ERICSSON

Manual abstract:

@@You should read the Guidelines for Safe and Efficient Use and the Warranty chapters before using your mobile phone. The symbol on our products signifies that they have been certified according to the EMC directive 89/336/EEC, the Telecommunications directive 91/263/EEC, and the Low Voltage directive 73/23/EEC when applicable. The products fulfil the requirements according to the following standards: Cellular Phones and Accessories in Combination: ETS 300 342-1 EMC for European digital cellular telecommunications. Accessories Without Direct Connection to a Cellular Phone: EN 50081 Electromagnetic compatibility, Generic Emission Standard, and EN 50082 Electromagnetic compatibility, Generic Immunity Standard. Please contact your network operator or service provider if you are in doubt whether you can use a particular service or not. AB Some of the services in this manual are not supported by all networks. This also applies to the GSM International Emergency Number 112. Getting Started Preparing Your Phone for Use 4 9 Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Turning Your Phone On and Off Display Information and Key Functions Making and Receiving Calls During a Call 11 13 16 AB Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Overview Front Antenna Volume key Indicator light Earpiece Power On/Off Display Keypad Microphone Flip Back Connector for external antenna Battery release catch Battery Hole for belt clip Flip release button Charging connector 4 Preparing Your Phone for Use Flip release button Handsfree connector AB Preparing Your Phone for Use Assembly You need to do the following to use your phone: · · · insert the SIM card attach the battery to the phone charge the battery Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns The SIM Card that keeps track of your phone number, the services included in your subscription, and your Phone Book information, among other things. your phone, you must insert the SIM card as shown below. Inserting and Removing the SIM Card Preparing Your Phone for Use When you register as a subscriber with a network operator, you get a SIM (Subscriber Identity Module) card.

The SIM card contains a computer chip SIM cards come in two sizes. One is the size of a credit card and the other is smaller. Your phone uses the smaller card. Many credit card-sized SIM cards have a perforated smaller card that you can take out easily. Before you can use 1.

Remove the battery if attached. Slide the SIM card into the slot, under the silvery holders, with the golden connectors facing down and the cut corner to the right. AB 5 2. Raise the edge of the SIM card and slide it out. The PIN Most SIM cards are supplied with a security code, also known as PIN (Personal Identity Number), which you need to access the network.

Every Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns your PIN in the information from your operator. unauthorized use of your subscription. Unblocking Key code), which you also get from your operator. time you turn on your phone, you are asked to enter your PIN. You will find Some operators may have services that require a second PIN, your PIN2. You should be careful with your PIN, since it is your protection against If your PIN is entered incorrectly three times in a row, the SIM card is blocked. If this happens, you can unlock it by using your PUK (Personal The Battery Your T28 comes with a lithium battery. The battery is not charged when you buy your phone, but there may be enough power to switch the phone on. We recommend that you charge the battery up to three hours before you use the phone for the first time. Attaching the Battery to Your Phone · Place the battery on the back of the phone and push until you hear a click.

When to Charge the Battery The battery that comes with your phone can be charged whenever you wish without affecting its performance. You can also charge the battery when the phone is off. To remind you that you will soon need to charge the battery or replace it with a charged one: · an alarm signal (a short beep) sounds and the message Attention! Battery low appears in the display 6 Preparing Your Phone for Use AB · the indicator light on top of the phone starts flashing red If you have an Ericsson-approved battery, you can check the remaining talk downwards in standby mode. You can move downwards in the menu by pressing and standby times in the Status menu by sliding the volume key upwards or The remaining standby and talk times depend on the type of Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns satisfactorily. Charging the Battery into the mains socket. To indicate charging: · · the phone is switched on) the message Charging only is shown in the display · the battery meter in the display pulses continuously Preparing Your Phone for Use battery you use and your position in the network. Please note that these times are approximate and you may have 20% less time than is shown in the display. Note! The phone turns itself off when the battery can no longer power it #. 1. Make sure that the battery is 3.

The mains plug may look different depending on the mains socket in your country. Do not connect it to any other item than you Ericsson Travel Charger CTR-10. It must not be separated from the charger when plugged the indicator on the top of the phone shows a steady red light (or green, if Note! If you charge a new battery that is empty, or a battery that has not been used for a long time, it may take a while until you get an indication of charging in the display. Only then can you switch on and use your phone. AB 7 An Ericsson-approved battery is indicated by Ericsson Optimized charging each charging, talk and standby times in the long run, we recommend that you use only Ericsson-approved batteries with your phone.

Batteries that are not Ericsson-approved are charged slowly for safety reasons. Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns battery when the phone is switched on. lengthens the charging time. the indicator on the top of the phone shows a steady green light. Disconnecting the Charger Disconnect the charger from the phone by moving the plug upwards. Removing the Battery 1. Slide the release catch upwards. 8 Preparing Your Phone for Use These are indicated by Charging alien battery each time you start charging the Tip! You can use the phone while the battery is being charged. However, this When the battery is fully charged, the battery meter in the display is full and 2. Lift the battery away from the phone.

AB time you start charging the battery when the phone is switched on.

For the best Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Turning your Phone on If "PIN:" Appears in the Display after you have turned on the phone: wrong number by pressing the C key. 2. Press Y E S . page 58. "The Phone Lock" on page 59. Network Search searches for a network. name (in most cases abbreviated) appears in the display. This is called standby mode. You can now make and receive calls.

Turning Your Phone On and Off 1. Open the flip by pressing the flip release button on the right side of the phone. 2. Press and hold the N O key until you hear a tone. Some SIM cards are protected with a PIN code.

If PIN: appears in the display 1. Enter your PIN. If you make a mistake while entering your PIN, erase the Note! If your PIN is entered incorrectly three times in a row, the SIM card is blocked. You can unblock it by using your PUK. See "The SIM Card Lock" on If 'Phone locked' appears in the display, enter your phone lock code.

See After you have turned on the phone (and entered your PIN), the phone When a network is found, the phone beeps three times. The indicator light on top of the phone flashes green once every second and your network operator's Note! See "Error Messages" on page 106, if you do not reach standby. AB 9 Turning Your Phone On and Off Initial Settings The first time you turn on your phone, you may want to choose the ring signal type and set the clock and date. For more information about these and other settings, see "Personalizing Your Phone" on page 39. Display Language Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns "Display Language" on page 43. to Automatic, or English, in the following ways: To change the display language to Automatic arrow key. 2. Press the 3. Enter 8888. 4.

Press the To change the display language to English arrow key. 2. Press the 3. Enter 0000. 4. Press the Most modern SIM cards automatically set the display language to the language of the country where you bought your SIM card, (Automatic). If this is not the case, the preset language is English. To change the display language, see If your phone shows a language that you do not understand, you can change it 1. If not in standby mode, press and hold the N O key to go to standby. 1.

If not in standby mode, press and hold the N O key to go to standby. % # % # arrow key. arrow key. Turning Your Phone Off · In standby mode, press and hold the N O key until you hear a tone. 10 Turning Your Phone On and Off AB Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns In this chapter, you will also learn about the key functions.

In standby mode, the display shows the name of your operator, the time, the signal strength and the battery power. Other icons appear if you receive any messages, divert all your incoming calls, set the alarm clock and so on. Display Information The table below shows and explains each icon which may appear in standby. Icon Name Explanation Signal strength meter Battery meter Tells you the strength of the network signal. Tells you the status of the battery. You have missed an incoming call. Missed call indicator Divert indicator Accept Some/None indicator Profile indicator All incoming calls will be diverted to a defined number. No calls or only certain calls from numbers in a list are received. Another profile than Normal has been chosen. Ring signal off indicator Alarm indicator Silent indicator SMS indicator No sound can be heard when you receive a call. The alarm clock has been set and is on. All audible signals are turned off, except the alarm and timer. You have received a text message. Voice mail indicator You have received a voice message, depending on your subscription. Indicates that voice dialling is set to Start on Flip.

Line 1 is in use for outgoing calls if you subscribe to the Two Line Service Voice label in phone indicator Line 1 indicator Lntil you press a key or receive a call. signal. Automatic re-dialling is not available for fax and data calls. until the call is answered. When the call is successfully connected, you Note! You do not need to take the phone to your ear until you hear the ring Making International Calls 1. Press and hold the 0 key until a + sign appears. you are calling. number. The + replaces the international prefix number of the country from which 2. Enter the country code, area code (without the leading zero) and phone 3.

Press Y E S . Making Emergency Calls 1. Enter 112 (the international emergency number). 2. Press Y E S .

The international emergency number 112 can normally be used in any country, with or without a SIM card inserted, if a GSM network is within range. Note! Some network operators may require that a SIM card is inserted, and in some cases that the PIN code has been entered as well. Some networks may not use the international emergency number 112. Receiving a Call When you receive a call, the phone rings and the display shows Answer? If your subscription includes the Calling Line Identification (CLI) service and the caller's network sends the number, you see the caller's number in the display. If the caller's number and name are stored in the phone book, the caller's name is also shown.

If the incoming call is a restricted number, the display shows Withheld. If the incoming call is a number without any CLI service, Unknown is shown. 14 Making and Receiving Calls AB Answering a Call · Busy tone Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Rejecting a Call · Slide the volume key on the side of the phone twice. The display shows Busy tone. The caller hears a busy tone if this is Calls" on page 56. closing the flip. Open the flip by pressing the flip release button or press Y E S if the flip is open. supported by the caller's subscription. If Divert When Busy is on, the call is diverted to the number you have specified. See "Diverting Incoming Note! To open the flip without answering a call, you need to slide the volume key while opening the flip.

Then you may reject a call by pressing N O or by Ciphering Ciphering is a built-in feature that scrambles your calls and messages to provide additional privacy. An exclamation mark is shown in the display to indicate that ciphering is currently not being provided by the network. Making and Receiving Calls AB 15 Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns in progress. Your phone has several functions, which you might find helpful while a call is Changing the Listening Volume You can easily change the listening volume during a call by sliding the volume key on the side of the phone. To change the listening volume during a call Slide upwards to increase the volume. Slide downwards to decrease the volume.

· · Muting the Microphone If you wish, you may turn the microphone off during a call. To turn the microphone off temporarily during a call 1. Press and hold down the C key. Muted appears in the display.

Muted 2. To continue your conversation, release the C key. Tip! Instead of pressing and holding the C key, you can put the call on hold. To put a call on hold 1. Press Y E S .

Call held Call held appears in the display. 2. To continue your conversation, press Y E S again. Sending Tone Signals To use telephone banking services or to control an answering machine, you need to use codes. These codes are sent as tone signals (also known as DTMF tones or touch tones).

With your mobile phone, you may use these codes during a call. If you press 0-9, * and # during a call, these numbers and characters are sent as tone signals. Tip! You can also save codes only or codes together with a phone number in your Phone Book. See "Telephone Banking Services" on page 32. However, it may be a risk to save your codes in the phone in case it is stolen. 16 During a Call AB During a Call The Notepad If you want to make a note of a phone number during a call, you can use your phone display as a notepad. To use the notepad during a call · Use the number keys to enter the number. Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Features" on page 20. page 42. When you end the call, the number remains in the display or, if Ask to Save is on, you will be asked to save the number in your phone book.

You can also find the number in Add Number in the Phone Book menu. See "T28 When you enter the number, the person you are talking to will hear the tones. If you wish, you may turn the tones off during a call. See "Turn off Tones" on Checking the Duration or Cost of the Call During a call, the display normally shows the duration in minutes and seconds. Depending on your subscription, you may see the call cost displayed instead. Note! This depends on your network and SIM subscription. See "Knowing the Call Time/Call Cost" on page 73. Minute Minder If you turn on the minute minder, you hear a beep once every minute during a call as a reminder of the duration of the ongoing call. See "Minute Minder" on page 42. More than One Call Simultaneously Your phone is capable of handling more than one call simultaneously.

You can put the current call on hold and then make or answer a second call. You can also set up a conference call with up to five people. See "Handling More than One Call Simultaneously" on page 65. During a Call AB 17 Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns AB 18 During a Call Functions and Settings T28 Features 20 21 27 35 37 39 46 56 58 65 70 73 75 76 79 82 84 88 91 99 Sending and Receiving Text Messages (SMS) Security for Your Phone and Subscription Setting Network Preferences Handling More than One Call Simultaneously Knowing the Call Time/Call Cost Using Two Voice Lines Voice Control Sending and Receiving Fax and Data Calls Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Using the Menus Your Personal Phone Book Using the Call List Your Voice Mail Service Personalizing Your Phone Diverting Incoming Calls Calling Card Calls Extras The Profile Concept Accessories Online Services AB Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns battery; a phone of modern design and advanced technology. name.

settings that suit a meeting are then set automatically. so on. 20 T28 Features Your T28 is a small new generation phone: a Dual Band phone with a lithium The active flip makes it possible for you to answer by just opening the flip. Or why not use the Voice Control and say ´Answer' to answer a call or ´Busy' if you wish to reject the call. You can also call a person by simply saying the The T28 has a ´Profile' feature which makes it possible for you to change a few settings by just choosing a certain Profile, since each profile includes a group of settings preset to suit a certain environment.

For example, when you go to a meeting, you can just choose the ´Meeting' profile and a number of The Profiles are also related to intelligent accessories such as a desktop charger, a portable or vehicle handsfree. For example, you may place the T28 in a vehicle handsfree kit and the ´In Car' profile is chosen automatically. In the display of the T28 you can see a mixture of text and symbols, which makes it easier for you to move through the menus when you want to change a certain setting, turn on the Vibrating Alert, send a message, save a number and An extra feature is the numbered shortcuts, which takes you to a certain setting quickly and easily. You may also create your own favourite menu, ´My Shortcuts', by including the settings you use most often. If you should need help using the menus, the T28 is equipped with help texts to guide you. AB T28 Features Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns send text messages, save important phone numbers, etc. with the of options. Some menus have sub-menus with additional options. You can find all your phone functions in the menus. You use the menus every time you want to change a setting in your phone, such as the ring signal.

You also use the menus to get the most out of your phone: to set the alarm clock, The menus are arranged in a loop, which you enter and move (scroll) through and keys or by using shortcuts. Each menu contains a list %# Name Menu Graphics You enter the menus by pressing are icons symbolizing each menu. Besides these, there are symbols within the sub-menus indicating missed calls, help texts, voice labels etc. % #. or At the top of the display, there The table below illustrates and explains each menu icon and symbol. AB Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns You can create a personal phone book by saving phone numbers and phone numbers or names saved in your phone book. accompanying names (an entry). An easy way to make calls is by recalling the Creating a Personal Phone Book Before you start creating your personal phone book, there are a few things you need to know. You need to learn about the memories, how to save the numbers with the international (+) sign and how to enter letters. Phone Book Memories · · You can save phone numbers and names in: the card memory on the SIM card the phone memory Your entries are first saved in the positions on your SIM card. The actual number of memory positions available depends on your SIM card. Saving your numbers in the card memory allows you to use the numbers saved on the SIM card even when you change phones, i.e. when you insert your SIM card into another phone. By saving your numbers in the phone memory, they are always available to you in your phone, even if you change SIM cards. The phone memory holds 99 positions in which your entries are saved when all SIM positions are occupied. International Numbers If you intend to use your phone both at home and abroad, it is a good idea to save all phone numbers as international phone numbers, i.e. with the (+) sign, (which automatically replaces the international dialling prefix for the country you are calling from) followed by the country code, the area code and the phone number. Your Personal Phone Book AB 27 Your Personal Phone Book To enter an international phone number Exclude the leading zero in the area code. Entering Letters You can enter letters when you use the phone book and when you compose a Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns page 46. appears in the display. Press...
