Manual abstract:

User support User guide in the phone An extended User guide is available in your phone. The extended User guide is also available at www.sonyericsson.com/support. 1 2 To access the User guide in your phone From the Home screen, drag upwards. Find and tap User guide. If the supplied memory card is not inserted into your phone, you can access the User guide by selecting the Online user guide option after you tap User guide in step 2. User support application The support application is your window to Sony Ericsson support. Watch how-to videos, get the latest support news, enter the support zone or get the latest software for your phone. · To open the user support application From the Home screen, flick through the horizontal list of widgets and tap Support .

Experience more. Discover how. Visit www.sonyericsson.com/support to get the most from your phone.

Important information Please read the Important information leaflet before you use your mobile phone. Some of the services and features described in this User guide are not supported in all countries/ regions or by all networks and/or service providers in all areas. Without limitation, this applies to the GSM International Emergency Number 112. Please contact your network operator or service provider to determine to adjust the date or hour and minute. Tap Set. Press to go back to the setup guide. While setting time, you can shift between 12-hour and 24-hour format. If you want to use AM and PM, you have to unmark Use 24-hour format. 1 2 3 4 5 6 1 2 3 To set up your phone to use Google™ services From the setup guide, tap Google account. Tap Next. Tap Sign in if you want to use an existing Google™ account, or Create if you want to create a new account. Follow the on-screen instructions to finish setting up your phone with a Google™ account. To set up an email account From the setup guide, tap Email. Tap Email address, enter your email address and tap Next. Enter your password and tap Done.

Tap Continue. If the phone cannot download your email account settings automatically, enter the account settings manually. If you need to enter the settings manually, contact your email service provider for the correct email account settings. For example, you need to know if the account type is POP3 or IMAP. 1 2 3 4 5 1 2 3 1 2 3 To set up Timescape™ to work with Facebook™ From the setup guide, tap Facebook. Tap Username, enter your Facebook™ username and tap Next. Enter your password and tap Done. To set up Timescape™ to work with Twitter™ From the setup guide, tap Twitter. Tap Username, enter your Twitter™ username and tap Next. Enter your password and tap Done.

To transfer contacts using Sony Ericsson Sync Before you can transfer contacts to your new phone using this method, you need to set up a Sony Ericsson account and synchronise your old phone with this account. Go to www.sonyericsson.com/user for more information. 1 2 3 4 5 From the setup guide, tap Sync.

Tap Sony Ericsson Sync. Enter your username and password, then tap Log in. Tap Save. The phone will now synchronise contacts, calendar events and bookmarks with your Sony Ericsson account. to return to the setup guide.

Press 8 This is an Internet version of this publication. © Print only for private use. · 1 2 To exit the setup guide When you are finished with the setup guide, tap Done. To access the setup guide From the Home screen, drag upwards. Find and tap Settings > Basic settings > Setup guide. 9 This is an Internet version of this publication. © Print only for private use. Attach the cover. 10 This is an Internet version of this publication. © Print only for private use. Charging the battery The phone battery is partly charged when you buy the phone. It may take a few minutes before the battery icon appears on the screen when you connect the phone to a power source. You can still use your phone while it is charging. The battery will start to discharge a little after it is fully charged and then charges again after a certain time. This is to extend battery life and may result in the charge status showing a level below 100 percent. 2 1 · 1 2 1 2 To charge the phone using the power adapter Connect the phone to a power outlet using the USB cable and the power adapter. To charge the phone using a computer Connect the phone to a USB port on a computer using the USB cable included in the phone kit.

Tap Charge phone. To check the battery level upwards. From the Home screen, drag Find and tap Settings > About phone > Status. Using the hardware keys Menu · Open a list of options available in the current screen or application Go to the Home screen or to the applications panes from any application or screen Open the recently used applications window Go back to the previous screen Close the onscreen keypad, a dialog box, an options menu, or the Notification panel Home · · Back · · Home screen The Home screen is the starting point of your phone. You can personalise the Home screen by adding widgets, or by changing the wallpaper and the applications in the corners.

11 This is an Internet version of this publication. © Print only for private use. When you add more than one widget, the Home screen extends beyond the screen width. The corners on the Home screen are used to access applications or bookmarks quickly. You can add any application or bookmark to the corners.

When you go to the Home screen, some applications may continue to run in the background. If you do not want applications to run in the background, you should exit each application you have opened before going to the Home screen. A widget is a part of an application on the Home screen. It displays important information from a particular application. For example, the Sony Ericsson Timescape™ widget displays incoming messages and the Media widget allows you to start playing music directly. January 7 Janua 7, 2010 0 · 1 2 3 1 2 3 4 To view the extended Home screen Drag your finger to the sides of the screen. To change the Home screen wallpaper Press . Tap Change wallpaper. Select an option. To add widgets to the Home screen Press .

Tap Arrange widgets > Add widget. Select a widget from the list. Press to exit the edit mode. To delete a widget from the Home screen Press . Tap Arrange widgets. Flick horizontally across the screen and tap the widget you want to delete. Tap in the widget. Tap Yes. Press to exit the edit mode. 1 2 3 4 5 6 Status bar A status bar at the top of the screen displays phone status information and notifications.

Notification LED The

Notification LED (Light-emitting diode) is located at the top of the phone.

It provides information on the phone status and on pending notifications. LED status Green Flashing red Orange Flashing green The battery is fully charged The battery level is low The battery is charging.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA X8 user guide](http://yourpdfguides.com/dref/2815797)
<http://yourpdfguides.com/dref/2815797>

The battery level is between low and full There is a pending message or you have missed a call While the phone is charging but the battery level is still low, pending notifications (flashing green) are not indicated by the LED. Sensors Your phone includes a light sensor and a proximity sensor. The light sensor detects the ambient light level and adjusts the brightness of the screen accordingly.

The proximity sensor turns the touch screen off when your face touches the screen. This prevents you from unintentionally activating phone functions when you are engaged in a call. Using the touch screen This phone is equipped with a conductive display. Moisture on the screen may prevent proper functionality. · To open or highlight an item Tap the item.

17 This is an Internet version of this publication. © Print only for private use. · To mark or unmark options Tap the relevant checkbox or in some cases the right side of the list option, to mark or unmark an option. Marked checkbox Unmarked checkbox Marked list option Unmarked list option · To pan When this option is available, drag the screen to pan. Zooming There are two ways to zoom. The zoom alternative depends on the application you are using. For example, the Web browser uses and , while the Camera album uses the touch, hold and drag alternative. · · To zoom or to zoom in or out. When available, tap Touch, hold and drag upwards or downwards to zoom in or out. You may have to drag your finger on the screen (in any direction) to make the zoom icons appear.

Scrolling You can scroll up or down, and on some webpages you can also scroll to the sides. Dragging or flicking will not activate anything on the screen. To scroll · Drag up or down to scroll. 18 This is an Internet version of this publication. © Print only for private use. To flick · Flick to scroll quickly. You can wait for the scrolling to come to a stop or you can stop it immediately by tapping the screen. Lists You can browse through alphabetical lists by using the index icon. 11:37 : K L M 1 2 To use the index icon From any alphabetical list, flick up or down to make appear. Touch, hold and drag up or down to browse to an index letter.

SIM card The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card. PIN You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can call an emergency number without entering a PIN.

19 This is an Internet version of this publication. © Print only for private use. Memory You can save content on a memory card and in the phone memory. Music, video clips and photos are saved on the memory card while applications, contacts and messages are saved in the phone memory. Memory card You may have to purchase a memory card separately.

Your phone supports a microSDTM memory card, which is used for media content. This type of card can also be used as a portable memory card with other compatible devices. Without a memory card you cannot use the camera, nor can you play or download music files and video clips. Stereo portable handsfree 1 2 3 To use a handsfree Connect a portable handsfree. To answer a call, press the call handling key. If you listen to music, it stops when you receive a call and resumes when the call has ended. To end a call, press the call handling key. If a portable handsfree is not included with the phone, you may purchase it separately. Adjusting the volume You can adjust the ringtone volume for phone calls and notifications as well as for music and video playback. · · 1 2 To adjust the ring volume with the volume key Press the volume key up or down.

To adjust the media playing volume with the volume key When playing music or watching video, press the volume key up or down. To set the phone to silent and vibrating mode Press the volume key down to minimum. The phone is in silent though still vibrating mode. Press the volume key further one step down to turn off the vibrating mode. 20 This is an Internet version of this publication. © Print only for private use. Entering text Using the keyboard When you start an application or select a field that requires text or numbers, the keyboard appears. · · To display the keyboard to enter text Tap a text entry field. To hide the keyboard When you enter text, tap . · To use the landscape keyboard When you enter text, turn the phone sideways.

For the keyboard to support this feature, landscape mode must be supported by the application you are using, and your screen orientation settings must be set to automatic. · · To enter text To enter a character visible on the keyboard, tap the character. To enter a letter variant, touch and hold a regular keyboard letter to get a list of available options, then select from the list. For example, to enter "é", touch and hold "e" until a list appears, then select "é" from the list. To shift between upper-case and lower-case letters Before you enter a letter, tap .

To turn on the caps lock Before you type a word, tap . · until appears. · To enter numbers or symbols When you enter text, tap . A keyboard with numbers and symbols appears. To insert a smiley When you enter text, touch and hold Select a smiley. 1 2 1 2 .

To edit text When you enter text, touch and hold the text field until the Edit text menu appears. Select an option. Keyboard settings You can select settings for the keyboard, such as writing language and automatic prediction. · To access the keyboard settings When you enter text, tap . If you have selected more than one writing language, touch and hold instead. To change writing language When you enter text, tap , or touch and hold . Tap Writing languages. Select the languages you want to use for writing. When you are finished, press repeatedly to return to entering text. If you have selected more than one input language, tap to switch between the selected writing languages.

Find and tap Settings > Date & time. Unmark the Automatic checkbox, if it is marked. Tap Set date. Tap or to adjust the date. Tap Set. To set the time manually upwards. From the Home screen, drag Find and tap Settings > Date & time. Unmark the Automatic checkbox, if it is marked. Tap Set time. Tap or to adjust the hour and minute.

Tap AM to change to PM or vice versa. Tap Set. If you want to use AM and PM, you have to unmark Use 24-hour format. 1 2 3 4 5 1 2 3 1 2 3 To set the time zone From the Home screen, drag upwards. Find and tap Settings > Date & time. Unmark the Automatic checkbox, if it is marked. Tap Select time zone. Select an option. To set the hour format upwards. From the Home screen, drag Find and tap Settings > Date & time > Use 24-hour format.

Mark the checkbox to shift between 12 hour and 24 hour format. To set the date format From the Home screen, drag upwards. Find and tap Settings > Date & time > Select date format. Select an option. 22 This is an Internet version of this publication. © Print only for private use. Ringtone settings 1 2 3 1 2 3 1 2 3 1 2 3 To set a phone ringtone From the Home screen, drag upwards. Find and tap Settings > Sound & display > Phone ringtone. Select a ringtone. To enable touch tones From the Home screen, drag upwards.

Find and tap Settings > Sound & display. Select the Audible touch tones or Audible selection. To select a notification ringtone From the Home screen, drag upwards. Find and tap Settings > Sound & display > Notification ringtone. Select a ringtone and tap OK.

To set the vibrating alert From the Home screen, drag upwards. Find and tap Settings > Sound & display. Mark the Phone vibrate checkbox. Screen settings Orientation The screen orientation can be changed from portrait to landscape view. By default it is turned off, but you can set to change automatically. 1 2 3 To set the screen orientation to automatic upwards. From the Home screen, drag Find and tap Settings > Sound & display. Mark the Orientation checkbox. If you do not set the screen orientation to automatic, the phone stays in portrait orientation. 1 2 3 4 1 2 3 To adjust the screen brightness From the Home screen, drag upwards. Find and tap Settings > Sound & display > Brightness. To decrease the screen brightness, drag the slider to the left. To increase the screen brightness, drag the slider to the right. Tap OK. To adjust the idle time before the screen turns off upwards.

From the Home screen, drag Find and tap Settings > Sound & display > Screen timeout. Select an option. To turn off the screen quickly, briefly press the power key . Phone language You can select a language to use in your phone. 23 This is an Internet version of this publication. © Print only for private use. 1 2 3 To change the phone language From the Home screen, drag upwards. Find and tap Settings > Locale & text > Select locale. Select an option. If you choose the wrong language and cannot read the menu texts, go to www.sonyericsson.com/support for help. Flight mode In Flight mode, no radio transmissions are made by the phone. You will not be able to turn on Bluetooth™ or Wi-Fi®. 1 2 3 To turn on Flight mode From the Home screen, drag upwards.

Find and tap Settings > Wireless controls. Mark the Airplane mode checkbox. You can also press and hold to turn on Flight mode. Internet and messaging settings To send text and multimedia messages and to access the Internet, you must have a 2G/ 3G mobile data connection and the correct settings. There are different ways to get these settings: . . . For most mobile phone networks and operators, Internet and messaging settings come preinstalled on your phone. You can then start using the Internet and send messages right away. In some cases you will get the option to download Internet and messaging settings the first time you turn on your phone. It is also possible to download these settings later from the Settings menu. You can manually add and change Internet and network settings in your phone at any time. Contact your network operator for detailed information on your Internet and messaging settings. To download Internet and messaging settings From the Home screen, drag upwards. Find and tap Settings > Basic settings > Settings download. To view the current Access Point Name (APN) upwards. From the Home screen, drag Find and tap Settings > Wireless controls > Mobile networks. Tap Access Point Names.

If you have several available connections, the active network connection will be indicated by a check mark to the right. 1 2 1 2 3 1 2 3 4 5 6 7 8 To configure Internet settings manually From the Home screen, drag upwards. Find and tap Settings > Wireless controls > Mobile networks > Access Point Names. Press . Tap New APN . Tap Name and enter the name of the network profile you want to create. Tap APN and enter the access point name. Tap and enter all other information required by your network operator. Press and tap Save . Contact your network operator for detailed information about your network settings. 24 This is an Internet version of this publication. © Print only for private use. 1 2 3 4 To reset to the default Internet settings From the Home screen, drag upwards. Find and tap Settings > Wireless controls > Mobile networks > Access Point Names. Press .

Tap Reset to default . Data traffic Using Data monitor to keep track of your data traffic Use the Data monitor to keep track of the amount of data your phone sends and receives. This application tracks the approximate data traffic over 2G/3G networks from a predefined start day. The values are reset monthly. For example, if the start day is set to 15, the data traffic counter is reset on the 15th day of every month.

The first time you start the Data monitor, the start day is set to 1. Get the Data monitor to alert you when the amount of transferred data reaches a certain limit. You can set limits separately for sent data, received data and total data. You can also activate the Data monitor as a widget on the Home screen. Data sent or received over Wi-Fi® or Bluetooth™ connections is not tracked. 1 2 3 4 1 2 3 4 5 6 1 2 3 4 To set the Data monitor reset day upwards. From the Home screen, drag Find and tap Data monitor. Tap the number indicating the start day. Scroll the bar up or down, and tap the desired reset day. To set a Data monitor alert From the Home screen, drag upwards.

Find and tap Data monitor. Tap the bell icon next to Sent data, Received data or Total data depending on what alert you want to set. Tap a number you want to change. Scroll up or down and tap the desired value. When finished, tap OK. To clear a Data monitor alert upwards. From the Home screen, drag Find and tap Data monitor. Tap the bell icon next to Sent data, Received data or Total data depending on which alert you want to remove. Tap Clear. The alert limit is reset to 0 and the alert is deactivated.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA X8 user guide](http://yourpdfguides.com/dref/2815797)
<http://yourpdfguides.com/dref/2815797>

Turning off data traffic You can disable all data connections with your phone to avoid any unwanted data downloads and synchronisations. Contact your network operator if you need detailed information about your subscription plan and data traffic costs. 1 2 3 To turn off all data traffic upwards. From the Home screen, drag Find and tap Settings > Wireless controls > Mobile networks. Unmark the Data traffic checkbox.

25 This is an Internet version of this publication. © Print only for private use. Data roaming Depending on your network operator, it might be possible to allow mobile data connections via 2G/3G outside of your home network (roaming). Please note that data transmission charges may apply. Contact your network operator for more information.

Applications may sometimes use the Internet connection in your home network without any notification, for example, when sending search and synchronisation requests. 1 2 3 To activate data roaming From the Home screen, drag upwards. Find and tap Settings > Wireless controls > Mobile networks. Mark the Data roaming checkbox. Network settings Your phone automatically switches between networks depending on availability. Some network operators allow you to switch networks manually, for example, if you are travelling abroad and want to use a particular network. To save battery, you can limit your phone to only use GSM networks. Data downloads and uploads will however be slower. If you are going to download or upload large amounts of data, we recommend that you change to another network mode or connect to the Internet through a Wi-Fi® network. 1 2 3 4 1 2 3 4 To use GSM networks only From the Home screen, drag upwards.

Find and tap Settings > Wireless controls > Mobile networks. Tap Network Mode. Select GSM only. To select another network manually upwards. From the Home screen, drag Find and tap Settings > Wireless controls > Mobile networks > Network operators. Tap Select manually. Select a network. If you select a network manually, your phone will not search for another network, even if you move out of range of the manually selected network. 1 2 3 To activate automatic network selection upwards. From the Home screen, drag Find and tap Settings > Wireless controls > Mobile networks > Network operators. Tap Select automatically.

26 This is an Internet version of this publication. © Print only for private use. Calling Emergency calls Your phone supports international emergency numbers, for example, 112 or 911. You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network.

1 2 To make an emergency call From the Home screen, tap . Enter the emergency number and tap . To delete a number, tap . You can make an emergency call without a SIM card inserted. 1 2 To make an emergency call while the SIM card is locked Tap Emergency call.

Enter the emergency number and tap . To delete a number, tap . Call handling 1 2 3 To make a call From the Home screen, tap . If the call log is shown, tap to enter the dial pad view. Enter the number of the recipient and tap . To delete a number, tap To end a call Tap . To make an international call From Home screen, tap . Touch and hold down 0 until a "+" sign appears. Enter the country code, area code (without the first 0) and phone number, then tap . To answer a call .

· 1 2 3 · Drag the indicator to To decline a call Drag the indicator to To change the ear speaker volume during a call Press the volume key up or down. To turn on the loudspeaker during a call Tap . Find and tap Settings > Call settings > GSM call settings > Call forwarding. Select an option.

Enter the number you want to forward the calls to and tap Enable. To turn off call forwarding upwards. From the Home screen, drag Find and tap Settings > Call settings > GSM call settings > Call forwarding. Select an option. Tap Disable. Showing or hiding your phone number You can select to show or hide your phone number on call recipients' devices when you call them. 29 This is an Internet version of this publication. © Print only for private use. 1 2 3 To show or hide your phone number From the Home screen, drag upwards. Find and tap Settings > Call settings > GSM call settings > Caller ID.

Select an option. Fixed Dialling Numbers If you have received a PIN2 code from your service provider, you can use a list of Fixed Dialling Numbers (FDN) to restrict outgoing and incoming calls. 1 2 3 4 1 2 To enable or disable fixed dialling From the Home screen, drag upwards. Find and tap Settings > Call settings > Fixed Dialling Numbers. Tap Enable FDN or Disable FDN.

Enter your PIN2 and tap OK. To access the list of accepted call recipients From the Home screen, drag upwards. Find and tap Settings > Call settings > Fixed Dialling Numbers > FDN list. 30 This is an Internet version of this publication. © Print only for private use.

Contacts In the Contacts application, you can enter information for your personal contacts, for example, phone numbers and email addresses. When you view a contact, you get quick access to all communication with that contact. If you have a synchronisation service account, you can synchronise your phone contacts with the account contacts. See Synchronising on page 51. To view your contacts From the Home screen, tap to open the Contacts application. If you have not set up your phone for synchronisation with a web service, or imported SIM contacts, you can choose to do so the first time you open Contacts.

Managing contacts 1 2 3 To import contacts from the SIM card From the Home screen, tap . Press , then tap Import/export > Import from SIM card. Tap OK. If you have already imported the contacts from the SIM card you are using, there is no need to do it again.

1 2 3 To export contacts to the SIM card From the Home screen, tap . Press , then tap Import/export > Export to SIM card. Tap OK. When you copy contacts to your SIM card, the amount and the type of information you can transfer for each contact is limited. This is due to limited memory on SIM cards. 1 2 3 To select which contacts to display From the Home screen, tap . Press , then tap Group to display. Select the contacts to display. My contacts includes your personal contacts. If you have synchronised your contacts with another service, All contacts will include all the people and services you have contacted.

1 2 3 4 5 6 7 8 To add a contact From the Home screen, tap . Tap . Tap Name, enter the name and tap Next. Enter the phone number and tap Done. To add an additional information field, such as an email address or another phone number, tap Add more and select the desired address type.

and select a picture or take a photo. To add a contact picture, tap To select a contact ringtone, scroll down, tap Add more > Ringtone, select a ringtone and tap Done. When you are finished, scroll up and tap Save. The phone number type is selected automatically when you enter the number. You can tap the number type field to change it, for example, from Mobile to Home.

If you add a plus sign and the country code before a contact phone number, you can use the number for making calls from other countries. 31 This is an Internet version of this publication. © Print only for private use. 1 2 3 4 5 To search for a contact From the Home screen, tap . Tap Search. Enter the first letters of the contact name you are searching for. The hits appear in a list. If you get more than one hit, tap the down arrow to see the full list of hits. Scroll to and tap the desired contact.
