To enter full stops and commas · When you enter text, press . Getting started 17 This is the Internet version of the User guide. © Print only for private use. Walkman® and music Listen to music, audio books and podcasts. Use Sony Ericsson Media Manager to transfer content to your phone.

Transferring content to and from a computer Using a USB cable and Sony Ericsson Media Manager, you can transfer content from CDs, your computer or the phone. Sony Ericsson Media Manager software is included on the CD that comes with your phone and available for download at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). To install Media Manager 1 Turn on your computer and insert the CD. The CD starts automatically and the installation window opens. 2 Select a language and click OK. 3 Click Install Sony Ericsson Media Manager and follow the instructions. To transfer content using Media Manager 1 Connect the phone to a computer with the USB cable that came with the phone. 2 Computer: Start/Programs/ Sony Ericsson/Media Manager.

Wait for Media Manager to start. 3 Phone: Select File transfer. The phone turns off and prepares to transfer files. Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card or the phone memory. Required operating systems You need one of these operating systems on your computer to use the software included on the CD: · Microsoft® Windows Vista™ (32 bit and 64 bit versions of: Ultimate, Enterprise, Business, Home Premium, Home Basic) · Microsoft Windows® XP (Pro or Home), Service Pack 2 or higher 4 Computer: Wait until the phone appears in Media Manager.

Calling Making and receiving calls You need to turn on your phone and be within range of a network. Do not cover the bottom of your phone when it is in use, as this affects call quality.

To re-dial a number · When Retry? appears select Yes. Do not hold your phone to your ear when waiting. When the call connects, your phone gives a loud signal. To make a call 1 From standby enter a phone number (with international country code and area code, if applicable). 2 Select Call. You can call numbers from the contacts and call list. See Contacts on page 24, and Call list on page 27. To answer a call · Select Answer. · Open the flip. To reject a call · Select Busy.

To change the ear speaker volume during a call · Press or . To mute the microphone during a call 1 Press and hold down . 2 Press and hold down again to resume. To turn the loudspeaker on during a call · Select More > Turn on speaker. Do not hold your phone to your ear when using the loudspeaker.

This could damage your hearing. To make international calls 1 From standby press and hold down until a "+" sign appears. 2 Enter the country code, area code (without the first zero) and phone number. 3 Select Call. Calling 23 This is the Internet version of the User guide.

© Print only for private use. Emergency calls Your phone supports international emergency numbers, for example, 112 and 911. These numbers can normally be used to make emergency calls in any country, with or without the SIM card inserted, if a network is within range.

[You're reading an excerpt. Click here to read official SONY](http://yourpdfguides.com/dref/4285278)

[ERICSSON W350 user guide](http://yourpdfguides.com/dref/4285278)

<http://yourpdfguides.com/dref/4285278>

In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card. Default contact You can choose which contact information Phone contacts or SIM contacts is shown as default. If Phone contacts is selected as default, your contacts show all the information saved in Contacts. If you select SIM contacts as default, your contacts show names and numbers saved on the SIM card. To select default contacts 1 From standby select Menu > Contacts. 2 Scroll to New contact and select Options > Advanced > Default contacts.

3 Select an option. Phone contacts Phone contacts can contain names, phone numbers and personal information. They are saved in the phone memory. 1 2 3 4 5 6 To add a phone contact From standby select Menu > Contacts. Scroll to New contact and select Add. Enter the name and select OK. Enter the number and select OK. Select a number option. Scroll between tabs and select the fields to add information. 7 Select Save.

To make an emergency call · From standby enter 112 (the international emergency number) and select Call. To view your local emergency numbers 1 From standby select Menu > Contacts. 2 Scroll to New contact. 3 Select Options > Special numbers > Emergency nos. Contacts You can save names, phone numbers and personal information in Contacts.

Information can be saved in the phone memory or on the SIM card. 24 Calling This is the Internet version of the User guide. © Print only for private use. To add an item to a phone contact 1 From standby select Menu > Contacts. 2 Scroll to a contact and select More > Edit contact.

3 Scroll between the tabs and select Add. 4 Select an option and an item to add. 5 Select Save. If your subscription supports Calling Line Identification (CLI) service, you can assign personal ringtones to contacts. To call a SIM contact from phone contacts 1 From standby select Menu > Contacts > More > Options > SIM contacts. 2 Scroll to a contact and select Call. To automatically save names and phone numbers on the SIM card 1 From standby select Menu > Contacts. 2 Select More > Options > Advanced > Auto save on SIM. 3 Select an option. SIM contacts SIM contacts can contain names and numbers only.

They are saved on the SIM card. 1 2 3 4 5 To add a SIM contact From standby select Menu > Contacts. Scroll to New contact and select Add. Enter the name and select OK. Enter the number and select OK. Select a number option and add more information, if available. 6 Select Save. To copy names and numbers to the SIM card 1 From standby select Menu > Contacts. 2 Select More > Options > Advanced > Copy to SIM. 3 Select an option.

When you copy all contacts from your phone to the SIM card, all existing SIM card information is replaced. To call a phone contact 1 From standby select Menu > Contacts. 2 Scroll to a contact and select Call. To go directly to a contact, from standby press . See Speed dial on page 27.

Calling 25 This is the Internet version of the User guide. © Print only for private use. To copy names and numbers to phone contacts 1 From standby select Menu > Contacts. 2 Select More > Options > Advanced > Copy from SIM. 3 Select an option.

To call a SIM contact 1 From standby select Menu > Contacts. 2 Scroll to a contact and select Call. Deleting contacts To delete a contact 1 From standby select Menu > Contacts. 2 Scroll to a contact and press . To delete all phone contacts 1 From standby select Menu > Contacts. 2 Select More > Options > Advanced > Delete all contacts. Sending contacts To send a contact 1 From standby select Menu > Contacts. 2 Scroll to a contact and select More > Send contact. 3 Select a transfer method. Make sure the receiving device supports the transfer method you select.

Memory status The number of contacts you can save in your phone or on the SIM card depends on available memory. To view memory status 1 From standby select Menu > Contacts. 2 Select More > Options > Advanced > Memory status. To save contacts on a memory card 1 From standby select Menu > Contacts.

2 Select More > Options > Advanced > Back up to M.S. Synchronizing contacts Contacts can be synchronized with your computer and some Web applications. For more information, see Synchronizing on page 53. Groups You can create a group of phone numbers and email addresses to send messages to. See Messaging on page 32.

You can also use groups (with phone numbers) when you create accepted callers lists. See Accept calls on page 30. 26 Calling This is the Internet version of the User guide. © Print only for private use. 1 2 3 4 5 To create a group of numbers and email addresses From standby select Menu > Contacts > Options > Groups > New group.

Enter a name for the group and select Continue. Select New to find and select a contact phone number or email address. Repeat step 3 to add more phone numbers or email addresses. Select Done. Speed dial Speed dialling lets you select nine contacts that you can dial quickly.

The contacts can be saved in positions 1-9. To add contacts to speed dial numbers From standby select Menu > Contacts. Select Options > Speed dial. Scroll to a position number and select Add. Select a contact. 1 2 3 4 Call list You can view information about most recent calls. To call a number from the call list 1 From standby select Calls and scroll to a tab. 2 Scroll to a name or a number and select Call. To add a call list number to contacts 1 From standby select Calls and scroll to a tab. 2 Scroll to the number and select More > Save number.

3 Select New contact to create a new contact or select an existing contact to add the number to. To clear the call list · From standby select Calls > the All tab > More > Delete all. To speed dial · From standby enter the position number and select Call. Voicemail If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call. To enter your voicemail number 1 From standby select Menu > Messaging > Settings > Voicemail number. 2 Enter the number and select OK. To call your voicemail service · From standby press and hold down . Calling 27 This is the Internet version of the User guide. © Print only for private use. To edit your voicemail number 1 From standby select Menu > Messaging > Settings > Voicemail number.

2 Edit the number and select OK. More than one call You can handle more than one call at the same time. For example, you can put an ongoing call on hold, while you make or answer a second call. You can also switch between the two calls. You cannot answer a third call without ending one of the first two calls.

Call waiting When call waiting is used, you hear a beep if you receive a second call. To activate call waiting · From standby select Menu > Settings > the Calls tab > Manage calls > Call waiting > Activate.

[You're reading an excerpt. Click here to read official SONY ERICSSON W350 user guide](http://yourpdfguides.com/dref/4285278)  
<http://yourpdfguides.com/dref/4285278>

To make a second call 1 During the call, select More > Hold. This puts the ongoing call on hold. 2 Enter the number to call and select More > Call.  
To answer a second call · During the call, select Answer. This puts the ongoing call on hold. To reject a second call · During the call, select Busy and continue with the ongoing call. Diverting calls You can divert calls, for example, to an answering service. When Restrict calls is used, some divert call options are not available. See Restricted dialling on page 30. Divert call options Standard options are: · Divert always divert all your calls · When busy if a call is ongoing · Not reachable if turned off or unreachable · No reply if not answered in a specified time To divert calls 1 From standby select Menu > Settings > the Calls tab > Divert calls. 2 Scroll to a call type and divert option and select Activate. 3 Enter the number to divert calls to and select OK. 28 Calling This is the Internet version of the User guide.

© Print only for private use. To end an ongoing call and answer a second call · During the call, select Replace active call. Conference calls With a conference call, you can have a joint conversation with up to five people. To join the two calls · During the call, select More > Join calls. To add a new participant 1 During the call, select More > Hold. This puts the joined calls on hold. 2 Select More > Add call. 3 Enter the number to call and select Call. 4 Select More > Join calls to add the new participant. 5 Repeat this task to add more participants.

To release a participant 1 Select More > Release part. 2 Select the participant to release. To have a private conversation 1 During the call, select More > Talk to and select the participant to talk to. 2 To resume the conference call, select More > Join calls. If your subscription supports Alternate Line Service (ALS), you can make separate calls with different phone numbers.

Handling two voice calls You can have calls ongoing and on hold at the same time. To switch between two calls · During the call, select More > Switch. To join two calls · During the call, select More > Join calls. To connect two calls · During the call, select More > Transfer call. You are disconnected from both calls.

To end an ongoing call and return to the call on hold · Select End call > Yes. To end both calls · Select End call > No. Receiving a third voice call You cannot answer a third call without ending one of the first two calls or joining them into a conference call. Calling 29 This is the Internet version of the User guide. ©

Print only for private use. My numbers You can view, add and edit your own phone numbers. To check your phone numbers 1 From standby select Menu > Contacts > Options > Special numbers > My numbers. 2 Select an option. Restricted dialling You can restrict outgoing and incoming calls. A password from your service provider is required.

If you divert incoming calls, you cannot use some restrict calls options. Restrict calls options Standard options are: · All outgoing all outgoing calls · Outgoing intl all outgoing international calls · Outg. intl roam. all outgoing international calls except to your home country · All incoming all incoming calls · Inc. when roaming all incoming calls when you are abroad To restrict calls 1 From standby select Menu > Settings > the Calls tab > Manage calls > Restrict calls. 2 Select an option. 3 Enter your password and select OK. Accept calls You can choose to receive calls from certain phone numbers only. To add numbers to the accepted callers list 1 From standby select Menu > Settings > the Calls tab > Manage calls > Accept calls > Only from list > New. 2 Scroll to a contact or select Groups.

See Groups on page 26. To accept all calls · From standby select Menu > Settings > the Calls tab > Manage calls > Accept calls > All callers. 30 Calling This is the Internet version of the User guide. © Print only for private use. Fixed dialling Fixed dialling allows calls to be made only to certain numbers saved on the SIM card.

The fixed numbers are protected by your PIN2. When fixed dialling is used, you can still call the international emergency number, 112. Call time and cost During a call, the duration of the call is shown. You can check the duration of your last call, outgoing calls and the total time of your calls. To check the call time · From standby select Menu > Settings > the Calls tab > Time & cost > Call timers.

Partial numbers can be saved. For example, saving 0123456 allows calls to be made to all numbers starting with 0123456. When fixed dialling is used, you cannot view or manage any phone numbers saved on the SIM card. Business cards To add your own business card 1 From standby select Menu > Contacts. 2 Select More > Options > My business card. 3 Scroll between tabs and select the fields to add information. To enter a symbol select More > Add symbol > Insert. 4 Enter the information and select Save. To send your business card 1 From standby select Menu > Contacts. 2 Select More > Options > My business card > Send my card.

3 Select a transfer method. Make sure the receiving device supports the transfer method you select. To use fixed dialling 1 From standby select Menu > Contacts. 2 Select More > Options > Special numbers > Fixed dialling > Activate. 3 Enter your PIN2 and select OK. 4 Select OK again to confirm. To save a fixed number 1 From standby select Menu > Contacts. 2 Select More > Options > Special numbers > Fixed dialling > Fixed numbers > New number. 3 Enter the information and select Save. Calling 31 This is the Internet version of the User guide.

© Print only for private use. Messaging Text messages Text messages can contain simple pictures, sound effects, animations, and melodies. Before you use messaging You must have a service centre number. The number is supplied by your service provider and is usually saved on the SIM card. If the number to your service centre is not saved on your SIM card, you must enter the number yourself.

To enter a service centre number 1 From standby select Menu > Messaging > Settings > Text message > Service centre. The number is shown if it is saved on the SIM card. 2 If there is no number shown, select Edit > New ServiceCentre and enter the number, including the international "+" sign and country code. 3 Select Save. Sending messages For information about entering letters, see Entering text on page 17.

To write and send a text message 1 From standby select Menu > Messaging > Write new > Text message. 2 Write the message and select Continue > Contacts look-up.

**RSS reader** You can receive frequently updated content, such as news headlines, as feeds, using Really Simple Syndication (RSS). To add new feeds for a Web page · When you browse the Internet, select **More > RSS feeds**. To create a new feed 1 From standby select **Menu > Messaging > RSS reader > More > New feed**. 2 Enter the RSS specific Web address (for example [http://rss.cnn.com/rss/cnn\\_topstories.rss](http://rss.cnn.com/rss/cnn_topstories.rss)) and select **Go to**. Connectivity 49 This is the Internet version of the User guide. © Print only for private use. To set and use RSS

reader options 1 From standby select **Menu > Messaging > RSS reader > More**. 2 Select an option. To turn the Bluetooth function on · From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Turn on**. Make sure that the device you want to pair your phone with has the Bluetooth function activated and is made visible. Bluetooth™ wireless technology The Bluetooth function makes wireless connection to other Bluetooth devices possible. You can, for example: · Connect to handsfree devices.

· Connect to stereo headsets. · Connect to more than one device at the same time. · Connect to computers and access the Internet. · Synchronize information with computers. · Use media viewer accessories. · Exchange items and play multiplayer games. We recommend a range within 10 metres (33 feet), with no solid objects in between, for Bluetooth communication. To pair the phone with a device 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > My devices > New device** to search for available devices. 2 Select a device. 3 Enter a passcode, if required.

To allow connection to the phone 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > My devices**. 2 Select a device from the list. 3 Select **More > Allow connection**. To pair the phone with a Bluetooth handsfree for the first time 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Handsfree**. 2 Select **Yes**.

3 Enter a passcode, if required. Before you use Bluetooth wireless technology You must turn on the Bluetooth function to communicate with other devices. You must also pair your phone with other Bluetooth devices. 50 Connectivity This is the Internet version of the User guide. © Print only for private use.

To pair the phone with more than one Bluetooth handsfree 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Handsfree > My handsfree > New handsfree**. 2 Scroll to a device and select **Add**. Power save You can save battery power with this function. You can only connect with a single Bluetooth device. You must turn this function off if you want to connect with more than one Bluetooth device at the same time. To turn powersave on · From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Powersave > On**. Phone name You can enter a name for your phone to be shown when other devices find it. To enter a phone name 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Phone name**. 2 Enter the phone name and select **OK**. Visibility If you want other Bluetooth devices to be able to discover your phone, you can choose to make your phone visible.

To show your phone · From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Visibility > Show phone**. Exchanging items Send or receive items using Bluetooth wireless technology as the transfer method. Choose a device from the list of found devices. To send a contact 1 From standby select **Menu > Contacts**. 2 Scroll to a contact and select **More > Send contact > Via Bluetooth**. 3 Select the device to send the item to. To receive an item 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Turn on**. 2 Select **Visibility > Show phone**. 3 When you receive an item, follow the instructions on the screen. Connectivity 51 This is the Internet version of the User guide.

© Print only for private use. Transferring sound to and from a Bluetooth handsfree You can transfer the sound to and from a Bluetooth handsfree using a phone key or the handsfree key. To transfer sound 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Handsfree > Incoming call**. 2 Select an option. In phone transfers sound to the phone.

In handsfree transfers sound to the handsfree. File transfer You can synchronize and transfer files using Bluetooth wireless technology. See Synchronization using a computer on page 53. Before you use the USB cable · See Required operating systems on page 18. Only use a USB cable supported by your phone. Do not remove the USB cable from your phone or computer during file transfer as this may corrupt the phone memory or the memory card. Using the USB cable You can connect your phone to a computer with the USB cable to transfer files using File transfer. You can also synchronize, transfer files and use your phone as a modem using Phone mode. For more information go to the Getting started section at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). To disconnect the USB cable safely 1 Right-click the removable disk icon in Windows Explorer. 2 Select **Eject**. 3 Disconnect the USB cable when the following message is shown in the phone: **USB connections ended. It is now safe to remove the USB cable**.

52 Connectivity This is the Internet version of the User guide. © Print only for private use. Drag and drop media files You can drag and drop media files between your phone or memory card and a computer in Microsoft Windows Explorer. To drag and drop media files 1 Connect your phone to a computer with the USB cable. 2 Phone: Select **File transfer**. The phone will remain activated during file transfer. 3 Computer: Wait until the phone memory and memory card appear as external disks in Windows Explorer. 4 Drag and drop selected files between the phone and the computer. Use only one of the synchronization methods at a time with your phone. Synchronization using a computer Before synchronizing you need to install the Sony Ericsson PC Suite.

Sony Ericsson PC Suite is included on the CD with your phone and available for download at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). See Required operating systems on page 18. To install the Sony Ericsson PC Suite 1 Turn on your computer and insert the CD.

The CD starts automatically and the installation window opens. If the CD does not start click **Start/Run...** and type **D:start**. exe and click **OK**. Synchronizing You can synchronize in two different ways: · You can use the USB cable or Bluetooth wireless technology to synchronize phone contacts, appointments, tasks and notes with a computer program such as Microsoft Outlook®. · You can also synchronize with an Internet service. For more information go to the Getting started section at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).
