### Manual abstract:

*Important information Please read the Important information leaflet before you use your mobile phone. Some of the services and features described in this User guide are not supported in all countries/ regions or by all networks and/or service providers in all areas. Without limitation, this c phone functions and helps you enter essential settings. Set up your phone so that it works to your needs. Import your old contacts, select your phone language, optimise your wireless network connection settings, and much more. The setup guide covers the following: . . . Basic phone settings such as language, Internet, time and date. Wi-Fi® settings speed up your connection and decrease data transfer costs. Application settings helps you with email setup, online service accounts, and contact transfers. 9 This is an Internet version of this publication. © Print only for private use.*

*You can also refer to the respective chapters in the in-phone User guide, also available at [www.sonyericsson.com/support](http://www.sonyericsson.com/support), for more help with the following: . . . Info on your phone's hard keys Entering text Wi-Fi® Sony Ericsson Sync Before you can import contacts via a synchronisation account, you first need to set up the synchronisation account and back up your old contacts to it. If you do not want existing contacts saved on your memory card or SIM card to be synchronised, then you should import these contacts from the memory card or SIM card to your new phone before you set up the synchronisation account. If you prefer, you can skip some steps and access the setup guide later from the applications screen or change the settings from the Settings menu. 1 2 To access the setup guide From the Home screen, tap . Tap Setup guide. Accounts and services Sign in to your online service accounts from your phone and benefit from a range of services. Combine services and get even more out of them. For example, collect contacts from your Google™ and Facebook™ accounts and integrate them into your phonebook, so you have everything in one place.*

*You can sign up to online services from your phone as well as from a computer. When you sign up for the first time, an account is created with your user name, password, settings and personal information. The next time you sign in, you get a personalised view. Google™ account A Google™ account is key to your Android™ phone. Use Gmail™ to send emails, Google Talk™ to chat with friends, and Android Market™ to download applications. Sony Ericsson account Store your phone contacts on a secure Sony Ericsson server, and you'll always have a backup online. You can also store your phone calendar and Internet bookmarks in your Sony Ericsson account. Exchange Active Sync account Synchronise your phone with your corporate Exchange Active Sync account. This way, you keep your work email, contacts and calendar events with you at all times. Facebook™ account Facebook™ connects you with friends, family and colleagues all over the world.*

*Log in now to share your world with others. 10 This is an Internet version of this publication. © Print only for private use. Using the keys Back Home Menu . . . . Go back to the previous screen Close the on-screen keypad, a dialog box, an options menu, or the Notification panel Go to the Home screen from any application or screen Open a window showing your most recently used applications Open a list of options available in the current screen or application Shortcut to Google™ Search Search . Charging the battery The phone battery is partly charged when you buy the phone. It may take a few minutes before the battery icon appears on the screen when you connect the phone to a power source. You can still use your phone while it is charging. The battery will start to discharge a little after it is fully charged and then charges again after a certain time.*

*This is to extend battery life and may result in the charge status showing a level below 100 percent. 2 1 . . To charge the phone using the power adapter Connect the phone to a power outlet using the USB cable and the power adapter. To charge the phone using a computer Connect the phone to a USB port on a computer using the USB cable included in the phone kit. 12 This is an Internet version of this publication. © Print only for private use.*

*Using the touch screen When your phone is on and left idle for a set period of time, the screen darkens to save battery power, and locks automatically. This lock prevents unwanted actions on the touch screen when you are not using it. You can also set personal locks to protect your subscription and make sure only you can access your phone content. Your phone screen is made from glass. Do not touch the screen if the glass is cracked or shattered.*

*Avoid trying to repair a damaged screen yourself. Glass screens are sensitive to drops and mechanical shocks. Cases of negligent care are not covered by the Sony Ericsson warranty service. . . To open or highlight an item Tap the item. To mark or unmark options Tap the relevant checkbox or in some cases the right side of the list option, to mark or unmark an option. Marked checkbox Unmarked checkbox Marked list option Unmarked list option Zooming There are two ways to zoom. The zoom options available depend on the application you are using. . . To zoom or to zoom in or out. You may have to drag your finger . When available, tap on the screen (in any direction) to make the zoom icons appear. Touch an area on the screen with two fingers at once and pinch them together to zoom out, or spread the two fingers apart to zoom in.*

*Repeat the relevant movement to keep zooming in or out. When you use two fingers on the screen to zoom, it is only possible to zoom if both fingers are within the zoomable area. If you, for example, want to zoom in on a photo, make sure that both fingers are within the photo frame area. Scrolling Scroll by moving your finger up or down on the screen. On some web pages you can also scroll to the sides. Dragging or flicking will not activate anything on the screen. 13 This is an Internet version of this publication.*

**[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA PLAY user guide](http://yourpdfguides.com/dref/3828294)**  
<http://yourpdfguides.com/dref/3828294>

© Print only for private use. To scroll · Drag your finger in the direction you want to scroll on the screen. To scroll more quickly, flick your finger in the direction you want to go on the screen.

To flick · To scroll more quickly, flick your finger in the direction you want to go on the screen. You can wait for the scrolling movement to stop by itself, or you can stop it immediately by tapping the screen. Sensors Your phone includes a light sensor and a proximity sensor. The light sensor detects the ambient light level and adjusts the brightness of the screen accordingly. The proximity sensor turns the touch screen off when your face touches the screen.

This prevents you from unintentionally activating phone functions when you are engaged in a call. Home screen Your phone's Home screen is the equivalent of the desktop on a computer. It's your gateway to the main features in your phone. You can customise your Home screen with widgets, shortcuts, wallpaper and other items. The Home screen extends beyond the regular screen display width, so you need to flick left or right to view content in one of the screen's four extensions.

shows which part of the Home screen you are in. 14 This is an Internet version of this publication. © Print only for private use. 2:40 07/01/2011 24/06/2010 The items in the bar at the bottom of the screen are always available for quick access. · To go to the Home screen Press . To browse the Home screen Flick right or left. To get an overview of all widgets on a screen Pinch on any area of your Home screen, including one of the four Home screen extensions. All widgets contained in different areas of your Home screen are now displayed in one view. When all Home screen widgets are combined in one view, tap on any widget to go to the area of the Home screen containing that widget. · Widgets Widgets are small applications that you can use directly on your Home screen.

For example, the Music player widget allows you to start playing music directly and the Sony Ericsson Timescape™ widget displays incoming messages. 1 2

3 To add widgets to the Home screen From your Home screen, press . Tap Add > Widgets. Tap a widget. Rearranging your Home screen Change the appearance of your Home screen and what to access from it. For example, change the background, move items around, create folders and add shortcuts to contacts, bookmarks and more. Replace the items at the bottom of your Home screen with the items you access most frequently. 1 2 3 To add a shortcut to the Home screen From your Home screen, press . Tap Add > Shortcuts. Find and select a shortcut.

Add application shortcuts directly from the Application screen by touching and holding the application. 1 2 3 To add a folder to the Home screen . From your Home screen, press Tap Add > Folders. Enter a name for the folder, select an icon and tap Done. 15 This is an Internet version of this publication.

© Print only for private use. · To add items to a folder Touch and hold an item until it magnifies and the phone vibrates, then drag the item to the folder. To rename a folder Tap the folder to open it. Touch and hold the folder's title bar to show the Folder name field. Enter the new folder name and tap Done. To move an item on the Home screen Press to open your Home screen. Touch and hold an item until it magnifies and the phone vibrates, then drag the item to the new location. Drop an item on top of another item to create a folder. 1 2 3 1 2 · To delete an item from the Home screen Touch and hold an item until it magnifies and the phone vibrates, then drag the item to . Changing the background of your Home screen Make your Home screen more personal with wallpapers. You can use animations or a photo you have taken. Go to Android Market™ and other sources to download, for example, live wallpapers that change with the changing hours of the day. 1 2 To change your Home screen wallpaper From your Home screen, press . Tap Wallpaper, then select a wallpaper. Accessing and using applications Open applications from shortcuts on your Home screen or from the Application screen.

Application screen The Application screen, which you open from your Home screen, contains the applications that come installed with your phone as well as the applications you download. The Application screen extends beyond the regular screen width, so you need to flick left and right to view all content. To open the Application screen · From your Home screen, tap . · 1 2 To browse the Application screen Open the Application screen, then flick right or left. To create a shortcut to an application on the Home screen From your Home screen, tap . Touch and hold an application until it appears on your Home screen, then drag it to the desired location. 16 This is an Internet version of this publication. © Print only for private use. Opening and closing applications · · To open an application From your Home screen or the Application screen, tap the application. To close an application Press .

Some applications are paused when you press to exit, while other applications may continue to run in the background. In the first case, the next time you open the application, you can continue where you left off. Recently used applications window You can view and access recently used applications from this window. · To open the recently used applications window . Press and hold down Application menu You can open a menu at any time when you are using an application by pressing the key on your phone.

The menu will look different depending on which application you are using. · To open a menu in an application While using the application, press . A menu is not available in all applications. Rearranging your Application screen Move the applications around on the Application screen according to your preferences. 1 2 1 2 3 To sort your applications on the Application screen Open the Application screen, then tap .

Select a sorting option. To move an application on the Application screen Open the Application screen, then tap . Touch and hold an item until it magnifies and the phone vibrates, then drag the item to the new location. Tap to exit edit mode. You can only move your applications when is selected. Status and notifications The status bar at the top of your screen shows what's going on in your phone. To the left you get notifications when there is something new or ongoing. For example, new message and calendar notifications appear here. The right side shows the signal strength, battery status, and other information. 17 This is an Internet version of this publication.

© Print only for private use. A notification light also gives you battery status information and some notifications. For example, a flashing green light means there is a new message or a missed call.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA PLAY user guide](http://yourpdfguides.com/dref/3828294)  
<http://yourpdfguides.com/dref/3828294>

The notification light may not work when the battery level is low. Checking notifications and ongoing activities You can drag down the status bar to open the Notification panel and get more information. For example, open a new message or view a calendar event from the Notification panel. You can also open running applications, such as the music player. To open the Notification panel · Drag the status bar downwards. To close the Notification panel 2:40 :4 07/01/2011 /01/20 · Drag the tab at the bottom of the Notification panel upwards. 18 This is an Internet version of this publication.

© Print only for private use. · To open a running application from the Notification panel From the Notification panel, tap the icon for the running application to open it. To clear the Notification panel From the Notification panel, tap Clear. Phone settings menu View and change your phone settings from the Settings menu. 1 2 To access the phone settings From the Home screen, tap .

Tap Settings. Typing text Using the keyboard 3G 12:45 Q A W S Z E D X , R F C T G V Y H B U J N . I K M O L P 1 2 3 4 5 6 7 1 Change the character case and turn on the caps lock. For some languages, this key is used to access extra characters in the language 2 Close the keyboard view 3 Display numbers and symbols. Tap or to adjust the hour and minute. Tap AM to change to PM or vice versa. Tap Set. If you want to use AM and PM, you have to unmark Use 24-hour format. 1 2 3 4 5 1 2 3 To set the time zone From the Home screen, tap .

Find and tap Settings > Date & time. Unmark the Automatic checkbox, if it is marked. Tap Select time zone. Select an option. To set the date format From your Home screen, tap .

Find and tap Settings > Date & time > Select date format. Select an option. Ringtone settings 1 2 3 To set a phone ringtone From your Home screen, tap . Find and tap Settings > Sound > Phone ringtone. Select a ringtone. 21 This is an Internet version of this publication. © Print only for private use. 1 2 3 1 2 3 1 2 3 To enable touch tones From your Home screen, tap . Find and tap Settings > Sound. Mark the Audible touch tones and Audible selection checkboxes.

To select a notification ringtone From your Home screen, tap . Find and tap Settings > Sound > Notification ringtone. Select a ringtone. To set a vibrating alert From your Home screen, tap . Find and tap Settings > Sound. Select Vibrate and choose an option. Screen settings 1 2 3 4 To adjust the screen brightness From your Home screen, tap . Find and tap Settings > Display > Brightness. To decrease the screen brightness, drag the slider to the left. To increase it, drag the slider to the right.

Tap OK. The brightness level affects your battery performance.

[You're reading an excerpt. Click here to read official SONY](#)

[ERICSSON XPERIA PLAY user guide](#)

<http://yourpdfguides.com/dref/3828294>

For tips on how to improve battery performance, see *Battery performance* on page 23. 1 2 3 To set the screen to vibrate From your Home screen, tap . Find and tap Settings > Sound.

Mark the Haptic feedback checkbox. The screen now vibrates when you tap soft keys and certain applications. To adjust the idle time before the screen turns off From your Home screen, tap . Find and tap Settings > Display > Screen timeout. Select an option.

To turn off the screen quickly, briefly press the power key . 1 2 3 1 2 3 To keep the screen on while charging the phone From the Home screen, tap . Find and tap Settings > Applications > Development. Mark the Stay awake check box. Phone language You can select a language to use in your phone. 1 2 3 To change the phone language From your Home screen, tap . Find and tap Settings > Language & keyboard > Select language. Select an option. If you choose the wrong language and cannot read the menu texts, find and tap the Settings icon . Then select the entry beside , and select the first entry in the following menu.

You can then select the language you want. 22 This is an Internet version of this publication. © Print only for private use. Airplane mode In Airplane mode, your phone's network and radio transceivers are turned off to prevent disturbance to sensitive equipment. However, you can still play games, listen to music, watch videos and other content, as long as all this content is saved on your memory card. You can also be notified by alarms, if alarms are activated. Turning on Airplane mode reduces battery consumption. 1 2 3 To turn on Airplane mode From your Home screen, tap . Find and tap Settings > Wireless & networks. Mark the Airplane mode checkbox.

You can also select Airplane mode from the Phone options menu. To access the Phone options menu, press and hold the power key . Battery Your Android™ phone keeps you connected and updated wherever you are. This affects the battery life of your phone. Below are some tips on how to prolong battery life while still staying connected and up to date.

Battery performance Standby time, a common term when it comes to battery performance, refers to the time during which the phone is connected to the network and is not being used. The more time your phone is in standby, the longer the battery lasts. The following tips can help you improve battery performance: · · Charge your phone often. This will not affect the lifetime of the battery. Downloading data from the Internet is power consuming.

When you're not using the Internet, you can save power by disabling all data connections over mobile networks. You can do this from the Wireless & network settings. This setting does not prevent your phone from transmitting data over other wireless networks. Turn off GPS, Bluetooth™ and Wi-Fi® when you don't need these features. You can turn them on and off more easily by adding the Power control widget to your Home screen. You do not need to turn off 3G.

Set your synchronisation applications (used to synchronise your email, calendar and contacts), to synchronise manually. You can also synchronise automatically, but increase the intervals. Check the battery usage menu in the phone to see which applications use the most power. Your battery consumes more power when you use video and music streaming applications such as YouTube™.

Some Android Market™ applications also consume more power. Close and exit applications that you are not using since multitasking affects the battery performance. Lower the screen display brightness level. Turn off your phone or use Airplane mode if you are in an area with no network coverage. Otherwise, your phone repeatedly scans for available networks, and this consumes power. Use a handsfree device to listen to music. This consumes less battery power than when you listen to music through the phone's loudspeakers. For more information about how to maximise your battery performance, visit [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

· · · · · 1 2 To access the battery usage menu From the Home screen, tap . Find and tap Settings > About phone > Battery use to see which installed applications consume the most battery power. 23 This is an Internet version of this publication. © Print only for private use. 1 2 3 To add the Status switch widget to your Home screen From your Home screen, press .

Tap Add > Widgets. Select the Status switch widget. You can now turn on and off your data connections more easily. To add the Power control widget to your Home screen From your Home screen, press . Tap Add > Widgets.

Select the Power Control widget. You can now turn on and off Wi-Fi™, Bluetooth and GPS more easily. 1 2 3 Battery LED status Green Flashing red Orange The battery is fully charged The battery level is low The battery is charging. The battery level is between low and full 1 2 To check the battery level From the Home screen, tap . Find and tap Settings > About phone > Status. Memory You can save content on a memory card and in the phone memory.

Music, video clips and photos are saved on the memory card while applications, contacts and messages are saved in the phone memory. Memory card You may have to purchase a memory card separately. Your phone supports a microSD™ memory card, which is used for media content. This type of card can also be used as a portable memory card with other compatible devices.

Without a memory card you cannot use the camera, nor can you play or download music files and video clips. Formatting the memory card You can format the memory card in your phone, for example, to free up memory. This means that you erase all data on the card. All content on the memory card gets erased when you format it. Make sure you make backups of everything you want to save before formatting the memory card. To back up your content, you can copy it to your computer. For more information, refer to the chapter Connecting your phone to a computer on page 85. 1 2 3 To format the memory card From your Home screen, tap . Find and tap Settings > Storage > Unmount SD card. After you have unmounted the memory card, tap Erase SD card.

24 This is an Internet version of this publication. © Print only for private use. Stereo portable handsfree 1 2 3 To use a handsfree Connect a portable handsfree. To answer a call, press the call handling key. If you listen to music, it stops when you receive a call and resumes when the call has ended. To end a call, press the call handling key. If a portable handsfree is not included with the phone, you may purchase it separately. Internet and messaging settings To send text and multimedia messages and to access the Internet, you must have a 2G/ 3G mobile data connection and the correct settings. There are different ways to get these settings: · · · For most mobile phone networks and operators, Internet and messaging settings come preinstalled on your phone.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA PLAY user guide](http://yourpdfguides.com/dref/3828294)  
<http://yourpdfguides.com/dref/3828294>

You can then start using the Internet and send messages right away.

In some cases you will get the option to download Internet and messaging settings the first time you turn on your phone. It is also possible to download these settings later from the Settings menu. You can manually add and change Internet and network settings in your phone at any time. Contact your network operator for detailed information on your Internet and messaging settings. To download Internet and messaging settings From your Home screen, tap . Find and tap Settings > Sony Ericsson > Settings download. To view the current Access Point Name (APN) From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks. Tap Access Point Names. If you have several available connections, the active network connection will be indicated by a marked button to the right.

1 2 1 2 3 25 This is an Internet version of this publication. © Print only for private use. 1 2 3 4 5 6 7 8 To configure Internet settings manually From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks > Access Point Names. Press . Tap New APN . Tap Name and enter the name of the network profile you want to create. Tap APN and enter the access point name. Tap and enter all other information required by your network operator. Press and tap Save .

Contact your network operator for detailed information about your network settings. 1 2 3 4 To reset the default Internet settings From the Home screen, tap . Tap Settings > Wireless & networks > Mobile networks > Access Point Names. Press . Tap Reset to default.

Usage info For quality purposes, Sony Ericsson collects anonymous bug reports and statistics regarding your phone usage. None of the information gathered includes personal data. By default, the usage info sending option is not activated. But you can choose to activate it if you like. 1 2 3 To send usage info From your Home screen, tap .

Find and tap Settings > Sony Ericsson > Usage info. Mark the Send usage info checkbox. Turning off data traffic You can disable all data connections over 2G/3G networks with your phone to avoid any unwanted data downloads and synchronisations. Contact your network operator if you need detailed information about your subscription plan and data traffic costs. When data traffic is turned off, you can still use Wi-Fi® and Bluetooth™ connections. You can also send and receive multimedia messages. 1 2 3 To turn off all data traffic From your Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks. Unmark the Data enabled checkbox. Data roaming Depending on your network operator, it might be possible to allow mobile data connections via 2G/3G outside of your home network (roaming).

Please note that data transmission charges may apply. Contact your network operator for more information. Applications may sometimes use the Internet connection in your home network without any notification, for example, when sending search and synchronisation requests. Additional charges may apply for data roaming. Consult your service provider. 26 This is an Internet version of this publication. © Print only for private use. 1 2 3 To activate data roaming From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks. Mark the Data roaming checkbox.

You can't activate data roaming when data connections have been deactivated Network settings Your phone automatically switches between networks depending on availability. Some network operators allow you to switch networks manually, for example, if you are travelling abroad and want to use a particular network. 1 2 3 4 1 2 3 4 5 To use GSM networks only From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks. Tap Network Mode.

Select GSM only. To select another network manually From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks > Network operators. Tap Search mode. When a popup window appears, tap Select manually.

Select a network. If you select a network manually, your phone will not search for other network, even if you move out of range of the manually selected network. 1 2 3 4 To activate automatic network selection From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks > Network operators. Tap Search mode. Tap Select automatically. 27 This is an Internet version of this publication. © Print only for private use. Gaming Accessing Sony PlayStation® games via the PlayStation® Pocket Turn your phone into a gaming machine by starting up the PlayStation® Pocket. With the PlayStation® Pocket application, you can play all kinds of games and get an overview of your recent gaming activity.

· · To launch the PlayStation® Pocket From your Home screen, tap , then find and tap PlayStation® Pocket. From your Home screen, slide out the gaming keypad. The PlayStation® Pocket starts automatically. If you don't want the PlayStation® Pocket to start when you slide out gaming keypad, you can disable this option in the PlayStation® Pocket menu. Playing games Access the PlayStation® Pocket in your phone to play games and view your game content. The PlayStation® Pocket makes it easy for you to find specific games and shows your recent gaming activities. When playing a game, you can at any time pause the game to access other phone functions, for example, to make a call. If someone calls you while you are playing a game, the game is paused automatically so that you can answer the call. If you receive a message during a game, a notification is shown. If you like, you can pause the game and read the message. User Guides for individual games are found within each game. Please check each game for specific instructions. If you pause a game and leave it on pause, the screen turns off after a while to save battery power. Close the gaming keypad and slide it out again to restart the game. Using the gaming keys Slide out your gaming keypad to access the following keys: Directional buttons.

Enter your PIN2 and tap OK. To access the list of accepted call recipients From the Home screen, tap .  
Find and tap Settings > Call settings > Fixed dialling numbers > Fixed dialling numbers. 33 This is an Internet version of this publication. © Print only for private use. Contacts Use the Contacts application to store and manage all your contacts. Keep your phone numbers, email addresses, and other contact data in one place.

Contacts shows you all communication with a particular contact. Just tap on the contact to access this information in one easy overview. You can add new contacts in your phone and synchronise them with the contacts in your Sony Ericsson Sync account, Google™ account, Microsoft® Exchange ActiveSync® account, or other accounts that support syncing contacts. Contacts automatically tries to join new addresses with existing contacts, to create a single entry.

You can also manage this process manually.

Opening Contacts for the first time The first time you open the Contacts application, you get hints on how to start adding contacts to your phone. This is a good time to choose a method that suits your situation and setup. You can read more about importing contacts at [www.sonyericsson.com/support/contacts](http://www.sonyericsson.com/support/contacts).

Getting contacts into your phone There are several methods to get your existing contacts and other data into your new phone: Synchronise your phone with contacts already stored with an online synchronisation service, such as Sony Ericsson Sync or Google Sync™. Import contacts from a SIM card. You may not be able to transfer all information from one phone to another using this method because of limited memory on the SIM card. Import contacts from a memory card. Use a Bluetooth™ connection.

Send contacts via messaging services such as SMS, MMS or email. The online synchronisation method works best for most users. This way, you always have a backup online. To view your contacts From your Home screen, tap , then tap . Your contacts are listed here. 1 2 3 To synchronise your phone contacts with a synchronisation account From your Home screen, tap , then tap . Press , then tap Settings > Accounts & sync. To set up a synchronisation account, tap Add account and follow the on-screen instructions. If you have already set up a synchronisation account and you want to , and tap Sync now. sync with that account, tap the account, press To import contacts from a SIM card From your Home screen, tap , then tap .

Press , then tap Import contacts > SIM card. If you have set up a synchronisation account, you can choose to add the SIM card contacts under that account.

Or you can choose to only use these contacts in the phone. Select your desired option. To import an individual contact, find and tap the contact.

To import all contacts, , then tap Import all. press 1 2 3 4 34 This is an Internet version of this publication. © Print only for private use. To import contacts from a memory card 1 2 3 4 From your Home screen, tap , then tap . Press , then tap Import contacts > Memory card.

If you have set up a synchronisation account, you can add the imported memory card contacts under that account. Or you can choose to only use the imported contacts in the phone. Select your desired option. If you have more than one vCard file on the SD card, a list appears showing different batches of phone contacts, with the corresponding dates for when they were created. Select the batch you want to import. To receive contact data sent using Bluetooth™ technology 1 2 3 Make sure you have the Bluetooth™ function turned on and your phone set to visible. If not, then you cannot receive data from other devices. When you are asked to confirm whether you want to receive the file, tap Accept. Drag down the Notification panel and tap the file you received to import the contact data. To receive contacts sent using a messaging service 1 2 When you receive a new text message, multimedia message, or email message, open the message.

The received contact data appears as a vCard attachment. Tap, or touch and hold the vCard file to open a menu so you can save the contact data. Contacts screen overview 1 2 3 4 5 6 7 1 2 3 4 5 6 7 Tap here to create a contact Contact search field Touch a contact to view its details Icon shows contact's status on instant messaging services Alphabetical index for browsing contacts Tap a contact thumbnail to access the Quick Contact menu Shortcut tabs Managing your contacts Create, edit and synchronise your contacts in a few simple steps. Select to display only the contacts you want to use in the phone. If you synchronise your contacts with more than one account, you can join contacts in your phone to avoid duplicates. Some synchronisation services, for example some social networking services, do not allow you to edit contact details. 35 This is an Internet version of this publication. © Print only for private use. 1 2 3 To select which contacts to display From your Home screen, tap , then tap . Tap .

In the list that appears, mark and unmark the desired options. If you have synchronised your contacts with an account, that account appears in the list. You can tap the account to further expand the list of options. When you are finished, tap OK. To add a contact From your Home screen, tap , then tap .

Tap . If you have synchronised your contacts with one or more accounts, select the account to which you want to add this contact, or tap Phone contact if you only want to use this contact in your phone. Enter or select the desired information for the contact. When you are finished, tap Done. If you add a plus sign and the country code before a contact phone number, you can use the number when you make calls from other countries.

1 2 3 4 5 1 2 3 1 2 3 4 To edit a contact From the Home screen, tap , then tap . Touch and hold the contact you want to edit, then tap Edit contact. Edit the desired information. When you are finished, tap Done. To associate a picture with a contact From your Home screen, tap , then tap . Touch and hold the contact you want to edit, then tap Edit contact. and select the desired method for adding the contact picture. Tap When you have added the picture, tap Done. You can also add a picture to a contact directly from the Gallery application. 1 2 3 To view your communication with a contact From the Home screen, tap , then tap .

Tap the contact you want to view. To view your communication with the contact for different media, tap or flick through the filter items at the bottom of the screen. To delete contacts From the Home screen, tap , then tap . , then tap Delete contacts. Press Mark the contacts you want to delete, or tap Mark all if you want to delete all contacts. Tap Delete > OK. To edit contact information about yourself From the Home screen, tap , then tap . Touch and hold Myself at the top of the contact list, then tap Edit contact. Enter the new information or make the changes you want.
