Contents This is the Internet version of the user's guide. © Print only for private use. 7

8 This is the Internet version of the user's guide. © Print only for private use.

This is the Internet version of the user's guide.

174 10 This is the Internet version of the user's guide. © Print only for private use. 1.4 Instruction symbols Tngs. Note: If you have been using a SIM card in another phone, make sure that your information is saved to the SIM card before you remove it from the other phone.

For example, contacts may have been saved in the phone memory. SIM card and battery information Always turn off the phone and detach the charger before you insert or remove a SIM card. Note: It may take up to 30 minutes before the battery icon appears when charging. 16 This is the Internet version of the user's guide. © Print only for private use. To insert SIM card and battery 1. Remove the battery cover by sliding the two catches on the side of the phone and lifting it away as shown in the picture. 2. Slide the SIM card into its holder. Make sure that the gold contacts of the SIM card are facing down, and the cut off corner is correctly aligned.

3. Place the battery on the back of the phone with the label side up and the connectors facing each other. 4. Place the battery cover as shown in the picture and slide the two catches back into place. To charge the battery 1. Connect the charger to the phone. The symbol on the charger plug must face upwards. 2. It may take up to 30 minutes before the battery icon appears on the screen. 3.

Wait approximately 4 hours or until the battery icon indicates that the battery is fully charged. If you do not see the battery icon after this time, press a key to activate the screen. 4. Remove the charger by tilting the plug upwards. PIN (Personal Identification Number) You may need a PIN (Personal Identification Number) to activate the services in your phone.

The PIN is associated with your SIM card, and not with the phone. Your PIN is provided by Vodafone. When you enter your PIN, each digit appears as *, unless your PIN starts with the same digits as an emergency number, for example 112. This is so that you can see and call an emergency number without entering a PIN. If you make a mistake while entering your PIN, delete the number by pressing .

This is the Internet version of the user's guide. © Print only for private use. 17 Note: If you enter the wrong PIN three times in a row, the SIM card is blocked and the message PIN blocked appears. To unblock it, you need to enter your PUK (Personal Unblocking Key), %127 SIM card lock. Available Services Some services and functions described in this user guide are network or subscription dependent. Because of this, all menus may not be available in your phone.

Please consult Vodafone Customer Care for more information about your subscription. Turning on the phone and making calls Make sure that the phone is charged and your SIM card is inserted before you turn it on. When you have turned the phone on, you can use the setup wizard to quickly and easily prepare your phone for use. To turn on the phone 1.

2. 3. 4. Press and hold . Enter your SIM card PIN, if requested. At first start-up, select the language you want for your phone menus. }Yes if you want the setup wizard to help you get started, and follow the instructions that appear. You can start the wizard from the menu system at any time, } Settings } the General tab } Setup wizard. Setup wizard You can use the setup wizard to help you get started with the basic settings in your phone. The wizard also gives you tips on how to use the keypad.

You can start the wizard from the menu system at any time. } Settings } the General tab } Setup wizard. To make and receive calls Enter the phone number (with international prefix and area code if applicable) } Call to make the call, or press and hold to make a video call. } End call to end the call. When the phone rings } Answer.

18 This is the Internet version of the user's guide. © Print only for private use. 2.4 What is the standby screen? The standby screen is displayed when you are not calling or using the menus. This is where you can see, for example, the name of your operator, the time and the date.

At the top of the standby screen you find the status bar. Keys and navigation Standby screen and main menu and status bar From standby, press to enter the main menu, where the menus are shown as icons. Some submenus include tabs. Scroll to a tab using the navigation key and select an option. The status bar at

the top of the screen contains icons, which give information related to the phone and its activities, %152 List of icons shown in standby. Keys and buttons Press to enter the main menu from standby. Press to select highlighted items. During a call, press to view a list of options. Move through menus and tabs. Press to select the options shown immediately above these keys on the screen.

Press to go back one level in the menus. Press and hold to return to standby or end a function. This is the Internet version of the user's guide. © Print only for private use. 19 Press to delete items, such as pictures, sounds and contacts. During a call, press and hold to mute the microphone. What is the desktop? The desktop is where all the main menu icons are. From standby you reach the desktop by pressing . At the top of the desktop you find the status bar. More options When in the menus, } More to enter a list of options. There are different alternatives in the list of options depending on where you are in the menus. 20 This is the Internet version of the user's guide. © Print only for private use. In standby, press to view status information. To reject a call, quickly press twice when receiving a call. Press once to turn off the ringtone when receiving a call.

During a call, press to decrease the volume. When using the media player (also when minimized), press to decrease the volume. Press and hold to go forward one track. When using the camera, press to zoom out. When using the camera, press to turn on the photo light. Press and hold to set the phone to silent. Press once to turn off the ringtone when receiving a call. Getting back to your language You can always choose language according to SIM by pressing 8888 in standby.

You can always choose English by pressing 0000 in standby Phone language Most SIM cards automatically set the language used in the menu to the language of the country where you bought your SIM card. If this is not the case, the predefined language is English.
To change the phone language 1. } Settings } the General tab } Language } Phone language. 2. Select a language. This is the Internet version of the user's guide.

© Print only for private use. 21 Shortcuts A quicker way to move through the menus is to use shortcuts. You can use desktop shortcuts to quickly go to a menu, and you can use predefined standby shortcuts to quickly reach certain functions. Using desktop shortcuts Enter the menus by pressing and then enter the number of the menu to which you want to go. For example, to reach the fifth menu item, press .
To reach the tenth, eleventh and twelfth menu items, press , and respectively. To go back to standby, press and hold . Using standby shortcuts You can use the predefined shortcuts and use the navigation keys to go directly to that function in standby. Predefined standby shortcuts In your Vodafone live! phone, the following shortcuts are predefined in standby: · · · · Press Press Press Press to use Create new message. to use Calendar. to go to Activity menu. to use Contacts. Getting help More information, explanations or tips about selected features, menus or functions available in your phone. Scroll to a menu item } Info. To edit a standby shortcut } Settings } the General tab } Shortcuts and select which shortcut you want to edit } Edit.

Press if you want to delete the shortcut. 22 This is the Internet version of the user's guide. © Print only for private use. 2.5 Making calls Calling Before you can make or receive any calls, you must turn on the phone and be within range of a network. %18 Turning on the phone and making calls. To make a video call, %27 Video call. Networks When you turn on the phone, it automatically selects your home network if this is within range. If it is not within range, you may use another network, provided Vodafone has an agreement that allows you to do so. This is called roaming.
You can select the network you want to use, or you can add a network to your list of preferred networks. You can also change the order in which networks are selected during an automatic search. For all such options } Settings } the Connectivity tab } Mobile networks. Use or to scroll between the tabs. To make a call More ways of making calls You can call numbers from the call list and contacts, %41 Call list, and %35 Contacts.
You can also use your voice to make calls, %44 Voice control. 1. Enter the phone number (with international country code and area code if applicable). 2. } Call to make a voice call, or press and hold to make a video call.
} More to view options. 3. } End call to end the call. To change the ear speaker volume Press or to increase or decrease the ear speaker volume during a call. To use the loudspeaker during a voice call 1. } More } Turn on speaker to turn on the loudspeaker. 2. } More } Turn off speaker to turn off the loudspeaker. This is the Internet version of the user's guide. © Print only for private use.

23 Note: Do not hold the phone to your ear while using the loudspeaker. This could damage your hearing. To turn off the microphone 1. Press and hold . 2. To resume the conversation, press and hold again. Receiving calls When you receive a call, the phone rings and the caller's number is displayed (if your subscription includes the Calling Line Identification service and the caller's number is identified). If the number is in your contacts, the name, number, and picture (if assigned) are displayed. If the number is a restricted number, Withheld is displayed. To answer a call } Answer.
To reject a call } Busy or quickly press a volume button twice. Missed calls If you have missed a call, and if New events is set to Activity menu, the missed call appears in the Activity menu. } Call to call the missed number. If New events is set to Pop-up, Missed calls: appears, indicating the number of missed calls. To view the missed calls in the call list } Yes.
If you want to view the missed calls later } No. Voice control You can use your voice to answer or reject calls, %46 Voice answering 24 This is the Internet version of the user's guide. © Print only for private use. To check your missed calls 1. From standby } Calls } the Missed tab.
Use or to scroll between the tabs. 2. Use or to scroll to a number and } Call to call a number. Automatic redialling To re-dial a number If the connection of the call failed and Retry? is displayed } Yes. Note: Do not hold the phone to your ear while waiting. When the call is connected, the phone gives a loud signal. The phone redials the number up to ten times or until: · The call is connected · You press Cancel · You receive a call Automatic redialling is not available for data calls. Making international calls When you make an international call, the + sign replaces the international prefix number of the country from which you are calling. You can make a call from abroad, using another network, provided Vodafone has an agreement with that network. To make international calls 1.

Press and hold until a + sign appears on the screen. 2. Enter the country code, area code (without the leading zero) and phone number } Call. 25 This is the Internet version of the user's guide. © Print only for private use. Emergency calls Your phone supports the international emergency numbers, for example, 112 and 911. This means that these numbers can normally be used to make an emergency call in any country, with or without a SIM card inserted, if a 3G (UMTS) or GSM network is within range. Note: In some countries, other emergency numbers may also be promoted. Vodafone may therefore have saved additional local emergency numbers on the SIM card. To make an emergency call Enter, for example, 112 (the international emergency number) } Call.
To view your local emergency numbers } Contacts } Options } Special numbers } Emergency nos. 26 This is the Internet version of the user's guide. © Print only for private use. 2.6 Video call With video call, you can see the person you are talking to on your screen.
Before you start To make a video call, both you and the person you are calling need a subscription that supports the 3G (UMTS) service, and you need to be within range of a 3G (UMTS) network. 3G (UMTS) service is available when the 3G icon appears in the status bar. Video call demo mode You can use the video call functions without making a call, if you, for example, want to prepare a view and check how it looks before calling. Press and hold . Most video call functions are available in the demo mode.
To make a video call 3G network icon When the 3G network icon is displayed in the status bar at the top of the screen, you are able to make and receive video calls to and from other 3G telephones.

1. Press and hold when 3G (UMTS) service is available. 2. Enter the phone number and press Call. To retrieve a phone number from your contacts } Call... } Contacts and scroll to the phone number you want to call } Call or press and hold . 3.

Press Camera or open the lens cover to switch cameras from the front camera to the back camera. Hold the phone horizontally, so that the person you are talking to will see the image at a correct angle. To adjust the brightness of the outgoing video Press to decrease the brightness, or video picture. To zoom the outgoing video in or out Press to zoom in the outgoing video and press to zoom out. 27 to increase the brightness of the outgoing This is the Internet version of the user's guide. © Print only for private use. To accept an incoming video call Press Answer. To end a video call During an ongoing video call, press End call. Video call options Press when using the front camera to view, and select from the following options: · Stop camera/Start camera turn off and on the outgoing video camera. An alternative picture is showed when the camera is off.

· Turn off speaker/Turn on speaker turn off and on the incoming sound during a video call. · Mute microphone/Unmute mic. turn off and on the microphone during a video call (this option is available during calls). · Switch pictures choose between showing the incoming or the outgoing video in full size display. · Hide small pic.

/Show small pic. choose if you want to hide or show the small picture. · Night mode use when the lighting conditions are poor. This setting affects the outgoing video. · Advanced to view, and select, the following options: · Alternative pic.

this picture will be shown to the other party when you have turned off the camera. · Answer mode choose whether the front camera should be on or off when you answer a video call. If you answer with the front camera turned off, you can easily turn it on by pressing Camera. Video calls You can also make video calls from standby or from other applications, such as contacts or messages. In standby, Calls, highlight a number and press and hold . In contacts, highlight a number and press and hold . In a message, highlight a number in the message and press and hold . 28 This is the Internet version of the user's guide. © Print only for private use. · Camera quality select what picture quality to use for the outgoing video.

This setting will take effect at the next call not during an ongoing call. · Mirror image you will see a mirror image of the outgoing video. If you turn mirror image on, you will see yourself as you would in a mirror. The other party will see the picture non-mirrored. · Contacts select a contact to view during an ongoing call useful, for example, when you want to check a number or an email address for a contact (this option is visible during calls). · Transfer sound transfer the sound to and from handsfree equipment using Bluetooth. · Demo clip turn demo clip on or off. This is the Internet version of the user's guide. © Print only for private use. 29 Entering letters There are two ways of entering letters, for example, when writing a message or writing a name in contacts: · Multitap text input You press each key as many times as needed to show the letter you want.

· T9TM Text Input The T9 Text Input method uses a built-in dictionary to recognize the most commonly used word for each sequence of key presses. This way, you press each key only once, even if the letter you want is not the first letter on the key. Writing languages Before you start entering letters, you need to select the languages that you want to use when writing. To select writing language 1. } Settings } the General tab } Language } Writing language.

2. Scroll to each language that you want to use and mark it. } Save to exit the menu. To enter letters using multitap text input 1. To enter text, you have to be in a function where text input is possible, for example } Messaging } Create new } SMS.

2. Press the appropriate key, , or , repeatedly until the character you want appears on the screen. You can see which characters you can choose in the box in the top right corner of the screen. 2.7 Switching writing language When writing, you can switch to one of your selected languages by pressing and holding . 30 This is the Internet version of the user's guide. © Print only for private use. Example: · To enter an 'A', press once. · To enter a 'B', quickly press twice. · To shift between capital and lower-case letters, press , then enter the letter.

· You can use the volume buttons as a shortcut to certain letters. To enter a 'B', press and hold the volume button and press . To enter a 'C', press and hold the volume button and press . To enter letters using T9TM Text Input 1. To enter text, you have to be in a function where text input is possible, for example } Messaging } Create new } Text message. 2. For example, if you want to write the word "Jane", press , , , . 3. If the word shown is the one you want, press to accept and add a space. To accept a word without adding a space, press .

If the word shown is not the one you want, press or to view alternative words. Accept a word and add a space by pressing . 4. Continue writing your message. To enter a full stop or other punctuation marks, press and then or repeatedly.

Accept by pressing . To add words to the T9 Text Input dictionary 1. While entering letters } More } Spell word. 2. Edit the word by using multitap input. Navigate between the letters with and . To delete a character, press . To delete the entire word, press and hold . 3. When you have edited the word } Insert. The word is added to the T9 Text Input dictionary. Next time you enter this word using T9 Text Input, it will appear as one of the alternative words. This is the Internet version of the user's guide. © Print only for private use. 31 To select another writing method Before, or while entering letters, press and hold to select another writing method.

Options list Before, or while entering letters, } More to view a list of options. © Print only for private use. 2.8 My items Use the My Items to handle files saved in the phone memory. Items such as Pictures, Videos, Sounds, Themes, Games, Applications, and Web pages are saved as files in folders. All files that the phone cannot recognize are saved in the Other folder.

You can create your own subfolders in some predefined folders, to which you can move your saved files. You can also transfer the saved files to a computer, %114 File transfer using Bluetooth and %117 Transferring files using the USB cable. To move a file to a folder 1. } My Items and open a folder. 2. Scroll to a file, for example, a picture that you want to move } More } Manage files } Move to folder. 3. Select the folder you want to move the file to, or select New folder and name the folder } OK. To create a subfolder 1. } My Items and open a folder.

2. } More } New folder and enter a name for the folder. 3. } OK to save the folder. To select several files 1. } My Items and select a file } More } Mark } Mark several. 2. Scroll and select more files by pressing Mark or Unmark. Using items If you highlight a file in the Pictures or Sounds folder } More } Use as, you can use the file for several purposes. You can, for example, set a sound as a ringtone, set a picture as screen saver, or add a picture to a contact.

This is the Internet version of the user's guide. © Print only for private use. 33 To select all files in a folder } My Items and select a file } More } Mark press Mark all or Unmark all to remove the selection. To move or copy files to a computer %114 File transfer using Bluetooth and %117 Transferring files using the USB cable File information Items that are downloaded, or received using one of the available transfer methods, may be copyright-protected. If a file is protected, you may not be able to copy or send that file.

You can select to view information for the file. 34 This is the Internet version of the user's guide. © Print only for private use. 2.9 Contacts You can save your contact information in the phone memory as contacts, or on the SIM card as names and numbers.

You can choose which contacts information Phone contacts or SIM contacts is shown as default. Default contact If you select to use Phone contacts as default, your contacts will show all information saved in Contacts. If you select SIM contacts as default, the contacts will only show names and numbers saved on the SIM card. To select default contacts 1. } Contacts } Options } Advanced } Default contacts. 2. Select Phone contacts or SIM contacts. Contacts Contacts is like an address book, in which you can store names, phone numbers and email addresses. You can also add pictures, ringtones and personal information, such as birthday, email, Web and street addresses, to the contacts. When you add information to a contact, the information is organized under five tabs.

To add a phone contact 1. 2. 3. 4. } Contacts } New contact } Add. Enter the name directly or press Add and enter the name } OK. Enter the number directly or press Add and enter the number } OK. Select a number type. Contacts options For useful information and settings } Contacts } Options. This is the Internet version of the user's guide.

© Print only for private use. 35 5. Scroll between the tabs using and . Select fields to enter more information. To enter symbols, for example, @ in an email address } Symbols and select a symbol } Insert.

6. When you have entered the information } Save. SIM contacts On your SIM card, you can save entries as a name with a single number. The number of entries you can save depends on the amount of memory available on the SIM card, see Contacts } Options } Advanced } Memory status. Note: Contact Vodafone for more information.

To add a SIM contact If SIM contacts are default contacts, follow the same steps as for adding a phone contact. You can add only name and number to SIM contacts. Always save on the SIM card You can set the phone to save entries automatically to the SIM card. With this setting, names and phone numbers that you add to or edit in your phone contacts in the phone memory are also saved on the SIM card. The number of phone numbers that can be saved depends on the type of SIM card. To automatically save names and phone numbers to the SIM card 1. } Contacts } Options } Advanced } Auto save on SIM. 2. Select On. Checking the memory With the memory status function, you can check how many positions you have left in the phone memory and SIM memory.

36 This is the Internet version of the user's guide. © Print only for private use. If the memory is full, you must delete contacts to be able to add new contacts, %38 To delete a contact. Adding numbers You can update your contacts with numbers that you have dialled and with numbers from calls that you have received or missed. 1. } Calls from standby and select a tab in the call list. 2. Scroll to the number you want to add to contacts } More } Save number. 3. Add the number to a new contact or to an existing contact.

To check the memory } Contacts } Options } Advanced } Memory status. Pictures and personal ringtones You can add a picture and a personal ringtone to a phone contact. When that person calls, the picture is displayed (provided your subscription supports the Calling Line Identification service) and the ringtone is played. To add a picture or a ringtone to a phone contact 1. } Contacts and select the contact you want to add a picture or ringtone to } More } Edit contact.

2. Use , , and to scroll to the relevant tab. } Picture: or Ringtone } Add. 3. Select a picture or sound.

} Save to save the contact. Calling contacts You can call one of the numbers saved for one of your contacts, or a number on your SIM card. If phone contacts are set as default, you can choose to call from contacts or from the SIM card. If SIM contacts are set as default, you can only call the numbers on the SIM card. To call a phone contact 1. } Contacts. Scroll to, or enter the first letter or letters of the contact you want to call. 2. When the contact is highlighted, press or to select a number } Call. To make a video call, press and hold when the contact is highlighted.

37 This is the Internet version of the user's guide. © Print only for private use. To call a SIM contact 1. } Contacts. 11 42 This is the Internet version of the user's guide. © Print only for private use. 2.12 Voicemail If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call. Calling your voicemail service You can easily call your voicemail service by pressing and holding . If you have not set your voicemail number, you will be asked if you want to enter the number. } Yes to enter the number. You get the number from your network operator. To enter your voicemail number } Messaging } Settings } Voicemail number. This is the Internet version of the user's guide.
© Print only for private use. 43 Voice control With your phone, you can use your voice to: · Voice dial call someone by saying the name. · Activate voice control by saying a "magic word". · Answer and reject calls when using a handsfree kit. Voice commands can only be saved in the internal phone memory, not on the SIM card.
When recording, make sure that you are in a quiet environment and try to use names that are distinct from each other, %47 Tips when recording and using voice commands. 2.13 Voice dialling You can voice dial by saying a pre-recorded voice command. Start voice dialling from standby using the phone, a portable handsfree, a Bluetooth headset or by saying your magic word. You must first activate the voice dialling function and record your voice commands. An icon appears next to a phone number that has a voice command. To activate voice dialling and record names 1. } Settings } the General tab } Voice control }Voice dialling } Activate } Yes } New voice } Add and select a contact. 2. If the contact has more than one number, use and to view the numbers. Select the phone number to which you want to add the voice command. Now you are going to record a voice command such as "John mobile" for the phone number you selected. 44 This is the Internet version of the user's guide. © Print only for private use. 3.

Instructions appear. Wait for the tone and say the command that you want to record. The voice command is played back to you. 4. If the recording sounds ok } Yes. If not } No and repeat step 3. 5. To record another voice command for a contact } New voice } Add again and repeat steps 2-4 above. To make a call from the phone 1. From standby, press and hold one of the volume buttons.
2. Wait for the tone and say the name you recorded earlier, for example "John mobile". The name is played back to you and the call is connected. To make a call with a handsfree From standby, press the handsfree button, or the Bluetooth headset button. Caller name You can choose whether you want to hear the recorded contact name when you receive a call from that contact.
To turn the caller name on or off } Settings } the General tab } Voice control } Play caller name. The magic word You can record a magic word and use it as a voice command to allow totally handsfree access to voice dialling.

Instead of pressing and holding a volume button to voice dial, you say the magic word and then one of your recorded voice commands. The magic word is especially suitable when using a car handsfree kit. Note: Choose a long, unusual word or phrase that can easily be distinguished from ordinary background speech.

This is the Internet version of the user's guide. © Print only for private use. 45 To activate and record the magic word 1. } Settings } the General tab } %44 Voice control } Magic word } Activate. 2. Instructions appear. } Continue. Wait for the tone and say the magic word. 3. Instructions appear.

} Continue and select the environments in which you want your magic word to be activated. You can select several alternatives. Voice answering You can answer or reject incoming calls by using your voice, when using a portable or car handsfree kit. Note: You can only use a MIDI, WAV, EMY or IMY file as a ringtone with voice answering. To activate voice answering and record voice answer commands 1. } Settings } the General tab } Voice control } Voice answer } Activate. Instructions appear. } Continue. Wait for the tone and say "Answer", or another word. If the recording sounds ok } Yes.

If not } No and repeat step 2. 2. Say "Busy", or another word } Yes. 3. Instructions appear.

} Continue and select the environments in which you want voice answering to be activated. You can select several alternatives. To answer a call using voice commands When the phone rings, say "Answer" and the call is connected. To reject a call using voice commands When the phone rings, say "Busy". The call is rejected.

The caller is diverted to voicemail, if activated, or hears a busy tone. 46 This is the Internet version of the user's guide. © Print only for private use. Editing your voice commands You can edit all your voice commands saved in Contacts. Select the contact you want to edit a voice command for } More } Edit contact. Scroll to the relevant tab and edit your voice command. To re-record a voice command 1. } Settings } the General tab } Voice control } Voice dialling } Edit names. 2. Select a voice command } More } Replace voice.

3. Wait for the tone and say the command. Tips when recording and using voice commands If your phone cannot detect your voice command, one of the following might have happened: · You spoke too softly try speaking louder. · You held the phone too far away hold it as you do during a call. · The voice command was too short it should be around one second long and more than one syllable. · You spoke too late or too soon speak immediately after the tone. · You did not record the voice command when the handsfree was attached for voice control with a handsfree kit, record when the handsfree is attached. · You used another intonation use the same intonation as in the recorded voice command. This is the Internet version of the user's guide. © Print only for private use.

47 Diverting calls If you cannot answer incoming calls, you can divert them to another number, for example, your answering service. Note: When the Restrict calls function is activated, some Divert calls options are not available. You can choose between the following divert options: · · · · Divert always divert all calls. When busy divert calls if you are already on the phone. Not reachable divert calls if your phone is turned off or if you are unreachable.

No reply divert calls that you do not answer within a specified time limit. 2.14 To activate a call divert 1. } Settings } the Calls tab } Divert calls. Use or to scroll between the tabs.
