Manual abstract:

Give each caller his own personal portrait (page 46), look at your personal pictures as a screensaver slide show (page 75) and load the ringtones you want onto your handset (page 87). Customise Make sure your phone is always up-to-date Use the base's Ethernet connection to download new and expanded versions of the base firmware directly from the Internet (page 85). You can load new handset software from your PC to the handset using our Gigaset QuickSync software (page 87). Copy directories from existing Gigaset handsets (page 48), use the QuickDial function (page 74), adapt your Gigaset to your handsfree needs (page 76). @@@@ with the special "touch" Important information: This user guide describes the functions of the SL910/SL910A as supplied. Some of the functions are only available after you have carried out a firmware update for the base (page 85) and for the handset (page 87). These functions are marked with * in the user guide. Version 4.1, 21.11.

Explain their content and the potential hazards associated with using the telephone to your children. \$ Use only the power adapter supplied, as indicated on the rear of the base. Use only the supplied, original batteries (page 92) as this could otherwise result in significant health risks and personal injury. Replacement batteries can be obtained via the Gigaset Service Hotline. Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment, e.g., doctor's surgery. If you use a medical device (e.g. , a pacemaker), please contact the device manufacturer. They will be able to advise you regarding the susceptibility of the device to external sources of high frequency energy. Please refer to the "Appendix" chapter for the specifications of this Gigaset product. Do not hold the rear of the handset to your ear when it is ringing or when handsfree mode is activated. Otherwise you risk serious and permanent damage to your hearing. Your Gigaset is compatible with the majority of digital hearing aids on the market. However, perfect function with all hearing aids cannot be guaranteed. The handset may cause interference in analogue hearing aids (humming or whistling) or cause them to overload. If you require assistance, please contact the hearing aid supplier. Do not install the base or charger in bathrooms or shower rooms. The base and charger are not splashproof (page 92). Do not use your phone in environments with a potential explosion hazard (e.g., paint shops). ? If you give your phone to a third party, make sure you also give them the user guide. Remove faulty bases from use or have them repaired by our Service team, as these could interfere with other wireless services. u Not all functions described in this user guide are available in all countries and with all net- Please note work providers. Version 4.1, 21.11.

2007 u The device cannot be used in the event of a power failure. In this case, it is also not possible to transmit emergency calls. 11 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.2011 First steps First steps Checking the package contents u u u u u u u u One Gigaset SL910/SL910A base One power adapter for the base One phone cable (flattened) One Gigaset SL910H handset One battery cover (rear cover for the handset) One battery One charger One power adapter for the charger One user guide. Installing the base and charger The base and charger are designed for use in dry rooms in a temperature range of +5C to +45C.

[GIGASET SL910A user guide](http://yourpdfguides.com/dref/4570138)

<http://yourpdfguides.com/dref/4570138>

Set up the base on a level, non-slip surface at a central point in the building or mount the base on the wall (page 14). Please note Pay attention to the range of the base. This is up to 300 m in unobstructed outdoor areas and up to 50 m inside buildings.

The range is reduced when Eco Mode is activated (page 62). The phone's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on today's furnishings, the occurrence of marks on the surfaces cannot be completely ruled out. Please note: u Never expose the telephone to the effects of heat sources, direct sunlight or other electrical devices. u Protect your Gigaset from moisture, dust, corrosive liquids and fumes.

Version 4.1, 21.11.2007 12 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.

12.2011 First steps Connecting the base with the phone network and the mains power supply Insert the phone cable (cable B A C C slightly flattened) into the lower connection socket A at the rear of the base. Insert the power cable for the power adapter into the upper connection socket B at the rear of the base. Insert both cables into the appropriate cable channels C . First, connect the power adapter Then connect the phone jack B . B A A . Please note: u The power adapter must always be connected, as the phone will not operate without a power supply. u Use only the power adapter and phone cord supplied. Pin connections on tele- phone cables can vary (pin connections, page 94). Version 4.

1, 21.11.2007 13 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.2011 First steps Wall mounting of the base (optional) Connecting the handset charger Connect the flat plug 2 Plug the power adapter into the plug socket 2 on the power adapter 1 . . 1 If you have to remove the plug from the charger again: Disconnect the power adapter from the mains power supply. Press the release button 3 and disconnect the plug 4 . Version 4. 1, 21.11.2007 4 3 14 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.

2011 First steps Setting up the handset for use The handset's display and keys are covered with a protective film. Please remove the protective film! Warning Please do not use any touchscreen styli to operate the handset! Do not use any protective sleeves/films from other manufacturers, as they may restrict the operation of your handset. Inserting the battery and closing the battery cover Use only rechargeable batteries (page 92) recommended by Gigaset Communications GmbH, as this could result in significant health risks and personal injury. For example, the outer casing of the battery could be destroyed or the battery could explode. The phone could also malfunction or be damaged as a result of using batteries that are not of the recommended type. Warning First insert battery with the contact surface facing down 1 . Then press the battery downwards 2 until it clicks into place. 1 2 First, align the protrusions on the side of the battery cover with the notches on the inside of the casing. Then press the cover until it clicks into place. To reopen the battery cover to replace the battery: Insert your fingernail into the cavity on the bottom of the battery cover and pull the battery cover upwards. Version 4.1, 21.11.2007 15 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.

12.2011 First steps To remove the battery, insert your fingernail into the cavity on the casing and pull the battery upwards. Charging the battery The battery is supplied with a partial charge. Please charge it completely before use. Charge the handset in the charger for 5 hours. 5h Please note The handset must only be placed in the designated charger. Place your handset back in the charger after every call. u Handsets contained in the package have already been registered to the base. Please note If, however, a handset has not been registered (display "Handset not registered to any base"), please register it manually (page 68). u The battery is also charged if the handset is connected via a USB connection to a PC with a power supply of 500 mA. u The battery may heat up during charging. This is not dangerous. u After a time, the charge capacity of the battery will decrease for technical reasons. Version 4.1, 21.

11.2007 16 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.2011 First steps Setting up the base and handset ? installation wizard Once the battery has been inserted, the time and date symbols flash.

The installation wizard starts automatically as soon as you touch one of the flashing symbols. It helps you to configure the following key settings on the handset and base, which are required for operation: u Time and date u Display language u Country in which the phone will be used u Your own area code L Time Welcome 00:00 Date M M M M M 01.04.2010 Display Language English Country If you do not want to configure the settings at this point: Touch the [Skip Settings] option at the bottom of the display. The handset then switches to idle status. You can configure the settings at a later stage using the Settings menu on your handset. To configure the settings: Touch the ? icon next to the time to set the time. United Kingdom Area (Dial Code) (Not configured) Skip Settings ? Save Setting L Time 22 23 58 59 Time Use the left-hand number wheel to 00 01 02 Time Format : 00 01 01 12 hrs 24 hrs Version 4.1, 21.11.

2007 2 select the current hour by touching the number wheel with a finger and moving it upwards or downwards. The number wheel will follow your movements. Operate the right-hand number wheel in the same way to select the minutes. Specify whether you wish the time to be displayed in 12 hrs or 24 hrs mode. To do this, touch the corresponding area under Time Format. The current setting is highlighted. Touch the ? icon (at the top left of the display) to return to the Welcome page. 17 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.

2011 First steps Comment: If you set the 12 hrs mode, am/pm is shown next to the number wheels. Date 01.04.2010 Display Language M M M Date Touch the ? icon next to Date to set the date. English Country L Date 30 31 Jun May Use the three number wheels to set the current date.

The procedure is the same as for setting the time. The current mode for displaying the date is displayed under Date Order (here: Day Month Year). If you want to change the mode: Touch the ? icon. 2013 2012 . 01 02 03 .

If you want to change the setting: Touch the ? icon next to the language displayed. English Version 4.1, 21.

11.2007 Country 18 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.2011 First steps L Display Language English Français Castellano Nederlands Italiano Portugus Dansk This brings up a list containing all the available languages. The current language is marked with . Touch the required language. If your language is not displayed, the list may be "longer" than the display. You must then scroll through the list. To do this, put a finger on the display and move it slowly upwards.

The lower section of the list is then displayed and you can select a language. L Country Welcome United Kingdom Area (Dial Code) M M (Not configured) Enter the country under Country in which you will operate the phone and for which it is authorised. If the setting is not compatible: Touch the corresponding ? icon. L ? Country United Kingdom USA Uruguay Venezuela Vietnam A list of countries is displayed. The current country is marked with . Touch your country. You may have to scroll through the list as described previously. The icon moves to this country. Touch the ? icon again to return to the Welcome page. Please note If you have selected Other Country instead of a country, the Welcome page will also show the Country (Dial Code) entry. Touch the corresponding ? icon and enter the International Prefix and International Area Code for the international country code, as described below for the area code. Proceed as described below. Version 4.1, 21.11.2007 19 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.2011 First steps L Time Area (Dial Code) Welcome Finally, you have to enter your area code: Touch the corresponding ? icon. M (Not configured) L Area (Dial Code) Local Prefix Local Area Code ? The Local Prefix refers to the country-specific prefix that is put in front of the area code when you do not dial the country code.

In England this is "0". The Local Area Code is then 20 for London, for example, or 161 for Manchester. The Local Prefix is only displayed if it is not already stored in the phone for the selected country. Use the keypad to enter the Local Prefix if required (maximum 4 characters) and the Local Area Code (maximum 8 characters). Before entering the numbers, briefly touch the field where the numbers should be entered. You can correct incorrect entries using \$. Touch after entering the numbers to complete the entry. 1 4 GHI 2 ABC 3 DEF 5 JKL 6 MNO 7 PQRS 8 TUV 9 wxyz * 0 # Version 4.1, 21.11.

2007 20 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / starting.fm / 08.12.2011 First steps L Time Welcome 08:32 Date M M M M M The Welcome page is displayed again. Touch the [Save Setting] option to save your settings.

The handset switches to idle status. 01.07.2011 Display Language English Country United Kingdom Area (Dial Code) 020 Skip Settings ? Save Setting Handset in idle status Once you have configured all the necessary settings, your handset switches to idle status. There are three idle display pages (page 23). When you first set up the phone, the configurable page that you can customise is displayed. Here, you can compile important functions and phone numbers for quick access (page 72). Some are set by default. INT 1 06:00 V Status bar Contains the internal handset name (e.g., INT 1; if multiple handsets are registered) and icons that display the current settings and the operating status of the phone. To discover the meaning of the icons, see page 8. Touch the status bar to display the status page page 24) (< > April 28 Thursday Current date Time Contacts ? Call List Open call lists Open Contacts Version 4.1, 21.11.

2007 Your phone is now ready for use. 21 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.fm / 08.12.2011 Using the phone Using the phone Activating/deactivating the handset You will hear a melody. Press and hold the end call key a in idle status to deactivate the handset. Press and hold the end call key a again to reactivate the handset. Operating the touchscreen The Gigaset SL910H handset is primarily operated using the display and only to a small extent using the three buttons on the handset. Icons, list entries, buttons and sliders shown on the display are sensitive areas. You can set up and activate functions, enter or dial phone numbers and navigate between the various display screens (pages) by touching these areas and dragging them across the display.

Selecting functions/list entries To activate a function or select a list item (Contacts, submenu, call list), simply tap your finger on the corresponding icon or on the required list entry on the display. Activating/deactivating functions Functions, e.g., room monitor, answering machine, are activated and deactivated via buttons. If the button slider is to the right, the funcFunction on Function off tion is activated.

The area to the left of the slider is highlighted (on). On On Off If the button slider is to the left, the function is deactivated (off). The area to the Slider Slider right of the slider is black. There are two ways to operate a button: Slowly drag the slider to the right or left to activate or deactivate the function. Touch the area to the right or left of the slider briefly and the slider moves to the right or left to the area that has been touched.

Version 4.1, 21.11.2007 22 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.fm / 08.12.2011 Using the phone Handset idle display The idle display consists of three pages that are shown separately on the display. u The configurable page (example page 21) You can customise this page yourself. More detailed information on configuring this page is available on page 72. By default, the date and time are displayed and quick access can be set for call lists and Contacts (page 21).

u The dial page (example page 7) You will need this page to make calls. The dial page contains an optional field (numerical keypad) to enter phone numbers. You can use the options on this page to make internal calls and to dial numbers from Contacts and the call lists. u The message page (example page 44) You can use this page to go straight to the message lists for the phone: call lists, answering machine list, text messages inbox and network mailbox. An icon and the number of new and old messages are displayed for each list that contains entries. Touch the icon to open the corresponding list. The default configuration, i.e., after the handset is switched on for the first time, is to display the configurable page. Navigation area, changing the page You have to scroll right or left to move from one page to the next.

Each idle display page therefore has a navigation area (example): < > The page position marker shows which idle display page is currently being displayed. The example shows the middle page.

[You're reading an excerpt. Click here to read official SIEMENS GIGASET SL910A user guide](http://yourpdfguides.com/dref/4570138)
<http://yourpdfguides.com/dref/4570138>

To scroll to the right, touch the icon in the navigation area or place a finger on the display and drag it to the left. To scroll to the left, touch the icon or place a finger on the display and drag it to the right. The scroll function is continuous.

On the third page (far right;), touch again to display the first page (far left;). Version 4.1, 21.11.2007 23 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.

fm / 08.12.2011 Using the phone Status bar and status page On each of the three pages, a status bar appears in the header. INT 1 06:00 V For the corresponding icons and their meaning, see page 8. Touch the status bar to display the status page. This page gives you direct (quick) access to the settings for Eco Mode, Eco Mode+, the answering machine for the SL910A, the Bluetooth interface, the Do not disturb setting and the alarm. Status page: u You can use the button on the right to activate or deactivate the relevant components directly. To do this, drag the slider on the touchscreen to the right (on) or the left (off). u Touching the list entry e.g.

, Alarm, opens the corresponding pop-up menu that you can use to configure all the settings for the component. u Touching Show Service Info displays the service information for your handset. You may need the service information when you contact our hotline. Eco Mode Eco Mode+ > on off off on off on Answer Machine Do not disturb Alarm 06:00 Bluetooth Closing the status page Touch the icon in the header to return to the idle display. Show Service Info < Using the menus All the functions for the base and the handset are provided in a menu (main menu). Open the menu: Briefly press the middle key v when the handset is in idle status. The main menu is divided into two "pages" that are displayed separately. The Applications page (subsequently referred to as the Applications menu) comprises all the applications offered by your base or handset. The Settings page (subsequently referred to as the Settings menu) offers all the setting options for the base, handset and telephony. The following picture shows examples of the menus.

The functions/applications contained in the menus depend on the firmware version that is loaded. Version 4.1, 21.11.2007 24 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.

fm / 08.12.2011 Using the phone Applications menu L Page position marker Applications Settings menu L Settings < > < > Contacts ? Call List Write Text Message Alarm Date + Time Audio Settings Display + Keypad i Room Monitor Calendar Language + Location Handsets + Base System SMS Service Centres Screensavers Caller Pictures [Sounds Select Services Telephony Network Mailbox Bluetooth Answer Machine Gigaset SL910A only Switch to a different main menu page Changing between the menu pages You can switch between the menu pages in the same way as you switch between the pages in idle mode, using , or dragging horizontally over the display (page 23). Applications that are currently unavailable and settings that cannot currently be accessed (e.g.

, because the handset is out of range of the base) are greyed out. Opening the submenu Touch an icon on one of the main menu pages and it will be highlighted. The corresponding submenu or a new display page is opened up with settings options for the application. The submenus are displayed as lists. The lists contain the parameters that can be configured and the current setting, available options or buttons to activate/deactivate. Version 4.1, 21.11.2007 25 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.fm / 08.

12.2011 Using the phone L Room Monitor Off Button Sensitivity k Setting options k High Low Forward Internal Number External Current number 1234567890 N Edit M Opens another submenu Change your settings Scrolling through lists (vertical scrolling) If lists (not submenus) are longer than the display, i.e., if it is not possible for all the list entries to be displayed at once, then a drop shadow on the lower and/or upper edge of the display indicates the direction you have to scroll in to view more of the list. You have to scroll vertically through lists: Drag from bottom to top over the display to scroll down in the list (i.e., it appears as if you are pushing the section currently visible upwards out of the display so that the bottom section appears in the display). Drag from top to bottom over the display to scroll upwards in the list. As soon as you scroll in a list, a scroll bar is displayed on the right side of the display. This shows the size and position of the visible section of the list.

Scrolling through lists is not continuous, i.e., you have to scroll back to return to the top from the end of the list. Options Many display pages (especially lists like directories, call lists) have an option slider in the lower section. This displays all the actions that you can apply in the current context. Touch an option to perform the corresponding action. Example (moveable option slider): Version 4.1, 21.11.2007 < ? Calls Contacts QuickDial Internal > 26 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.

fm / 08.12.2011 Using the phone If all of the options cannot be displayed at the same time in one row, a moveable option slider is generally used. You can scroll horizontally using the option slider. Moving the option slider (horizontal scrolling) A moveable option slider is identified by an arrow to the right and/or left next to the options (see the picture above). The arrows indicate that there are additional options to those that are visible. Place a finger on the right of the option slider and drag it to the left to view the options to the right on the display Drag your finger from left to right to view the options to the left on the display Showing/hiding two-line option slider While establishing an external connection and during an external call, an option slider with two lines is used instead of the moveable option slider. If the space is not sufficient for the options available, the icon is displayed below the option slider. Touch to show further options. Touch to hide them again.

Entering numbers and text, incorrect entries The appropriate keypads are displayed to enter numbers and text. An optional field (numerical keypad) for entering phone numbers or a system PIN. A (typewriter) keypad for entering text. You use them to enter characters by touching the relevant character on the display. These then appear in the text or number field displayed on the page. If several number and/or text fields are displayed (e.g., First Name and Surname in a Contacts entry), you must activate the field by touching it before writing. The flashing cursor is displayed in the activated field. To avoid unnecessary incorrect entries: Touch a character on the keypad and this character is enlarged.

If the wrong character is enlarged, you can move your finger to the required character (without lifting it from the display).

[You're reading an excerpt. Click here to read official SIEMENS GIGASET SL910A user guide](http://yourpdfguides.com/dref/4570138)
<http://yourpdfguides.com/dref/4570138>

The character is only copied to the text field once you lift your finger from the display. Briefly touch \$ to delete the last character. Press and hold \$ to delete the whole content of the number or text field. Correcting incorrect entries Entering text Touch the shift key Version 4.

1, 21.11.2007 to change between lower and upper case. If upper case is activated, the keypad is shown in upper case letters, otherwise it is in lower case. Upper case is only activated for the next character.

Then lower case is automatically reactivated. When editing a Contacts entry, the first letter and each letter following a space is automatically in upper case. 27 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.fm / 08.12.2011 Using the phone Touch 123 if you want to enter a digit or a special character. Touch More... to view other special characters.

Touch abc to return to the normal keypad (lower case). You enter special characters (marked/diacritical characters, e.g., umlauts) by pressing and holding the corresponding initial letter and selecting the required character from the list displayed. Diacritical characters in the default character set: a ? l ? y n ? z ? ? c ? e ? s ? i u ? o ? Diacritical characters in the Greek character set: ? ? ? ? ? ? ? ? ? ? ? ? ? ? ? ? Diacritical characters in the Cyrillic character set: Due to the larger space requirement of the Cyrillic character set, you can also ? ? x ? ? ? ? ? ? ? ? ? ? ? ? ? ? ? ? access the following letters by pressing and holding the bold characters shown below. Touch the required character. Touch (if necessary several times) to change the character set or the keypad layout.

The following keypad layouts are available: ? Latin (default) character set with the keypad layouts QWERTZ, for Central Europe, QWERTY (American default) and AZERTY, for the French-speaking area ? Greek character set ? Cyrillic character set Special features when writing an SMS * If the text of an SMS is so long that it cannot be completely displayed in the text field, the first section of the text disappears upwards from the visible area. A scroll bar is displayed on the right side of the text field, which you can use to scroll up and down within the text. You can position the cursor within the text, e.g., to make corrections or add text. Touch the left half of a word and the cursor will be positioned at the start of this word. Touch the right half and the cursor will be positioned at the end of this word. Text entered afterwards will be inserted before this word.

Version 4.1, 21.11.2007 * Important information: page 2 28 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / Using-The-Phone.fm / 08.12.2011 Using the phone Returning to idle status Or: Briefly press end call key a. If you do not press any key and do not touch the display, the display automatically reverts to idle status after approximately three minutes. Returning to the previous display page Just like the idle display pages, the Display Language L ? icon appears on the left-hand side of the header on almost every page. Touch the icon to return to the previous display page (move backwards step by step). Activating/deactivating key and display lock The key and display lock prevents the phone being operated unintentionally. When the handset is in idle status: Press and hold the v menu key to activate or deactivate the lock. When you activate the key and display lock, the Keys and display locked message is displayed briefly. The display backlight switches itself off. If you touch the display when the lock is activated, nothing happens; if you try to press a key, a corresponding message is displayed.

If a call is signalled on the handset, the key lock automatically deactivates and you can accept the call. Once you have accepted the call, the display lock deactivates. The key and display locks activate again once the call has finished. u When the keypad lock is active, you cannot call emergency numbers. u The display is automatically locked with the aid of a proximity sensor if you Please note hold the handset to your ear (display backlight disappears). This lock is deactivated again when you remove the handset from your ear. The sensor is located on the right next to the earpiece. If you cover it accidentally with your finger during a call, the display will also be locked. Version 4.1, 21.

11.2007 43 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / direct_charges.fm / 08.12.2011 Using lists Opening lists via the message page in the idle display u Answering machine list (Gigaset SL910A only) u Network mailbox (if your network provider supports this function and the u Text Messages Inbox* (page 51) u Missed calls list u Missed appointments list (page 43) number of the network mailbox has been stored (page 59).) The list of missed calls and the answering machine list (Gigaset SL910A) are always displayed. The icon for the network mailbox is always displayed, provided the number is stored in the telephone.

The other lists are only displayed if they contain messages. The icons have the following meanings: ? 19 3 Number of new messages in the list List icon (see below) Number of old messages in the list Deleting lists You can delete the entire contents of the individual lists: In the Settings menu (page 25), touch [System]. (If necessary, scroll). Touch ? next to Clean-up List. Touch the symbol next to the list to be emptied.

Press Yes to confirm. Configuring the display of new messages Specify whether receipt of new messages should be displayed on the handset. In the Settings menu (page 25), [g Display and Keypad] submenu touch [g Display and Keypad]. Activate or deactivate the message display using the switch. Indication of New Messages LED + Display Info Version 4.

1, 21.11.2007 * Important information: page 2 44 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / direct_charges.fm / 08.12.2011 Using Contacts When message display is activated: An advisory tone sounds as soon as a new entry arrives in a list. The message LED on the left next to the earpiece also flashes. In idle status, the following message appears: * Icon + 0 x You received ? 1 0 ? New message...

... in the answering machine list (Gigaset SL910A only) or on the network mailbox ... in the Missed Calls list ... in the SMS list * .
.. in the Reminders / Events list 0 The number of new messages is displayed under the icons. Open the list: Touch the list icon. Close the message: Touch x (top right).

If you close the message without opening the list containing the new messages, the LED continues to flash. For messages from the network answering machine, please refer to the user guide. Using Contacts You can create the Contacts list (with up to 500 entries) individually for your handset. You can also send lists/entries to other handsets (page 48). Please note To quickly access a number from Contacts, you can place the number on the configurable page in the idle display (page 72).

You can save up to eight numbers, together with the associated first name and surname, birthdays/anniversaries with signalling, VIP ringtone, caller picture in each Contacts entry. Length of the entries 8 numbers: First name and surname: Max. 32 digits each Max. 16 characters each Opening Contacts (list of Contacts entries) the dial page or during a call. Version 4.1, 21.11.2007 In the Applications menu, touch [? Contacts] or touch [? Contacts] on page 2 45 * Important information: Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / direct_charges.fm / 08.12.

2011 Using Contacts Creating a new entry in Contacts Entry]. Touch the individual fields to enter the corresponding component of the entry. You can touch Add Number up to eight times to assign up to eight numbers to this entry. To create an entry, you must enter at least one number. You can save the components shown in the adjacent picture. If available, confirm each component with or [? Select]. Open Contacts. Touch [d New L New Entry l Name + Add Add Number Add Caller Ringtone Add Birthday M M M M Save Defining default numbers If you have entered several numbers, one of the options / (green) is displayed next to each number. Choose the default number for the entry by touching the corresponding option (= default number). If an entry has only one number, this is the default number.

The default number is the number automatically dialled when you touch the corresponding Contacts entry. Saving a Contacts entry Touch [Save]. Order of Contacts entries You can define whether the entries are to be sorted by first name or surname. Use [Y Surname] and [Y First Name] to define how the entries are to be sorted. If no name was entered, the default number is shown in the surname field.

These entries appear at the beginning of the list, regardless of how the entries are sorted. The sort order is as follows: Space \ Digits (0?9) \ Letters (alphabetical) \ Other characters. Selecting a Contacts entry, navigating in Contacts If your Contacts has too many entries to display all at once, an alphabetical index is shown on the right side. You have the following options: u Scroll vertically to the name you are searching for (page 26). u Touch the first letter in the index.

The display jumps to the first name that begins with this letter. If necessary, scroll on to the desired entry. While you are scrolling, the index is temporarily covered by a scroll bar. Version 4.1, 21.11.2007 46 Gigaset SL910/910A / GBR/IRL / A31008-M2300-L101-1-7619 / direct_charges.fm / 08.12.2011 Using Contacts Dialling with Contacts Open Contacts (page 45).
