....he screen. Enter your SIM card PIN when requested, and select OK. Your SIM card PIN is initially supplied by your network operator, but you can change it later from the Settings menu. To correct a mistake made while entering your SIM card PIN, press . 1 2 3 To turn off the phone Press and hold down until the options menu opens. In the options menu, tap Power off.

Tap OK. Screen lock When your phone is on and left idle for a set period of time, the screen darkens to save battery power, and locks automatically. This lock prevents unwanted actions on the touch screen when you are not using it. · To activate the screen Press or press briefly. 9 This is an Internet version of this publication. © Print only for private use. To unlock the screen · Drag the icon to the right across the screen. · To lock the screen manually When the screen is active, briefly press the key. Setup guide The first time you start your phone, a setup guide opens to explain basic phone functions and help you enter essential settings. Set up your phone so that it works to your needs.

Select your phone language, optimise your wireless network connection settings, import your old contacts, and much more. The setup guide covers the following: · · Basic phone settings such as language and Internet. Wi-Fi® settings speed up your connection and decrease data transfer costs. Application settings helps you with email setup, online service accounts, and contact transfers. You can also refer to the respective chapters in the in-phone User guide, available through the Support application in the phone and at www.sonyericsson.com/support, for more help with the following: Wi-Fi® Sony Ericsson Sync If you prefer, you can skip some steps and access the setup guide later from the Application screen or change the settings from the Settings menu. · · 1 2 To access the setup guide From the Home screen, tap . Tap Setup guide. Accounts and services Sign in to your online service accounts from your phone and benefit from a range of services.

Combine services and get even more out of them. For example, collect contacts from your Google™ and Facebook™ accounts and integrate them into your phonebook, so you have everything in one place. You can sign up to online services from your phone as well as from a computer. When you sign up for the first time, an account is created with your user name, password, settings and personal information. The next time you sign in, you get a personalised view. Google™ account A Google™ account is key to your Android™ phone. Use Gmail™ to send emails, Google Talk™ to chat with friends, and Android Market™ to download applications. Sony Ericsson account Store your phone contacts on a secure Sony Ericsson server, and you'll always have a backup

online. You can also store your phone calendar and Internet bookmarks in your Sony Ericsson account. Exchange Active Sync account Synchronise your phone with your corporate Exchange Active Sync account.

This way, you keep your work email, contacts and calendar events with you at all times. 10 This is an Internet version of this publication. © Print only for private use. Second microphone Using the hardware keys Back · Go back to the previous screen · Close the on-screen keypad, a dialog box, an options menu, or the Notification panel Home · Go to the Home screen or to the Application screen from any application or screen · Press and hold to open a window showing your most recently used applications

Menu · Open a list of options available in the current screen or application Charging the battery Your phone battery is partly charged when you buy the phone. It may take a few minutes before the battery icon appears on the screen when you connect the phone charger cable to a power source, such as a USB port or a phone charger. You can still use your phone while it is charging. The battery will start to discharge a little after it is fully charged and then charges again after a certain time when the phone charger is connected. This is to extend battery life and may result in the charge status showing a level below 100 percent.

12 This is an Internet version of this publication. © Print only for private use. · · To charge the phone using the power adapter Connect the phone to a power outlet using the USB cable and the power adapter. To charge the phone using a computer Connect the phone to a USB port on a computer using the USB cable included in the phone kit. Using the touch screen When your phone is on and left idle for a set period of time, the screen darkens to save battery power, and locks automatically. This lock prevents unwanted actions on the touch screen when you are not using it. You can also set personal locks to protect your subscription and make sure only you can access your phone content. Your phone screen is made from glass. Do not touch the screen if the glass is cracked or shattered. Avoid trying to repair a damaged screen yourself.

Glass screens are sensitive to drops and mechanical shocks. Cases of negligent care are not covered by the Sony Ericsson warranty service. · · To open or highlight an item Tap the item. To mark or unmark options Tap the relevant checkbox or in some cases the right side of the list option, to mark or unmark an option. Marked checkbox Unmarked checkbox Marked list option Unmarked list option Zooming There are two ways to zoom.

The zoom options available depend on the application you are using. · To zoom When available, tap or to zoom in or out. You may have to drag the screen (in any direction) to make the zoom icons appear. To zoom with two fingers 13 This is an Internet version of this publication. © Print only for private use.

· Place two fingers on the screen at once and pinch them together (to zoom out) or spread them apart (to zoom in).

[You're reading an excerpt. Click here to read official SONY](http://yourpdfguides.com/dref/3988432)

[ERICSSON XPERIA PRO user guide](http://yourpdfguides.com/dref/3988432)

<http://yourpdfguides.com/dref/3988432>

Use the zoom function when viewing photos and maps, or when browsing the web. Scrolling Scroll by moving your finger up or down on the screen. On some web pages you can also scroll to the sides. Dragging or flicking will not activate anything on the screen. To scroll · Drag or flick your finger in the direction you want to scroll on the screen. To scroll more quickly, flick your finger in the direction you want to go on the screen. 14 This is an Internet version of this publication. © Print only for private use. To flick · To scroll more quickly, flick your finger in the direction you want to go on the screen.

You can wait for the scrolling movement to stop by itself, or you can stop it immediately by tapping the screen. Sensors Your phone includes a light sensor and a proximity sensor. The light sensor detects the ambient light level and adjusts the brightness of the screen accordingly. The proximity sensor turns the touch screen off when your face touches the screen. This prevents you from unintentionally activating phone functions when you are engaged in a call. Home screen Your phone Home screen is the equivalent of the desktop on a computer. It's your gateway to the main features in your phone. You can customise your Home screen with widgets, shortcuts, folders, themes, wallpaper and other items. The Home screen extends beyond the regular screen display width, so you need to flick left or right to view content in one of the screen's four extensions. shows which part of the Home screen you are in.

The items in the bar at the bottom of the screen are always available for quick access. · To go to the Home screen · Press To browse the Home screen Flick right or left. · 15 This is an Internet version of this publication. © Print only for private use.

Widgets Widgets are small applications that you can use directly on your Home screen. For example, the Music player widget allows you to start playing music directly and the Sony Ericsson Timescape™ widget displays incoming messages. 1 2 3 To add widgets to the Home screen From your Home screen, press · Tap Add > Widgets. Tap a widget.

To get an overview of all widgets on your Home screen Pinch on any area of your Home screen. All widgets from different parts of your Home screen are now displayed in one view. When all Home screen widgets are combined in one view, tap on any widget to go to the part of the Home screen containing that widget. · Rearranging your Home screen Customise the appearance of your Home screen and change the features that you can access from it. Change the screen background, move items around, create folders, and add shortcuts to contacts. To open the options menu of your Home screen You can open the Home screen options menu in two ways: · · 1 2 3 · From your Home screen, press Touch and hold on any part of your Home screen. To add a shortcut to the Home screen · From your Home screen, press Tap Add > Shortcuts. Find and select a shortcut.

Add application shortcuts directly from the Application screen by touching and holding the application. 1 2 3 To add a folder to the Home screen · From your Home screen, press Tap Add > Folder. Enter a name for the folder, select an icon, and tap Done. Drop an item on top of another item on your Home screen to create a folder automatically. · To add items to a folder Touch and hold an item until it magnifies and the phone vibrates, then drag the item to the folder. To rename a folder Tap the folder to open it. Touch the folder's title bar to show the Folder name field. Enter the new folder name and tap Done. To move an item on the Home screen to open your Home screen.

Press Touch and hold an item until it magnifies and the phone vibrates, then drag the item to the new location. 1 2 3 1 2 16 This is an Internet version of this publication. © Print only for private use. · To delete an item from the Home screen Touch and hold an item until it magnifies and the phone vibrates, then drag the item to · Changing the background of your Home screen Adapt the Home screen to your own style using wallpapers and different themes.

1 2 To change your Home screen wallpaper From your Home screen, press · Tap Wallpaper, then select a wallpaper. You can use a photo you have taken, or an animation. Go to Android Market™ and other sources to download, for example, live wallpapers that change with the changing hours of the day. 1 2 To change your Home screen theme From your Home screen, press ·

Tap Theme, then select a theme. Accessing and using applications Open applications from shortcuts on your Home screen or from the Application screen. Application screen The Application screen, which you open from your Home screen, contains the applications that come installed with your phone as well as the applications you download. The Application screen extends beyond the regular screen width, so you need to flick left and right to view all content. To open the Application screen · From your Home screen, tap · · 1 2 To browse the Application screen Open the Application screen, then flick right or left. To create a shortcut to an application on the Home screen From your Home screen, tap · Touch and hold an application until it appears on your Home screen, then drag it to the desired location. Opening and closing applications · · To open an application From your Home screen or the Application screen, tap the application. To close an application ·

Press Some applications are paused when you press to exit, while other applications may continue to run in the background. In the first case, the next time you open the application, you can continue where you left off. 17 This is an Internet version of this publication. © Print only for private use. Recently used applications window You can view and access recently used applications from this window. · To open the recently used applications window Press and hold down · Application menu You can open a menu at any time when you are using an application by pressing the key on your phone. The menu will look different depending on which application you are using. · To open a menu in an application While using the application, press · A menu is not available in all applications.

Rearranging your Application screen Move the applications around on the Application screen according to your preferences. 1 2 To arrange applications on the Application screen From your Home screen, tap to go to the Application screen. Tap and select an option. To move an application on the Application screen Open the Application screen, then tap · Touch and hold an item until it magnifies and the phone vibrates, then drag the item to the new location. Tap to exit edit mode. You can only move your applications when is selected. 1 2 3 1 2 3 To uninstall an application from the Application screen From your Home screen, tap ·

Tap . All uninstalleable applications are marked with a icon.

Tap the application you want to uninstall, then tap OK. Status and notifications The status bar at the top of your screen shows what's going on in your phone. To the left you get notifications when there is something new or ongoing. For example, new message and calendar notifications appear here. The right side shows the signal strength, battery status, and other information. 18 This is an Internet version of this publication. © Print only for private use. Checking notifications and ongoing activities You can drag down the status bar to open the Notification panel and get more information. For example, open a new message or view a calendar event from the Notification panel. You can also open running applications, such as the music player.

To open the Notification panel · Drag the status bar downwards. To close the Notification panel · · Drag the tab at the bottom of the Notification panel upwards. To open a running application from the Notification panel From the Notification panel, tap the icon for the running application to open it. To clear the Notification panel From the Notification panel, tap Clear. Phone settings menu View and change your phone settings from the Settings menu. 19 This is an Internet version of this publication. © Print only for private use. 1 2 To access the phone settings From the Home screen, tap . Tap Settings. Typing text Use one of the following methods to type text containing letters, numbers and other characters: · · Slide-out keyboard On-screen keyboard Phonepad When you are using the slide-out keyboard, the on-screen input methods become unavailable.

Slide-out keyboard Your slide-out keyboard can detect which application you are using and assist you in entering text for that application. For example, if you are viewing the conversations list in the Messaging application, you can slide out the keyboard and immediately start entering text for a new message you want to send. Or when you're viewing your contact list in the Contacts application, you can start a search for a contact by sliding out the keyboard and typing the relevant keywords. Using the slide-out keyboard 9 8 1 7 6 2 3 4 5 1 Change the character case and turn on the caps lock. For some languages, this key is used to access extra characters in the language.

2 Mode toggle key Press here to activate associated keys featuring characters of the same colour. For example, press this key once and then press the "Q" key to enter "1". To lock the mode toggle key, press it twice before pressing the associated keys. Press again after text input to unlock it. 3 Display symbols and smileys 4 Enter a space 5 Navigate left and right within a text field, or among other word and character options 6 Navigate up and down within a text field, across rows, or among other word and character options 7 Open the text input settings menu to change, for example, the Writing languages.

This key also changes the writing language when more than one input language is selected. 8 Enter a carriage return or confirm text input 9 Delete a character before the cursor All illustrations are for illustration purposes only and may not accurately depict the actual phone. On-screen keyboard Tap the keys of the on-screen QWERTY keyboard to enter text conveniently. Some applications open the on-screen keyboard automatically. You can also open this keyboard by touching a text field. 20 This is an Internet version of this publication. © Print only for private use. Using the on-screen keyboard 3G 12:45 1 , . 23 4 5 6 7 1 Change the character case and turn on the caps lock. For some languages, this key is used to access extra characters in the language.

2 Close the on-screen keyboard view 3 Display numbers and symbols. Touch and hold to display smileys. 4 Enter a space 5 Open the input settings menu to change, for example, the Writing languages. This key also changes the writing language when more than one input language is selected. 6 Enter a carriage return or confirm text input 7 Delete a character before the cursor All illustrations are for illustration purposes only and may not accurately depict the actual phone. · · To display the on-screen keyboard to enter text Tap a text entry field. To hide the on-screen keyboard or tap When you enter text, press . · To use the on-screen keyboard in landscape orientation When you enter text, turn the phone sideways. For the keyboard to support this feature, landscape mode must be supported by the application you are using, and your screen orientation settings must be set to automatic. · · To enter text using the on-screen keyboard To enter a character visible on the keyboard, tap the character.

To enter a character variant, touch and hold a regular keyboard character to get a list of available options, then select from the list. For example, to enter "é", touch and hold "e" until other options appear, then, while keeping your finger pressed on the keyboard, drag to and select "é". To shift between upper-case and lower-case letters to switch to upper-case Before you enter a letter, tap To turn on the caps lock Before you type a word, tap , or vice versa. · · or until appears. · To enter numbers or symbols When you enter text, tap .

A keyboard with numbers and symbols appears. Tap to view more options. To insert a smiley When you enter text, touch and hold Select a smiley. 1 2 . 21 This is an Internet version of this publication.

© Print only for private use. · To delete characters Tap to place the cursor after the character you want to delete, then tap To enter a carriage return When you enter text, tap to enter a carriage return. · · 1 2 To edit text When you enter text, touch and hold the text field until the Edit text menu appears. Select an option. Phonepad The Phonepad is similar to a standard 12-key telephone keypad. It gives you predictive text and multi-tap input options. You can activate the Phonepad text input method via the keyboard settings. The Phonepad is only available in portrait orientation. Using the Phonepad ' .

Phone language You can select a language to use in your phone. 1 2 3 To change the phone language From your Home screen, tap .

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA PRO user guide](http://yourpdfguides.com/dref/3988432)
<http://yourpdfguides.com/dref/3988432>

Find and tap Settings > Language & keyboard > Select language. Select an option. If you choose the wrong language and cannot read the menu texts, find and tap the Settings icon . Then select the entry beside , and select the first entry in the following menu. You can then select the language you want. Airplane mode In Airplane mode, your phone's network and radio transceivers are turned off to prevent disturbance to sensitive equipment. However, you can still play games, listen to music, watch videos and other content, as long as all this content is saved on your memory card. You can also be notified by alarms, if alarms are activated.

Turning on Airplane mode reduces battery consumption. 1 2 3 To turn on Airplane mode From your Home screen, tap . Find and tap Settings > Wireless & networks. Mark the Airplane mode checkbox. You can also select Airplane mode from the Phone options menu. To access the Phone options menu, press and hold the power key . Battery Your Android™ phone keeps you connected and updated wherever you are. This affects the battery life of your phone. Below are some tips on how to prolong battery life while still staying connected and up to date. Battery performance Standby time, a common term when it comes to battery performance, refers to the time during which the phone is connected to the network and is not being used.

The more time your phone is in standby and not otherwise in operation, the longer the battery lasts. The following tips can help you improve battery performance: · · Charge your phone often. This will not affect the lifetime of the battery. Downloading data from the Internet is power consuming. When you're not using the Internet, you can save power by disabling all data connections over mobile networks. You can do this from the Wireless & network settings. This setting does not prevent your phone from transmitting data over other wireless networks. Turn off GPS, Bluetooth™ and Wi-Fi® when you don't need these features. You can turn them on and off more easily by adding the Power control widget to your Home screen. You do not need to turn off 3G.

Set your synchronisation applications (used to synchronise your email, calendar and contacts), to synchronise manually. You can also synchronise automatically, but increase the intervals. Check the battery usage menu in the phone to see which applications use the most power. Your battery consumes more power when you use video and music streaming applications such as YouTube™. Some Android Market™ applications also consume more power. 26 This is an Internet version of this publication. © Print only for private use. · · · · · Close and exit applications that you are not using since multitasking affects the battery performance. Lower the screen display brightness level. Turn off your phone or use Airplane mode if you are in an area with no network coverage.

Otherwise, your phone repeatedly scans for available networks, and this consumes power. Use a Sony Ericsson original handsfree device to listen to music. This consumes less battery power than when you listen to music through the phone's loudspeakers. For more information about how to maximise your battery performance, visit www.sonyericsson.com/support. 1 2 To access the battery usage menu From the Home screen, tap . Find and tap Settings > About phone > Battery use to see which installed applications consume the most battery power. To add the Status switch widget to your Home screen . From your Home screen, press Tap Add > Widgets.

Select the Status switch widget. You can now turn on and off your data connections more easily. 1 2 3 Battery LED status Green Flashing red Orange The battery is fully charged The battery level is low The battery is charging. The battery level is between low and full 1 2 To check the battery level From the Home screen, tap . Find and tap Settings > About phone > Status.

Memory You can save content on a memory card and in the phone memory. Music, video clips and photos are saved on the memory card while applications, contacts and messages are saved in the phone memory. You can move some applications from the phone memory to the memory card. 1 2 3 4 To move an application to the memory card From your Home screen, tap . Find and tap Settings > Applications > Manage applications. Tap the desired application. Tap Move to SD card. It is not possible to move some applications from the phone memory to the memory card. Memory card You may have to purchase a memory card separately. Your phone supports a microSD™ memory card, which is used for media content. This type of card can also be used as a portable memory card with other compatible devices. Without a memory card you cannot use the camera, nor can you play or download music files and video clips. 27 This is an Internet version of this publication. © Print only for private use. Safely removing the memory card You can safely remove the memory card from your phone any time when your phone is turned off.

If you want to remove the memory card from your phone when your phone is on, you must unmount the memory card from your phone first before you physically remove the memory card from your phone. This can prevent damaging the memory card or losing your data stored on the memory card. 1 2 To unmount the memory card From your Home screen, tap . Find and tap Settings > Storage > Unmount SD card. Formatting the memory card You can format the memory card in your phone, for example, to free up memory. This means that you erase all data on the card. All content on the memory card gets erased when you format it. Make sure you make backups of everything you want to save before formatting the memory card. To back up your content, you can copy it to your computer. For more information, refer to the chapter Connecting your phone to a computer on page 95.

1 2 3 To format the memory card From your Home screen, tap . Find and tap Settings > Storage > Unmount SD card. After you have unmounted the memory card, tap Erase SD card. Stereo portable handsfree 1 2 3 To use a handsfree Connect a portable handsfree. To answer a call, press the call handling key. If you listen to music, it stops when you receive a call and resumes when the call has ended. To end a call, press the call handling key. If a portable handsfree is not included with the phone, you may purchase it separately. Internet and messaging settings To send text and multimedia messages and to access the Internet, you must have a 2G/ 3G mobile data connection and the correct settings. There are different ways to get these settings: · For most mobile phone networks and operators, Internet and messaging settings come preinstalled on your phone.

You can then start using the Internet and send messages right away. 28 This is an Internet version of this publication.

© Print only for private use. · · In some cases you will get the option to download Internet and messaging settings the first time you turn on your phone. It is also possible to download these settings later from the Settings menu. You can manually add and change Internet and network settings in your phone at any time. Contact your network operator for detailed information on your Internet and messaging settings. To download Internet and messaging settings From your Home screen, tap . Find and tap Settings > Sony Ericsson > Settings download. To view the current Access Point Name (APN) From the Home screen, tap .

Find and tap Settings > Wireless & networks > Mobile networks. Tap Access Point Names. If you have several available connections, the active network connection will be indicated by a marked button to the right. 1 2 1 2 3 1 2 3 4 5 6 7 8 To configure APN settings manually From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks > Access Point Names. . Press Tap New APN. Tap Name and enter the name of the network profile you want to create. Tap APN and enter the access point name. Enter all other information required by your network operator. and tap Save . Press Contact your network operator for detailed information about your network settings. 1 2 3 4 To reset the default Internet settings From the Home screen, tap . Tap Settings > Wireless & networks > Mobile networks > Access Point Names. . Press Tap Reset to default. Usage info For quality purposes, Sony Ericsson collects anonymous bug reports and statistics regarding your phone usage. None of the information gathered includes personal data. By default, the usage info sending option is not activated. But you can choose to activate it if you like. 1 2 3 To send usage info From your Home screen, tap . Find and tap Settings > Sony Ericsson > Usage info. Mark the Send usage info checkbox. Using Data monitor Use the Data monitor to keep track of the amount of data your phone sends and receives. This application tracks the approximate data traffic over 2G/3G networks from a predefined start day. The values are reset monthly. For example, if the start day is set to 15, the data traffic counter is reset on the 15th day of every month. The first time you start the Data monitor, the start day is set to 1. 29 This is an Internet version of this publication. © Print only for private use.

Get the Data monitor to alert you when the amount of transferred data reaches a certain limit. You can set limits separately for sent data, received data and total data. You can also activate the Data monitor as a widget on the Home screen. Data amounts indicated are approximate. Please consult your service provider to verify actual data usage. Data sent or received over Wi-Fi® or Bluetooth™ connections is not tracked. 1 2 3 4 5 1 2 3 4 5 1 2 3 4 To set the Data monitor start day From your Home screen, tap . Find and tap Data monitor. Tap Settings > Month period. Adjust the start day by scrolling up and down. When finished, tap OK. To set a Data monitor alert From your Home screen, tap . Find and tap Data monitor. Tap the bell icon next to Sent data, Received data or Total data, depending on which alert you want to set. Adjust the values by scrolling up and down. When finished, tap OK. To clear a Data monitor alert From your Home screen, tap . Find and tap Data monitor. Tap the bell icon next to Sent data, Received data or Total data, depending on the alert you want to remove. Tap Reset. The alert limit is reset to zero and the alert is deactivated. Turning off data traffic You can disable all data connections over 2G/3G networks with your phone to avoid any unwanted data downloads and synchronisations. Contact your network operator if you need detailed information about your subscription plan and data traffic costs. When data traffic is turned off, you can still use Wi-Fi® and Bluetooth™ connections. You can also send and receive multimedia messages. 1 2 3 To turn off all data traffic From your Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks. Unmark the Data enabled checkbox. Data roaming Depending on your network operator, it might be possible to allow mobile data connections via 2G/3G outside of your home network (roaming). Please note that data transmission charges may apply.

Contact your network operator for more information. Applications may sometimes use the Internet connection in your home network without any notification, for example, when sending search and synchronisation requests. Additional charges may apply for data roaming. Consult your service provider. 1 2 3 To activate data roaming From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks. Mark the Data roaming checkbox. You can't activate data roaming when data connections have been deactivated 30 This is an Internet version of this publication. © Print only for private use. Network settings Your phone automatically switches between networks depending on available networks over different locations. Initially, your phone is configured to use the fastest mobile network mode available for data. But you can configure your phone manually to use only a slower 2G network mode for data, to extend the life of your battery between charges. You can also configure your phone to access a different set of network modes entirely, or to behave in special ways when roaming. 1 2 3 4 1 2 3 4 5 To select a network mode From your Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks.

Tap Network Mode. Select a network mode. To select another network manually From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks > Network operators. Tap Search mode. When a popup window appears, tap Select manually. Select a network. If you select a network manually, your phone will not search for other networks, even if you move out of range of the manually selected network. 1 2 3 4 To activate automatic network selection From the Home screen, tap . Find and tap Settings > Wireless & networks > Mobile networks > Network operators. Tap Search mode. Tap Select automatically. 31 This is an Internet version of this publication. © Print only for private use. Calling Emergency calls Your phone supports international emergency numbers, for example, 112 or 911.

You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network. 1 2 3 To make an emergency call From your Home screen, tap . Find and Tap Phone. Enter the emergency number and tap Call. To delete a number, tap You can make emergency calls when no SIM card is inserted. . 1 2 To make an emergency call while the SIM card is locked Tap Emergency call. Enter the emergency number and tap Call.

[ERICSSON XPERIA PRO user guide](http://yourpdfguides.com/dref/3988432)

<http://yourpdfguides.com/dref/3988432>

Contacts automatically tries to join new addresses with existing contacts, to create a single entry. You can also manage this process manually. Opening Contacts for the first time The first time you open the Contacts application, you get hints on how to start adding contacts to your phone. This is a good time to choose a method that suits your situation and setup. Getting contacts into your phone There are several methods to get your existing contacts and other data into your new phone: Synchronise your phone with contacts already stored with an online synchronisation service, such as Sony Ericsson Sync or Google Sync™. Import contacts from a SIM card.

You may not be able to transfer all information from one phone to another using this method because of limited memory on the SIM card. Import contacts from a memory card. Use a Bluetooth™ connection. Send contacts via messaging services such as SMS, MMS or email. The online synchronisation method works best for most users. This way, you always have a backup online. To view your contacts From your Home screen, tap , then tap . Your contacts are listed here. 1 2 3 To synchronise your phone contacts with a synchronisation account From your Home screen, tap , then tap . , then tap Settings > Accounts & sync.

Press To set up a synchronisation account, tap Add account and follow the on-screen instructions. If you have already set up a synchronisation account and you want to , and tap Sync now. sync with that account, tap the account, press To import contacts from a SIM card From your Home screen, tap , then tap . Press , then tap Import contacts > SIM card. If you have set up a synchronisation account, you can choose to add the SIM card contacts under that account. Or you can choose to only use these contacts in the phone. Select your desired option. To import an individual contact, find and tap the contact. To import all contacts, , then tap Import all. press 1 2 3 4 36 This is an Internet version of this publication.

© Print only for private use. To import contacts from a memory card 1 2 3 4 From your Home screen, tap , then tap . Press , then tap Import contacts > Memory card. If you have set up a synchronisation account, you can add the imported memory card contacts under that account. Or you can choose to only use the imported contacts in the phone. Select your desired option. If you have more than one vCard file on the SD card, a list appears showing different batches of phone contacts, with the corresponding dates for when they were created. Select the batch you want to import. To receive contact data sent using Bluetooth™ technology 1 2 3 Make sure you have the Bluetooth™ function turned on and your phone set to visible. If not, then you cannot receive data from other devices.

When you are asked to confirm whether you want to receive the file, tap Accept. Drag down the Notification panel and tap the file you received to import the contact data. To receive contacts sent using a messaging service 1 2 When you receive a new text message, multimedia message, or email message, open the message. The received contact data appears as a vCard attachment. Tap, or touch and hold the vCard file to open a menu so you can save the contact data. Contacts screen overview 1 2 3 4 5 6 7 1 2 3 4 5 6 7 Tap here to create a contact Contact search field Touch a contact to view its details Icon shows contact's status on instant messaging services Alphabetical index for browsing contacts Tap a contact thumbnail to access the Quick Contact menu Shortcut tabs Managing your contacts Create, edit and synchronise your contacts in a few simple steps. Select to display only the contacts you want to use in the phone. If you synchronise your contacts with more than one account, you can join contacts in your phone to avoid duplicates. Some synchronisation services, for example some social networking services, do not allow you to edit contact details. 37 This is an Internet version of this publication.

© Print only for private use. 1 2 3 To select which contacts to display in the Contacts application From your Home screen, tap , then tap . Press , then tap Filter. In the list that appears, mark and unmark the desired options. If you have synchronised your contacts with a synchronisation account, that account appears in the list.

You can tap the account to further expand the list of options. When you are finished, tap OK. To add a contact From your Home screen, tap , then tap . Tap . If you have synchronised your contacts with one or more accounts, select the account to which you want to add this contact, or tap Phone contact if you only want to use this contact in your phone.

Enter or select the desired information for the contact. When you are finished, tap Done. If you add a plus sign and the country code before a contact phone number, you can use the number when you make calls from other countries. 1 2 3 4 5 1 2 3 1 2 3 4 To edit a contact From the Home screen, tap , then tap . Touch and hold the contact you want to edit, then tap Edit contact. Edit the desired information. When you are finished, tap Done. To associate a picture with a contact From your Home screen, tap , then tap . Touch and hold the contact you want to edit, then tap Edit contact. and select the desired method for adding the contact picture.

Tap When you have added the picture, tap Done. You can also add a picture to a contact directly from the Gallery application. 1 2 3 To view your communication with a contact From the Home screen, tap , then tap . Tap the contact you want to view. To view your communication with the contact for different media, tap or flick through the filter items at the bottom of the screen. To delete contacts From the Home screen, tap , then tap . , then tap Delete contacts. Press Mark the contacts you want to delete, or tap Mark all if you want to delete all contacts. Tap Delete > OK. To edit contact information about yourself From the Home screen, tap , then tap .

Touch and hold Myself at the top of the contact list, then tap Edit contact. Enter the new information or make the changes you want. When you are done, tap Done. 1 2 3 4 1 2 3 4 Avoiding duplicate entries in your Contacts If you synchronise your contacts with a new account or import contact information in other ways, you could end up with duplicate entries in your Contacts. If this happens, you can join such duplicates to create a single entry.

And if you join entries by mistake, you can separate them again later. 38 This is an Internet version of this publication. © Print only for private use. 1 2 3 To join contacts From the Home screen, tap , then tap . Touch and hold the contact you want to join with another contact, then tap Join contacts.

From the list that appears, tap the contact whose information you want to join with the first contact, then tap OK to confirm. The information from the second contact is added to the first contact, and the second contact is no longer displayed in the Contacts list.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA PRO user guide](http://yourpdfguides.com/dref/3988432)
<http://yourpdfguides.com/dref/3988432>

To separate joined contacts From the Home screen, tap , then tap . Touch and hold the joined contact you want to edit, then tap Edit contact. Press , then tap Separate. Tap OK. 1 2 3 4 Favourites You can mark a contact as a favourite. The Favourites tab gives you quick access to your marked contacts. In Favourites, you can also find a list of the contacts you communicate with most frequently. 1 2 3 To mark or unmark a contact as a favourite From the Home screen, tap , then tap .

Tap the contact you want to add to or remove from your favourites. Tap . Communicating with your contacts 1 2 To search for a contact From your Home screen, tap , then tap . Enter the first few letters of the contact name in the Search field. All contacts beginning with those letters appear. The quick contact menu Tap a contact's thumbnail to view quick communication options for a particular contact. Options include call the contact, sending a text or multimedia message, and starting a chat using Talk. For an application to appear as an option in the quick contact menu, you may need to set up the application in your phone. For example, you need to start the Gmail™ application and enter your login details before you can use it in the quick contact menu. Sharing your contacts 1 2 3 4 1 2 3 4 To send your business card From your Home screen, tap , then tap .

Tap Myself , then tap Send contact > OK. Press Select an available transfer method and follow the on-screen instructions. To send a contact From your Home screen, tap , then tap . Tap the contact whose details you want to send. , then tap Send contact > OK. Press Select an available transfer method and follow the on-screen instructions. 39 This is an Internet version of this publication. © Print only for private use. 1 2 3 4 5 To send several contacts at once From your Home screen, tap , then tap . Press , then tap Send contacts. Mark the contacts you want to send, or select all if you want to send all contacts. Tap Send, then tap OK to confirm. Select an available transfer method and follow the on-screen instructions. Backing up contacts You can use the memory card and the SIM card for backing up contacts. 1 2 3 1 2 3 4 5 To export all contacts to the memory card From your Home screen, tap , then tap . Press , then tap Back up contacts > Memory card. Tap OK. To export contacts to a SIM card From your Home screen, tap , then tap . Press , then tap Back up contacts > SIM card.

Mark the contacts you want to export, or tap Mark all if you want to export all your contacts. Tap Back up. Select Add contacts if you want to add the contacts to existing contacts on your SIM card, or select Replace all contacts if you want to replace the existing contacts on your SIM card. When you export contacts to a SIM card, not all information may get exported. This is due to memory limitations on SIM cards. 40 This is an Internet version of this publication. © Print only for private use. Messaging Using text and multimedia messaging You can send and receive text messages from your phone using SMS (Short Message Service). If your subscription includes MMS (Multimedia Messaging Service), you can also send and receive messages that contain media files, for example, pictures and videos. A single text message may contain up to 160 characters.

If you exceed 160 characters, then all your single messages are linked and sent together. You are charged for each 160-character message sent. When you view your messages, they appear as conversations, which means that all messages to and from a particular person are grouped together. To send multimedia messages, you need the correct MMS settings in your phone. See Internet and messaging settings on page 28.

1 2 3 4 5 6 7 To create and send a message From your Home screen, tap , then find and tap . Tap New message. Tap Write message and enter your message text. To add a recipient, tap Add recipient, then select a contact or enter the full number manually. If you want to add a media file, tap and select an option. . To If you want to add or remove recipients before sending the message, press add a recipient, tap Add recipient. To remove a recipient, tap Edit recipients and tap next to a recipient field. When you are finished, tap Done. To send the message, tap Send. If you exit a message before sending, it gets saved as a draft. The conversation gets tagged with the word Draft. 1 2 3 To read a received message . From your Home screen, tap , then find and tap Tap the desired conversation. If the message is not yet downloaded, tap and hold the message, then tap Download message.

When you receive a text or multimedia message, appears in the status bar. To read the message, you can also drag the status bar downwards and tap the received message when the status bar is open. 1 2 3 1 2 3 4 5 1 2 3 To reply to a message From your Home screen, tap , then tap Messaging. Tap the desired conversation. Enter your reply and tap Send. To forward a message From your Home screen, tap , then tap Messaging. Tap the desired conversation.
