Please note If you have a headset connected, you can switch between the headset and handsfree mode. Version 4.1, 21.11.2007 34 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / TNet_Features_SAG.fm / 18.03.2011 Making calls using network services Making calls using network services Network services are functions that your network provider makes available to you.

You have to request these services from your network provider. It is not possible to reprogram the network services. If you require assistance, please contact your network provider. Cancelling ringback You can cancel a ringback that has already been initiated. v Ringback off Call waiting during an external call If the function is activated, during an external call you will hear a call waiting tone to signal that another external caller is trying to get through. If you have CLIP (page 32), the number of the waiting caller or the corresponding directory entry is shown in the display. Calling Line Identification Withhold Calling Line Identification once (CLIR): If you make a call, your number is shown in the display of the call recipient if that person has activated CLIP (page 32). If, in certain instances, you do not wish to have your number displayed, you can withhold your number for the next call (CLIR). v Withhold Number ~ Enter phone number. c Press the talk key.

or Dial Press the display key. Activating/deactivating call waiting v All Calls Call Waiting Status Activate/deactivate. Send Press the display key. Accepting a waiting call You are making an external call and hear the call waiting tone. You have the following options: If CLIP (page 32) is activated Accept Press the display key.

If CLIP is not activated Options Accept Waiting Call Once you have accepted the waiting call you can switch between the two callers ("call swap" page 36). Ringback Initiating ringback If the number you have called is engaged, you can initiate ringback. As soon as the line belonging to the person you called is free, your handset will ring. You hear the busy tone. Options Ringback a Press the end call key.

Version 4.1, 21.11.2007 35 Gigaset S810-S810A / Grossbritannien / A31008-M2306-L101-1-7619 / TNet_Features_SAG.fm / 18.03.2011 Making calls using network services Call divert (CD) When diverting a call, the call is forwarded to another connection. The following options are available: u All Calls: Calls are diverted immediately. No more calls are signalled on your phone. u No Answer: Calls are diverted if no one accepts the call within several rings.

u When Busy: Calls are forwarded when your line is busy. Call is diverted without a call waiting tone. v All Calls Call Divert You can enter data in the following fields: When: Select All Calls / When Busy / No Answer. To Phone Number: Enter the number to which the call is to be diverted. Status: Activate/deactivate call divert. Send Press the display key. a After the announcement, press the end call key. The phone number is dialled. You are connected to the second participant. If the caller does not answer, select the display key End to return to the first participant.

Please note You can also select the second participant's phone number from the directory (page 38) or the call list (page 40). Ending a consultation call Options End Active Call You are reconnected to the first caller. You can also end the consultation call by pressing the end call key. The connection is briefly interrupted and you will receive a call back. Once you have pressed the talk key, you are reconnected to the first caller.

Call swap You can speak to both callers one at a time (call swap). Prerequisite: You are conducting an external call and have called a second participant (consultation call) or have accepted a waiting call. Use q to swap between the participants. The caller you are currently speaking to is marked with the icon. Consultation call, call swap These functions enable you to: u Call a second external caller (consultation call) u Switch between two calls (call swap) Ending the current call.

Options End Active Call You are re-connected to the waiting caller. Consultation call You can call a second external caller. The first call is placed on hold. During an external call: Ext. Call Press the display key. The previous call is placed on hold. The other participant hears an announcement. ~ Enter the second participant's telephone number. Version 4.1, 21.
