### Manual abstract:

*Extended User guide* an up-to-date User guide with step-by-step instructions and additional information on features available in your phone. The *Extended User guide* is available on the Memory card. You can also access this document at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). Please read the Important information before you use your mobile phone. 5 This is an Internet version of this publication. © Print only for private use. Getting started Assembly Before you start using your phone, you need to insert a SIM (Subscriber Identity Module) card and the battery. To insert the SIM card 1 2 Remove the battery cover.

Put the SIM card into its holder with the gold-coloured contacts facing down. To insert the battery 1 2 Insert the battery with the label side up and the connectors facing each other. Put the battery cover into place. 6 This is an Internet version of this publication. © Print only for private use.

Turning on the phone To turn on the phone 1 2 3 Press and hold down . Enter your SIM card PIN, if requested, and select OK. The first time you turn on the phone, follow the instructions to use the setup wizard for basic settings and useful tips. PIN You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by your network operator.

Each PIN digit appears as \* unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN. If you enter the wrong PIN three times in a row, the SIM card is blocked. See SIM card lock on page 76. SIM card The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card. You can save contacts on the SIM card before you remove it from your phone. See To copy contacts between the memory card and the SIM card on page 24. Charging the phone The phone battery is partly charged when you buy it. 7 This is an Internet version of this publication.

© Print only for private use. To charge the phone using the power adapter · Connect the phone to a power outlet using the USB cable provided and the power adapter. You can use your phone while it is charging. You can charge the battery at any time and for more or less than 3 hours using the power adapter. You can interrupt the charging without damaging the battery. To charge the phone using a computer · Connect the phone to a USB port on a computer using the USB cable provided. Memory You can save content on a memory card, in the phone memory and on your SIM card. Photos and music are saved on the memory card, if a memory card is inserted. If not, or if the memory card is full, photos and music are saved to the phone memory. Messages and contacts are saved in the phone memory by default, but you can choose to save them on the SIM card.

To view available memory Select Menu > Organiser > File manager. · Memory card Your phone supports memory cards, adding more storage space to your phone. A memory card used in your phone can also be used with other compatible devices. You can move content between your memory card and the phone memory. To insert or remove a memory card 1 2 Insert the memory card with the gold-coloured contacts facing down.

To release and remove the memory card, press and select Remove memory card, then press the edge of the memory card inwards. Help in the phone An extended User guide is saved on your phone memory card. You can also access this document at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

Help on most applications is available from the Organiser in your phone the icon of the desired view. You can flick your finger right or left on the screen to switch between views. · To navigate within a standby view When within, for example, the Album view, flick your finger up or down on the screen. Tap a photo or video clip and select Send as.

Select a sending method. To view a full-size photo in Media Tap . Tap a photo and select View in Media. To play video clips from the Album view Tap a video clip and select View in Media. 1 2 3 1 2 · Shortcuts view The Shortcuts view provides a list of shortcuts to different applications and bookmarks.

You can personalise the shortcuts you wish to show. To change shortcut settings Tap . Tap . Select a shortcut and tap Options > Change. When Shortcut type: appears, select Application or Bookmark.

Double-tap an item. To save your settings, select Back. 1 2 3 4 5 6 Twitter view You can access Twitter from this view. You can check your friends' status, or comment on their latest posts. Before using this service, you must have the required Internet connection settings in your phone. · To create a new post Enter text in the text field and tap . · To view a comment on the Twitter website Tap next to the desired comment. To comment on new posts Tap next to a post and enter your comments in the text field shown above the post. To send your comments, tap . To refresh the Twitter view Tap .

To go to the Twitter website When you view a post, tap . 1 2 · · Using other networks Making and receiving calls, using messaging and data transfer, for example, Internet-based services, outside your home network (roaming) may incur additional costs. Contact your operator for more information. 14 This is an Internet version of this publication. © Print only for private use. Status icons Status icons appear at the top of the screen. You can tap status icons to view more information or change settings. Battery fully charged Network signal strength Messages in the outbox GSM available Missed call Handsfree connected Call diverted Text message received New email received Headphone inserted GPS connected Alarm activated Bluetooth™ connected Keylock activated USB data transferring Data synchronising Flight mode activated Secure Wi-Fi™ network connected Wi-Fi™ network connected 3G available HSDPA available EGPRS available 15 This is an Internet version of this publication. © Print only for private use. Calls Making and receiving calls You need to turn on your phone and be within range of a network.

To make a call Select to open the dialler and enter a phone number (with international country code and area code, if applicable). Press . You can call numbers from your contacts and call lists. 1 2 · To end a call Press . To make an international call Select , and tap \*+ twice for a "+" sign. Enter the country code, area code (without the first zero) and phone number. Press . To set automatic redial Select Menu > Settings > Telephony > Call sett. > Automatic redial > On. To answer a call Press .

To reject a call Press . To change the ear speaker volume during a call Press the volume key up or down. To mute the microphone during a call To mute the microphone, tap Mute. To reactivate the microphone, tap Unmute. To turn on the loudspeaker during a call Tap . Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing. 1 2 3 · · · · 1 2 · · To view missed calls Press to open the call list. Networks Your phone switches automatically between GSM and 3G (UMTS) networks, depending on availability. Some network operators allow you to switch networks manually.

To switch networks manually Select Menu > Settings > Connectivity > Network > Network mode. Select an option. 1 2 16 This is an Internet version of this publication. © Print only for private use. Emergency calls Your phone supports international emergency numbers, for example, 112 or 911. You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network. In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card. · To make an emergency call Select , enter 112 (the international emergency number) and press . Video calls You can share experiences with friends and family as they happen and save them to share later.

You see the person you are talking to on your screen. The other person sees the video being shot by your camera. Before making video calls To engage in a video call, both parties to the call must have a 3G (UMTS) phone subscription that supports the 3G (UMTS) service and 3G (UMTS) coverage. To make a video call Select and enter a phone number (with international country code and area code, if applicable). Select Video call.

To answer a video call Press . To end a video call Press . To use the zoom when you are on an outgoing video call Select Options > Zoom. To view video call options During a video call, select Options. 1 2 · · · · Call list You can view information about recent calls.

To call a number from the call list Press and select a tab. Select a name or a number and press 1 2 . Speed dial Speed dialling lets you select eight contacts you can dial quickly from standby. You must assign each speed dial contact a number between 2 and 9. To assign speed dial numbers to contacts Select Menu > Settings > Telephony > Speed dialling. Select a number from 2 to 9 on your keypad, and select Options > Assign. Select a contact. To speed dial an assigned number Select , enter a speed dial number and press 1 2 3 · . 17 This is an Internet version of this publication. © Print only for private use.

More calling features Voicemail If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call. To enter your voicemail number Select Menu > Settings > Telephony > Voicemail > Voicemail inbox. Enter the number and select OK. To call your voicemail service Select . Touch and hold 1 . 1 2 · Diverting calls You can divert calls, for example, to an answering service. When Restrict calls is used, some divert call options are not available. 1 2 3 4 To divert calls Select Menu > Settings > Telephony > Divert calls. Select a call type and a divert option. Select Activate.

Enter the number you want to divert calls to, and select OK. More than one call You can handle more than one call at a time. For example, you can put an ongoing call on hold while you make or answer a second call. You can also switch between the two calls. You cannot answer a third call without ending one of the first two calls.

Call waiting You will hear a beep if you receive a second call while call waiting is active. To activate call waiting Select Menu > Settings > Telephony > Call sett. > Call waiting > Activate. To make a second call During a call, select Keypad.

[You're reading an excerpt. Click here to read official SONY](#)

To enter the number or email address manually, tap the *To* field. To enter the subject of your email, tap *Subject*. To write the message, tap the message field. To attach files to your email message, tap and select an attachment type. Copyright protection may prevent some images, music and other content from being copied, modified or transferred. To view all attachments, tap . To use a template or a previously written note, tap *Options* > *Add* and select the desired template or note. To send the message, tap . 1 2 3 4 5 6 7 8 9 Receiving email messages Email messages are downloaded from your email server via the Internet or at your office. You can download your email manually or set when your phone should check for new email.

To download email messages offline Select *Menu* > *Messaging* and select a mailbox. To open a connection to the remote mailbox, select *Options* > *Connect*. To download email messages automatically Select *Menu* > *Messaging*. Select *Options* > *Settings* > *Email* > *Mailboxes*. Tap the email account.

Select *Automatic download*. 1 2 1 2 3 4 26 This is an Internet version of this publication. © Print only for private use. 1 2 3 To delete email messages from the phone Select *Menu* > *Messaging* and select a mailbox. Select an email message.

Select *Options* > *Delete* > *Phone* only. The email messages remain in the remote mailbox. The email headers that appear in your phone mirror those that appear in the remote mailbox. This means that when you delete the content of a message on your phone, the email header stays in your phone. If you want to remove the header as well, you can connect to the server when deleting the message from your phone. If there is no connection to the server, the header is deleted the next time you connect to the remote mailbox on the server. 1 2 3 To delete an email message from the phone and from the remote mailbox Select *Menu* > *Messaging* and select a mailbox. Select an email message. Select *Options* > *Delete* > *Phone* and server. To disconnect from the remote mailbox To end the data connection to the remote mailbox, select *Options* > *Disconnect*.

To forward an email message Select *Menu* > *Messaging* and select a mailbox. Select the email message you want to forward. Select *Options* > *Forward*. 1 2 3 Viewing messages You can choose not to receive large messages and to only receive headers. To download headers Select *Menu* > *Messaging*. Select *Options* > *Settings* > *Email* > *Mailboxes*. Tap the email account. Select *Download settings* > *Email download*. Select *Headers only*. 1 2 3 4 5 More about *Messaging* Cell broadcast messages Cell broadcasts allow you to receive messages on various topics, such as weather or traffic conditions, from your service provider.

For more information, please contact your service provider. Cell broadcast messages cannot be received in UMTS networks. A packet data connection may prevent cell broadcast reception. 1 2 To view a cell broadcast message Select *Menu* > *Messaging* > *Options* > *Cell broadcast*. Select the message to view.

Service commands You can use service commands to enter and send service requests, such as activation commands for network services, to your service provider. Service requests are also known as USSD (Unstructured Supplementary Service Data) commands. To edit service commands Select *Menu* > *Messaging*. Select *Options* > *Service commands*. 1 2 27 This is an Internet version of this publication.

© Print only for private use. Sent Your last 20 sent messages are automatically saved in the *Sent* folder. To change the number of sent messages saved automatically Select *Menu* > *Messaging*. Select *Options* > *Settings* > *Other*. Enter the number of messages you want to be saved automatically. 1 2 3 Drafts You can view, edit and send messages you have created but not yet sent in *Drafts*. To view a message Select *Menu* > *Messaging* > *Drafts*. Select the message. To send a message Select *Menu* > *Messaging* > *Drafts*. Select the message.

Tap the *To* field and select a contact name from *Contacts*. Tap *OK*. To send the message, select . 1 2 1 2 3 4 5 Delivery reports You can use Delivery reports to keep track of sent text messages and multimedia messages. Delivery reports are not provided for text messages and multimedia messages sent to email addresses. 1 2 To receive delivery reports for text messages Select *Menu* > *Messaging*. Select *Options* > *Settings* > *Text message* > *Receive report* > *Yes*. To receive delivery reports for multimedia messages Select *Menu* > *Messaging*. Select *Options* > *Settings* > *Multimedia message* > *Receive reports* > *Delivery* and read or *Delivery*. 1 2 My folders You can view messages saved in your own folders or use message templates in *My folders*.

To create a new folder Select *Menu* > *Messaging* > *My folders*. Select *Options* > *New folder*. Enter a name for the folder. Tap *OK*. 1 2 3 4 Templates 1 2 To view a template Select *Menu* > *Messaging* > *My folders* > *Templates*.

Select a template. To send a message template Select *Menu* > *Messaging* > *My folders* > *Templates*. Tap a template and select *Options* > *Send*. 1 2 28 This is an Internet version of this publication. © Print only for private use.

1 2 3 4 To create a template Select *Menu* > *Messaging* > *My folders* > *Templates*. Select *Options* > *New template*. Enter the text. To save the template, select *Done*. 29 This is an Internet version of this publication. © Print only for private use. Media With the *Media* application you can manage media files, such as photos, music, other audio tracks and video clips. You can also manage photos and video clips in albums on the web. The main application features are: . . . Photo view, edit, send or blog your photos and video clips. Music categorise and play your music files or other audio tracks.

Video play and handle your video clips. You can change between portrait view and landscape view automatically when the auto-rotate setting is on. See *Sensor settings* on page 71. If an audio clip or video clip has its own title in a metadata profile, this title is displayed instead of the file name. Viewbar and touchbar You can use the viewbar and touchbar to navigate through different views and manage your media files. . . Viewbar a bar that appears at the top of the screen (in portrait view) after you select an application in *Media*. Using this bar, you can navigate to play view, to various list views within the same application, or to the main *Media* menu. Touchbar a bar that appears at the bottom of the screen (in portrait view) where you can, for example, mark, edit and manage your media files, or go back to the previous level. To view more options, tap . To get tips for an icon in the bars, touch and hold the icon. . . To open *Media* Select *Menu* > *Media*. Tap in the touchbar at the bottom of the standby screen.
