Unmanaged Switch

SMC-EZ6505TX / SMC-EZ6508TX
EZ Switch™ 10/100 Mbps Auto-Sensing Switch

OVERVIEW

SMC EZ Switch™ 10/100s are dual-speed desktop network switches that are as easy to install and use as an ordinary hub, with the added dimension of dramatically improving network performance by offering speeds up to 200 Mbps per port. Moreover, every port features auto MDI/MDIX, providing added functionality and ease of use.

Designed for easy integration with any SOHO network, SMC EZ Switches contain added features like Store-and-Forward and Flow Control to ensure data delivery and network integrity. Since full bandwidth capability is achieved on each individual port, the congestion problems of shared hubs are easily avoided through the dedicated bandwidth of these switches. Powerful enough to run your network's backbone, yet so easy they can be used in place of your desktop hubs, the EZ Switch™ brings the power of switching to you.

FEATURES	BENEFITS
Up to 3.2 Gbps of aggregate bandwidth	Plug and play - no software or switches to configure
Dual-speed 10/100 Mbps with 5, 8 auto-sensing ports	At-a-glance LEDs for system and network monitoring
Receives and transmits traffic at full wire speed on all ports.	Use any port for a cascade connection to a hub, switch or computer
Automatic address learning with a 2K MAC address table	Buffered store-and forward switching between 10 and 100 Mbps segments
	Fully compatible with Ethernet and Fast Ethernet networks
