name (in most cases abbreviated) appears in the display. This is called standby mode. You can now make and receive calls. 1. Open the flip by pressing the flip release button on the right side of the phone. 2. Press and hold the N O key until you hear a tone. Some SIM cards are protected with a PIN code. If PIN: appears in the display 1. Enter your PIN.

If you make a mistake while entering your PIN, delete the Note! If your PIN is entered incorrectly three times in a row, the SIM card is blocked. You can unblock it by using your PUK. See "The SIM Card Lock" on If Phone locked appears in the display, enter your phone lock code. See "The After you have turned on the phone (and entered your PIN), the phone When a network is found, the phone beeps three times. The indicator light on top of the phone flashes green once every second and your network operator's Note! See "Error Messages" on page 104, if you do not reach standby.

Initial Settings The first time you turn on your phone, you may want to choose the ring signal type and set the clock and date. For more information about these and other Turning Your Phone On and Off AB 9 Turning Your Phone On and Off settings, see "Personalizing Your Phone" on page 39.

Display Language Most modern SIM cards automatically set the display language to the language of the country where you bought your SIM card, (Automatic). If this is not the case, the preset language is English (US). To change the display Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns to Automatic, or English (US) , in the following ways: To change the display language to Automatic 2.

Press the u arrow key. 3. Enter 8888. 4. Press the d arrow key. To change the display language to English (US) 2. Press the u arrow key. 3. Enter 0000. 4.

Press the d arrow key. language, see "Display Language" on page 43. If your phone shows a language that you do not understand, you can change it 1. If not in standby mode, press and hold the N O key to go to standby. 1. If not in standby mode, press and hold the N O key to go to standby. Turning Your Phone Off · In standby mode, press and hold the N O key until you hear a tone. 10 Turning Your Phone On and Off AB Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns In this chapter, you will also learn about the key functions. In standby mode, the display shows the name of your operator, the time, the signal strength and the battery power. Other icons appear if you receive any messages, divert all your incoming calls, set the alarm clock and so on. Display Information The table below shows and explains each icon which may appear in standby. Icon Name Explanation Signal strength meter Battery meter Tells you the strength of the network signal. Tells you the status of the battery. You have missed an incoming call. Missed call indicator Divert indicator Accept Some/None indicator Profile indicator All incoming calls will be diverted to a defined number.

No calls or only certain calls from numbers in a list are received. Another profile than Normal has been chosen. Ring signal off indicator No sound can be heard when you receive a call. Alarm indicator Silent indicator SMS indicator The alarm clock has been set and is on. All audible signals are turned off, except the alarm and timer.

You have received a text message. Voice mail indicator You have received a voice message, depending on your subscription. Indicates that voice dialing is set to Start on Open. Linng Y E S . Your phone automatically redials (up to 10 times) · · hear a ring signal. until the call is answered. When the call is successfully connected, you until you press a key or receive a call. Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns ring signal. Automatic redialing is not available for fax and data calls. Note! You do not need to take the phone to your ear until you hear the Making International Calls 1.

Press and hold the 0 key until a + sign appears. you are calling. phone number. The + replaces the international prefix number of the country from which 2. Enter the country code, area code (without the leading zero) and 3. Press Y E S . Making Emergency Calls 1. Enter 112(the international emergency number, or in the Americas 911). 2. Press Y E S .

The international emergency number 112 (or 911) can normally be used in any country, with or without a SIM card inserted, if a GSM network is within range. Note! Some network operators may require that a SIM card is inserted, and in some cases that the PIN code has been entered as well. Some networks may not use the international emergency number 112 (or 911). 911 can also be used in areas that use 112 as the international emergency number, and vice versa. Receiving a Call When you receive a call, the phone rings and the display shows Answer? If your subscription includes the Calling Line Identification (CLI) service and the caller's network sends the number, you see the caller's number in the display.

If the caller's number and name are stored in the phone book, the caller's name is also shown. If the incoming call is a restricted number, the display shows Withheld. If nute Minder" on page 42. More than One Call Simultaneously Your phone is capable of handling more than one call simultaneously. You can put the current call on hold and then make or answer a second call.

You can also set up a conference call with up to five people. See "Handling More than One Call Simultaneously" on page 65. 18 During a Call AB Sending and Receiving Text Messages (SMS) Security for Your Phone and Subscription Handling More than One Call Simultaneously Setting Network Preferences Knowing the Call Time/Call Cost Sending and Receiving Fax and Data Calls The Profile Concept Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Functions and Settings T28 WORLD Features Using the Menus 20 21 27 35 37 39 46 56 58 65 70 73 75 76 79 81 83 87 90 98 Your Personal Phone Book Using the Call Log Your Voice Mail Service Personalizing Your Phone Diverting Incoming Calls Using Two Voice Lines Voice Control Calling Card Calls Extras Accessories Online Services AB Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Your T28 WORLD is a small new generation phone: a Dual Band and advanced technology. the name. number of settings that suit a meeting are then set automatically. WORLD in a vehicle handsfree kit and the `In Car' profile is chosen automatically. number and so on. guide you. 20 T28 WORLD Features (GSM900/1900) phone with a lithium battery; a phone of modern design The active flip makes it possible for you to answer by just opening the flip. Or why not use the Voice Control and say `Answer' to answer a call or `Busy' if you wish to reject the call.

You can also call a person by simply saying The T28 WORLD has a `Profile' feature which makes it possible for you to change a few settings by just choosing a certain Profile, since each profile includes a group of settings preset to suit a certain environment. For example, when you go to a meeting, you can just choose the `Meeting' profile and a The Profiles are also related to intelligent accessories such as a desktop charger, a portable or vehicle handsfree. For example, you may place the T28 In the display of the T28 WORLD you can see a mixture of text and symbols, which makes it easier for you to move through the menus when you want to change a certain setting, turn on the Vibrate Mode, send a message, save a An extra feature is the numbered shortcuts, which takes you to a certain setting quickly and easily. You may also create your own favorite menu, `My Shortcuts', by including the settings you use most often. If you should need help using the menus, the T28 WORLD is equipped with help texts to AB T28 WORLD Features Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns clock, send text messages, save important phone numbers, etc. of options. Some menus have sub-menus with additional options.

You can find all your phone functions in the menus. You use the menus every time you want to change a setting in your phone, such as the ring signal. You also use the menus to get the most out of your phone: to set the alarm The menus are arranged in a loop, which you enter and move (scroll) through with the u and d keys or by using shortcuts.

Each menu contains a list Menu Graphics You enter the menus by pressing u or d. At the top of the display, there are icons symbolizing each menu. Besides these, there are symbols within the sub-menus indicating missed calls, help texts, voice labels etc. The table below illustrates and explains each menu icon and symbol. Symbol Name Description Phone Book menu Messages menu Call Info menu Settings menu Extras menu Your personal phone book.

Handling of text and voice messages. Call time and call cost information. Personal settings and profiles. Games, alarm clock and other extras. Call Handling menu My Shortcuts menu Ongoing call indicator Handling of ongoing calls.

A selection of your most frequently used functions. You have an ongoing call. Missed calls indicator Indicates a missed call in the Call Log, in the missed calls list and in standby. Answered call indicator Indicates an answered call in the Call Log. Indicates a dialed number in the Call Log. Indicates that a phone book entry is saved in the phone memory and the SIM memory is full. Dialed number indicator Phone memory indicator Using the Menus AB 21 Using the Menus Symbol Name Group indicator Unread SMS indicator Unchecked Voice Mail Description Indicates that a text message has not been read. Indicates that a network is forbidden and cannot be used. Home zone indicator Indicates that you are in your home zone. Does not appear on all networks.

AB Indicates that a phone book entry is a group. Moving through the Menus There are two ways of moving through the menus: · · scrolling with u or d using shortcuts Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Press... to.

.. Scrolling by Using u or d U scroll left or up through menus or functions. D YES NO scroll right or down through menus or functions. select a menu, sub-menu or setting.

go back one level in the menu system, exit a setting or leave a setting unchanged. go back to standby mode by pressing and holding the key. delete an item from a list. C Note! For information about how to enter letters, see "Entering Letters" on page 28. Tip! Once in the menu system, you can press and hold the u or d key or slide and hold the volume key until you reach the menu or sub-menu that you want instead of pressing the u or d key repeatedly. Using Shortcuts A quicker way to move through the menus is to use the shortcuts. You simply enter the number of the menu or sub-menu to which you want to go, but you first need to enter the menus by pressing u or d. To get back to standby, you press and hold N O as normal. Tip! A quicker way to enter the Find and Call function is to press and hold d. A quicker way to enter the first sub-menu in the My Shortcuts menu is to press and hold u.

Note! Your phone may not have all the menu alternatives described in this manual since many of them are network- and subscription-dependent. Because of this, the shortcut numbers may vary between phones. How To Interpret the Instructions In the instructions in this manual we use the u and d keys to describe the functions and settings, since the shortcut numbers may vary between phones due to your subscription and network. The following instruction tells you how to set the key sound to Tone'. Using the Menus AB 23 To set the key sound 2. Select Tone. Interpret the instruction as follows: 2. Press Y E S to select the menu. 1. From the standby mode, use d or u to scroll to the Settings menu.

Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns Now you are in the Settings menu. display (Settings). 3. Press Y E S to select the Sounds & Alerts sub-menu. sub-menu in the main menu Settings).

Press Y E S to select the sub-menu. 4. Use d or u to scroll to the Key Sound sub-menu. 5. Use d or u to scroll to Tone.

Press Y E S to select the Tone alternative. Now you have set the key sound to Tone'. To go back to standby mode, press and hold the N O key. To set the key sound 1. Press d or u to enter the menu system. 2. Press 4 to select the Settings menu. 3. Press 1 to select the Sounds & Alerts sub-menu. 4.

Press 5 to select the Key Sound sub-menu. 5. Select Tone. The name of the menu that you have chosen is shown at the top of the (You do not need to scroll with the arrow keys since this is the first This is how to interpret the same instruction as above when using shortcuts: Display Text When you move through the menu system, the display changes. The following hints can help you: · · Black text within a frame at the top indicates the menu you have chosen. Inverted text on a black layer indicates your position in the menu system. If you press Y E S you enter this menu or select this setting. · · · Gray text indicates a function that is temporarily unavailable, for example due to your subscription or due to a certain setting which is not on. Text marked with a check indicates the current setting or settings selected. Text marked with a filled button indicates the current setting selected.

Note! Most sub-menus in the Call Handling menu are shown in gray text when no call is active. However, they are shown in black text during a call. 24 Using the Menus AB 1. Scroll to Settings, Y E S , Sounds & Alerts, Y E S , Key Sound, Y E S . My Shortcuts You can place your favorite settings in the menu My Shortcuts.

In this way, you can quickly and easily reach the settings you use most. When you buy your phone, My Shortcuts contains a few settings which you Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns My Shortcuts.

To add a setting to My Shortcuts 1. Scroll to My Shortcuts, Y E S , Edit Shortcuts, Y E S . 2.
Select a setting from the list by pressing *. 4. Press Y E S . 3. Enter the position number you want for your setting in this menu. If you want to add another
setting, repeat steps 2 and 3. To remove a setting from My Shortcuts, repeat steps 1 and 2. 5. Press Y E S to exit the list. press and hold u.

can remove if you wish. You can also add a setting from another menu to Tip! A quicker way to enter the first sub-menu in the My Shortcuts menu is to Help
texts To help you use the functions and settings of the menus, your phone includes pop-up help texts that explain the sub-menus. These help texts are set to On
when you buy your phone, but you may turn them off at any time. To turn the help texts on or off 1. Scroll to Settings, Y E S , Display, Y E S , Help Functions,

personal phone book by saving phone numbers and phone numbers or names saved in your phone book. accompanying names (an entry). An easy way to
make calls is by recalling the Creating a Personal Phone Book Before you start creating your personal phone book, there are a few things you need to know.
You need to learn about the memories, how to save the numbers with the international (+) sign and how to enter letters.
Phone Book Memories · · You can save phone numbers and names in: the card memory on the SIM card the phone memory Your entries are first saved in the
positions on your SIM card. The actual number of memory positions available depends on your SIM card. Saving your numbers in the card memory allows
you to use the numbers saved on the SIM card even when you change phones, i.e. when you insert your SIM card into another phone.
By saving your numbers in the phone memory, they are always available to you in your phone, even if you change SIM cards. The phone memory holds 99
positions in which your entries are saved when all SIM positions are used. International Numbers If you intend to use your phone both at home and abroad, it
is a good idea to save all phone numbers as international phone numbers, i.e. with the (+) sign, (which automatically replaces the international dialing prefix
for the country you are calling from) followed by the country code, the area code and the phone number. Your Personal Phone Book AB 27 Your Personal
Phone Book To enter an international phone number Exclude the leading zero in the area code. Entering Letters You can enter letters when you use the phone
book and when you compose a Er ics No so t fo nM r ob Com ile me Co rci mm al un Use ica tio ns page 46. appears in the display. Press..
