service or function is network or subscription-dependent. Contact your network operator for details.

% } See also page... Use a selection or navigation key to scroll and select % 13 Navigation. Press the navigation key centre.

Press the upper part of the navigation key. Press the lower part of the navigation key. Press the left part of the navigation key. Press the right part of the
navigation key. Contents This is the Internet version of the User's guide. © Print only for private use. 3 Getting started Turning on the phone, calls,
navigation, phone language, entering letters, keys, menus. More information and downloads are available at www.sonyericsson.com/support.

Assembly Before you start using your phone, you need to insert a SIM card and the battery. SIM card When you register as a subscriber with a network
operator, you get a SIM (Subscriber Identity Module) card. The SIM card contains a computer chip that keeps track of items such as your phone number, the
services included in your subscription, and names and numbers in your contacts. Save contact information on your SIM card before removing it from another

phone; for example, contacts may be saved in the phone memory. *PIN* You may need a *PIN* (Personal Identity Number) for your *SIM* card to start your phone and activate services. When you enter your *PIN*, each digit appears as *, unless your *PIN* starts with the same digits as an emergency number, for example 112. This allows for emergency calls without entering a *PIN*. Press to correct mistakes. If you enter the wrong *PIN* three times in a row, *PIN* blocked appears.

To unblock it, you need to enter your *PUK* (Personal Unblocking Key) % 79 *SIM* card lock.

Battery Some functions use more battery power than others and may require frequent recharging.

If talk time or standby time becomes noticeably shorter, you may have to replace the battery. Only use approved batteries from Sony Ericsson % 91 Battery. 4
Getting started This is the Internet version of the User's guide. © Print only for private use.

SIM card and battery To insert the SIM card To charge the battery 2.5 h 1 Remove the battery cover. 2 Slide the SIM card into its holder with the golden contacts facing down. To insert the battery 1 Connect the charger to the phone. It may take approximately 2.5 hours to fully charge the battery. Press a key to view the screen. 2 Remove the charger by tilting the plug upwards. 1 Insert the battery with the label side up and the connectors facing each other. 2 Close and slide the battery cover into place. Getting started This is the Internet version of the User's guide. © Print only for private use. 5 Turning on your phone Make sure the phone is charged and a SIM card inserted before turning the phone on. After turning on your phone, use the setup wizard to quickly and easily prepare for use. To turn on the phone If predefined settings exist in your phone, you may not need more settings.

If you use Settings download, you must accept to register the phone at Sony Ericsson. A text message is sent. No personal data will be transferred to or processed by Sony Ericsson. Contact your network operator or service provider for more information. Standby After you have turned the phone on and entered your PIN, the name of the network operator will appear on the screen. This is called standby mode. 1 Press and hold . The first start-up may take a few minutes. 2 Select a mode: · Normal full functionality. · Flight mode limited functionality with network and Bluetooth™ transceivers off. 3 Enter your SIM card PIN, if requested. 4 At first start-up, select the language for your phone menus. 5 } Yes for the setup wizard to help you. 6 Follow instructions to complete setup. For more information, % 7 Flight mode menu.

Help in your phone Help and information is available in your phone at any time. To use the setup wizard · From standby select Menu } Settings } the General tab } Setup wizard and select an option: · Settings download · Basic setup · Tips and tricks To view information about functions · Scroll to a function } Info, if available. To view the phone demonstration · From standby select Menu } Entertainment } Demo tour. 6 Getting started This is the Internet version of the User's guide. © Print only for private use.

Settings download Automatically set up functions in your phone that use the Internet; Internet, picture messaging, email, My friends, synchronization, update service, blog and streaming. You can use Settings download if your SIM card supports the service, your phone is connected to a network, it is started in normal mode and does not already have predefined settings. Contact your network operator or service provider for more information. To view Flight mode menu options · From standby select Menu } Settings } the General tab } Flight mode and select an option. Making calls The phone must be in normal mode (not flight mode). To make a call 1 Enter a phone number (with international prefix and area code if applicable). 2 } Call to make a voice call or } More } Make video call to make a video call. 3 } More for options during the call. 4 } End call to end the call. Flight mode menu If you turn on the phone and Flight mode menu is activated, select from Normal with full functionality or Flight mode with limited functionality.

Network and Bluetooth transceivers are turned off to prevent disturbance to sensitive equipment. You can, for example, play music or write a text message to send later but not make calls in an aeroplane. Follow onboard regulations and flight crew instructions for use of electronic devices. Activity menu You can open the activity menu almost anywhere in the phone to view and handle new events, and access bookmarks and shortcuts. Getting started This is the Internet version of the User's guide. © Print only for private use. 7 To open and close the activity menu · Press . Activity menu tabs · New events such as missed calls and messages. When a new event occurs, the tab appears. Press to dismiss an event from the event tab.

New events can also be set to appear as pop-up text iback one level in the menus. Press and hold to return to standby or to end a function. Delete items, such as pictures, sounds and contacts. During a call, press and hold to mute the microphone. Open the activity menu % 7 Activity menu.

Open the browser. Press to take a picture or record a video clip. From standby, press and hold to call your voicemail service (if set). From standby, press and hold any of these keys to reach a contact beginning with a specific letter. Getting started 13 This is the Internet version of the User's guide. © Print only for private use. 7 Activity menu. where you bought your SIM card.

If not, the predefined language is English. To select the writing language 1 From standby select Menu } Settings } the General tab } Language } Writing language. 2 Scroll to the language to use and mark it. } Save to exit the menu. Entering letters Enter letters in one of the following ways (text input methods), for example, when writing messages: · Multitap text input · T9™ Text Input 16 Getting started This is the Internet version of the User's guide. © Print only for private use. To enter letters using T9 Text Input 1 To enter text, you have to be in a function where text input is possible, for example, from standby select Menu } Messaging } Write new } Text message. 2 For example, to write the word "Jane", press , , , . 3 If the word shown is the one you want, press to accept and add a space. To accept a word without adding a space, press .

If the word shown is not the one you want, press or repeatedly to view alternative words. Accept a word and add a space by pressing . 4 Continue writing the message. To enter a punctuation mark, press and then or repeatedly, press to accept and add a space. To add words to the T9 Text Input dictionary 1 When entering letters } More } Spell word. 2 Edit the word by using multitap input. Use and to move the cursor between the letters. To delete a character, press . To delete the entire word, press and hold . When you have edited the word } Insert.

The word is added to the T9 Text Input dictionary. Next time you enter this word using T9 Text Input, it appears in a list of alternative words. Next word prediction When writing a message, you can use T9 Text Input to predict the next word, if previously used in a sentence. To turn next word prediction on/off · When entering letters } More } Writing options } Next word pred. To use next word prediction · When entering letters, press to accept or continue.

File manager Use File manager to handle items such as pictures, video clips, music, themes, Web pages, games and applications saved in the phone memory or on the memory card.

3 Scroll to select files } Mark or Unmark. To select all files in a folder · From standby select Menu } File manager and open a folder } More } Mark } Mark all. To delete a file or a subfolder from the file manager 1 From standby select Menu } File manager and open a folder. 2 Scroll to a file } More } Delete.

Memory card options Check memory status or format the memory card to delete all information. To use memory card options · From standby select Menu } File manager and select the On Memory Stick tab } More for options. Getting started 19 This is the Internet version of the User's guide. © Print only for private use. Calling Calls, video calls, contacts, call list, speed dial, voice control, groups, business cards. networks manually, since searching for unavailable networks consumes battery power.

To view available network options · From standby select Menu } Settings } the Connectivity tab } Mobile networks. To switch networks 1 From standby select Menu } Settings } the Connectivity tab } Mobile networks } GSM/3G networks. 2 } GSM and 3G (automatic) or } GSM only. For more information, contact your network operator. To make a call 1 Enter a phone number (with international country code and area code, if applicable). 2 } Call to make a voice call or } More to view options, such as Make video call % 22 Video call. 3 } End call to end the call. You can call numbers from your contacts and call list % 23 Contacts, and % 27 Call list. You can also use your voice to make calls % 28 Voice control. Making and receiving calls Before you can make or receive any calls, you must turn on your phone and be within range of a network.

% 6 Turning on your phone. To make a video call % 22 Video call. Networks When you turn on the phone, it automatically selects your home network if this is within range. If it is not within range, you may use another network, provided your network operator has an agreement that allows you to do so. This is called roaming.

Select the network to use, or you can add a network to your preferred networks. You can also change the order in which networks are selected during an automatic search. Your phone also switches automatically between GSM and 3G (UMTS) networks depending on availability. Some network operators allow you to switch 20 Calling This is the Internet version of the User's guide. © Print only for private use.

To make international calls 1 Press and hold until a + sign appears. 2 Enter the country code, area code (without the first zero) and phone number. } Call to make a voice call, or } More } Make video call to make a video call. To re-dial a number · If a call connection fails and Retry? appears } Yes. Do not hold the phone to your ear when waiting. When the call connects, the phone gives a loud signal. To turn the loudspeaker on or off during a voice call · } More } Turn on speaker or Turn off speaker. Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing. To change the ear speaker volume · Press to increase or to decrease the ear speaker volume during a call.

Missed calls When the activity menu is set to default, missed calls appear in the New events tab in standby. If pop-up is set to default Missed calls: appears in standby % 7 Activity menu. To check missed calls from standby · If activity menu is set to default, press } the New events tab. Scroll or to select a number and } Call to call. · If pop-up is set to default, } Calls } the Missed tab. Scroll or to select a number and } Call to call. To answer or reject a call · } Answer or } Busy. To turn off the microphone 1 Press and hold . 2 To resume the conversation press and hold again. Calling 21 This is the Internet version of the User's guide.

© Print only for private use. Emergency calls Your phone supports international emergency numbers, for example, 112, 911. These numbers can normally be used to make emergency calls in any country, with or without a SIM card inserted, if a 3G (UMTS) or GSM network is within range. In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.

Video call See a person on screen during calls.
