com Assembly Before you can use your phone you need to: · Insert the SIM card. · Attach and charge the battery. SIM card When you register as a subscriber with a network operator, you get a SIM (Subscriber Identity Module) card. The SIM card contains a computer chip that keeps track of your phone number, the services included in your subscription, and your phonebook information, among other things. If you have been using a SIM card in another phone, make sure that your information is saved to the SIM card before you remove it from the other phone. For example, contacts may have been saved in the phone memory %
19 Phonebook. Instruction icons The following instruction icons appear in this user guide: } Use the selection keys or the navigation key to scroll and select.
% 10 Navigating the menus. Important Note Contact your network operator for details. % 6 Available services.
% See also page ... SIM card and battery information Always turn off the phone and detach the charger before you insert or remove a SIM card. It may take up to 30 minutes before the battery icon appears when charging.

Place the back cover as shown in the picture and slide it into place. Open the connector cover and connect the charger to the phone at the flash symbol. The flash symbol on the charger plug must face upwards. It may take up to 30 minutes before the battery icon appears on the screen. Wait approximately 4 hours or until the battery icon indicates that the battery is fully charged. If you do not see the battery icon after this time, press any key or to activate the screen. Remove the charger by tilting the plug upwards. 3 4 5 6 7 PIN (Personal Identity Number) You may need a PIN (Personal Identity Number) to activate the services in your phone. Your PIN is provided by your network operator. When you enter your PIN, the digits are hidden with an *, unless your PIN starts with the same digits as an emergency number, for example 112.

5 Getting started that you can see and call an emergency number without entering a PIN % 19 Emergency calls. If you make a mistake while entering your PIN, delete the number by pressing . If you enter the wrong PIN three times in a row, the SIM card is blocked and the message PIN blocked appears. To unblock it, you need to enter your PUK (Personal Unblocking Key), % 77 SIM card lock. Available services Some services and functions described in this user guide are network- or subscription-dependent. Because of this, all menus may not be available in your phone. This symbol indicates that a service or function is network- or subscription-dependent. Please consult your network operator for more information about your subscription.

Setup wizard You can use the setup wizard to help you get started with the basic settings in your phone. If you do not want help the first time you turn on your phone, you can select to use the wizard later. You can also select to start the wizard from the menu system at any time. The wizard gives you tips on how to use the keypad and guides you through the following settings: · Time and time format. · Date and date format.

· Copying names and numbers from your SIM card to Contacts in the phonebook. To start the setup wizard from the menu system 1 } Settings } the General tab } Setup wizard. 2 Select language for your phone. 3 To use the wizard } Yes and follow the instructions that appear. To speed dial From standby, enter the position number and } Call. 23 Call list The numbers of the last 30 calls that you have made are saved in the call list. If your subscription includes the Calling Line Identification service and This is the Internet version of the user's guide.

© Print only for private use. Calling To set the position number for speed dialling 1 } Phonebook } Options } Speed dial and scroll to the position to which you want to add a phone number } Add. 2 Select a number. To replace a number in the speed dial list 1 } Phonebook } Options } Speed dial. 2 Scroll to the number } Replace. Select a new number for the position. Calling your voicemail service You can easily call your voicemail service by pressing and holding . If you have not set your voicemail number, you will be asked if you want to enter the number. } Yes to enter the number. You get the number from your service provider.

To enter the number to your voicemail service } Messaging } Settings } Voicemail number. Voice control With your phone, you can use your voice to: · Voice dial call someone by saying the name. ·Activate voice control by saying a "magic word". ·Answer and reject calls when using a handsfree kit. You can save approximately 30 recorded words as voice commands in the phone.

Voice commands cannot be saved on the SIM card. There are 25 seconds available for voice commands. When recording, make sure that you are in a quiet environment and try to use names that are distinct from each other % 27 Tips when recording and using voice commands. Voicemail If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call. Receiving a voicemail message Depending on your network operator, you are informed that someone has left a message by a text message or by a voicemail icon.

Press Yes to read the text message and call the voicemail service to listen to the message. 24 This is the Internet version of the user's guide. © Print only for private use. Calling Before voice dialling You must first activate the voice dialling function and record your voice commands. An icon appears next to a phone number that has a voice command. To activate voice dialling and record names 1 } Settings } the General tab } Voice control } Voice dialling } Activate } New voice and select a contact. 2 If the contact has more than one number, use and to view the numbers. Select the phone number to which you want to add the voice command. Now you are going to record a voice command such as "John mobile" for the phone number you selected. 3 Instructions appear.

Lift the phone to your ear, wait for the tone and say the command that you want to record. The voice command is played back to you. 4 If the recording sounds ok } Yes. If not } No and repeat step 3. 5 To record another voice command for a contact } New voice again and repeat steps 2-5 above. Caller name You can choose whether you want to hear the recorded contact name when you receive a call from that contact. To turn the caller name On or Off } Settings } the General tab } Voice control } Play caller name. Voice dialling You can voice dial by saying a pre-recorded voice command. Start voice dialling from standby using the phone, a portable handsfree, a Bluetooth headset or by saying your magic word. To make a call from the phone 1 From standby, press and hold one of the volume buttons.

2 Lift the phone to your ear, wait for the tone and say the name you recorded earlier, for example "John mobile". The name is played back to you and the call is connected. To make a call with a handsfree From standby, press the handsfree button, or Bluetooth headset button. 25 This is the Internet version of the user's guide. © Print only for private use.

Calling The magic word You can record a magic word and use it as a voice command to allow totally handsfree access to voice dialling. Instead of pressing and holding a volume button to voice dial, you say the magic word and then one of your recorded voice commands. The magic word is especially suitable when using a car handsfree kit. Choose a long, unusual word or phrase that can easily be distinguished from ordinary background speech. Voice answering You can answer or reject incoming calls by using your voice, when using a portable handsfree or a car handsfree kit.

You cannot use voice answering if you have selected an MP3 file as ringtone. To activate and record the magic word 1 } Settings } the General tab } Voice control } Magic word } Activate. 2 Instructions appear. } Continue and lift the phone to your ear. Wait for the tone and say the magic word. 3 Instructions appear. } Continue and select the environments in which you want your magic word to be activated. You can select several alternatives. To activate voice answering and record voice answer commands 1 } Settings } the General tab } Voice control } Voice answer } Activate. 2 Instructions appear.

} Continue and lift the phone to your ear. Wait for the tone and say "Answer", or another word. If the recording sounds ok } Yes. If not } No and repeat step 2. 3 Say "Busy", or another word } Yes. 4 Instructions appear. } Continue and select the environments in which you want voice answering to be activated. You can select several alternatives. To answer a call using voice commands When the phone rings, say "Answer" and the call is connected. 26 This is the Internet version of the user's guide.

© Print only for private use. Calling To reject a call using voice commands When the phone rings, say "Busy". The call is rejected. The caller is diverted to voicemail, if activated, or hears a busy tone. Editing your voice commands You can keep all your voice commands up to date by re-recording them or deleting the ones you do not use.

You can also edit a voice command for a phone number in the phonebook. Select the contact you want to edit a voice command for } More } View & edit.

Scroll to the relevant tab and edit your voice command. To re-record a voice command 1 } Settings } the General tab } Voice control } Voice dialling } Edit names. 2 Select a voice command } More } Replace voice.

3 Lift the phone to your ear, wait for the tone and say the command. Tips when recording and using voice commands If your phone cannot detect speech, one of the following might have happened: · You spoke too softly try speaking louder. · You held the phone too far away hold it as you do during a call. · The voice command was too short it should be around one second long and more than one syllable. · You spoke too late or too soon speak immediately after the tone. · You did not record the voice command when the handsfree was attached for voice control with a handsfree kit, record when the handsfree is attached. · You used another intonation use the same intonation as you did when recording the voice command. Diverting calls If you cannot answer incoming calls, you can divert them to another number, for example, your answering service. When the Restrict calls function is activated, some Divert calls options are not available. You can choose between the following divert options: · Divert always divert all calls.

27 This is the Internet version of the user's guide. © Print only for private use. Calling · When busy divert calls if you are already on the phone. · Not reachable divert calls if your phone is turned off or if you are unreachable. · No reply divert calls that you do not answer within a specified time limit (operator-dependent). To activate a call divert 1 } Settings } the Calls tab } Divert calls. 2 Select a call type and then one of the divert options } Activate. 3 Enter the phone number to which you want your calls to be diverted, or } Look up to find the contact in your phonebook } OK. To deactivate a call divert Scroll to the divert option } Deactivate. To check all divert options } Settings } the Calls tab } Divert calls } Check all.

Call waiting service If the call waiting service is activated, you hear a beep if you receive a second call during an ongoing call. To activate or deactivate the call waiting service } Settings } the Calls tab } Manage calls } Call waiting. To make a second call 1 } Hold to put the ongoing call on hold. 2 Enter the number you want to call } Call. Receiving a second call When you receive a second call, you can do the following: · } Answer to answer the second call and put the ongoing call on hold.

· } Busy to reject the second call and continue the ongoing call. · } Replace active call to answer the second call and to end the ongoing call. Handling two calls When you have one ongoing call and one call on hold, you can do the following: More than one call You can handle more than one call simultaneously. For example, you can put an ongoing call on hold, while you make or answer a second call, and then switch between the two calls. 28 This is the Internet version of the user's guide.

© Print only for private use. Calling · } Switch to switch between the two calls. } Join calls to join the two calls into a · Press conference call. } Transfer call, to connect the two calls. · Press You are disconnected from both calls. · } End call to end the ongoing call, then press Yes to retrieve the held call. · } End call twice to end both calls. · You cannot answer a third call without ending one of the first two calls or joining them into a conference call. To join the two calls into a conference call } Join calls. Press To add a new participant 1 } Hold to put the joined calls on hold.

} Add call and call the next person 2 Press you want to include in the conference call. } Join calls. 3 Press 4 Repeat steps 1-3 to include more participants. To release a participant } Release part. and select the participant Press that you want to release from the conference call. To have a private conversation } Talk to and select the participant 1 Press that you want to talk to. 2 } Join calls to resume the conference call. Conference calls In a conference call, you can have a joint conversation with up to five other people. You can also put a conference call on hold and make another call. There may be additional charges for calls involving multiple parties, contact your service provider for more information.

Creating a conference call To create a conference call, you must first have one ongoing call and one call on hold. In a conference call you can can have a private conversation with one of the participants or release a participant. Two voice lines If you have a subscription that supports alternate line service, your phone may have two voice lines with different phone numbers. This is the Internet version of the user's guide. © Print only for private use.

29 Calling This may be useful if, for example, you want to keep business calls and private calls on separate lines. You select which line you want to use for outgoing calls. All outgoing calls are made on this line until you change it. Incoming calls can still be received on either line. You can change the names of the lines, and have different settings for each line, for example, different ringtones.

To select a line } Settings } the Calls tab and select line 1 or 2. To change the name of a line } Settings } the Display tab } Edit line names and select one of the lines to edit the name. Accept calls With the accept calls service, you can choose to receive calls only from certain phone numbers. Other calls are automatically rejected by a busy tone. If the call divert option When busy is activated, calls are diverted instead of rejected by a busy tone. The phone numbers of calls you have rejected are saved in the call list. To add numbers to the accepted callers list 1 } Settings } the Calls tab } Manage calls } Accept calls } Only from list. 2 } Edit } New } Add. This takes you to phonebook look up. Select numbers from your phonebook.

To accept all calls } Settings } the Calls tab } Manage calls } Accept calls } All callers. My numbers You can view, add and edit your own phone numbers. To check your phone numbers } Phonebook } Options } Special numbers } My numbers and select one of the options. 30 This is the Internet version of the user's guide. © Print only for private use. Calling Restricted dialling You can use the restrict calls service to restrict outgoing and incoming calls. This may be useful, for example, when you are abroad. To use this service, you need a password which you get from your service provider If you divert incoming calls, you cannot activate some Restrict calls options. Fixed dialling The fixed dialling function allows calls to be made only to certain numbers saved on the SIM card. Fixed dialling requires a SIM card that allows fixed numbers to be saved.

The fixed numbers are protected by your PIN2.

Calls to the international emergency number 112 can still be made, even when the fixed dialling function is activated. The following calls can be restricted: · All outgoing calls All outgoing. ·All outgoing international calls Outgoing intl. ·All outgoing international calls except to your home country Outgoing intl roaming.

·All incoming calls All incoming. ·All incoming calls when you are abroad (when roaming) Inc. when roaming. To activate or deactivate a call restriction 1 } Settings } the Calls tab } Manage calls } Restrict calls and select an option. 2 Select Activate or Deactivate.

3 Enter your password } OK. Partial numbers can be saved. For example, saving 0123456 allows calls to be made to all numbers starting with 0123456. To activate or deactivate fixed dialling 1 } Phonebook } Options } Special numbers } Fixed dialling and select Activate or Deactivate. 2 Enter your PIN2 } OK and then } OK again to confirm. To save a fixed number } Phonebook } Options } Special numbers } Fixed dialling } Fixed numbers } New number and enter the information. 31 This is the Internet version of the user's guide. © Print only for private use. Calling Call time and cost During a call, the duration of the call is shown on the screen. If you subscribe to cost information, you can check the duration of your last call, outgoing calls and the total time.

You can also check the cost of your last call and the total cost of your calls. If you subscribe to cost information, you must enter your PIN2 to reset the cost or time counter. Setting the call cost You can use the tariff function to specify the price per call unit. If you do not specify a price per call unit, the number of call units appears. To enter the price per call unit 1 } Settings } the Calls tab } Time & cost } Call costs } More } Set tariff. 2 Enter your PIN2 } OK. 3 } Currency and enter the code for the currency you want, (for example GBP for Pounds Sterling) } OK. 4 } Units and enter the price per call unit } OK. To enter a decimal point, press . Credit limit for calls You can enter a total amount of money that can be used for making calls.

When the amount reaches zero, no more calls can be made. Please note that the credit limit is only an estimated value. To set a credit limit 1 } Settings } the Calls tab } Time & cost } Call costs } More } Set credit and enter your PIN2 } OK. 2 Select Limited or Unlimited. If you select Limited, enter an amount } OK. To check the call time } Settings } the Calls tab } Time & cost } Call timers. To reset the call time meter } Settings } the Calls tab } Time & cost } Call timers } More and select Reset total or Reset outgoing. To check the call cost } Settings } the Calls tab } Time & cost } Call costs. To reset the call cost meter } Settings } the Calls tab } Time & cost } Call costs } More } Clear total cost. 32 This is the Internet version of the user's guide.

© Print only for private use. Calling Call priority service You can request a certain priority when you make a call, if your subscription supports the call priority service.
