### Manual abstract:

© Print only for private use. To remove the SIM card · Open the cover and press the edge of the SIM card to release and remove it. Turning on the phone To turn on the phone 1 2 3 4 On the back of the phone, press and hold down . Enter your SIM card PIN (Personal Identification Number), if requested, and select OK. Select a language. Follow the instructions that appear. If you want to correct a mistake when you enter your PIN, press . SIM card The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card. You can save contacts on the SIM card before you remove it from your phone.

PIN You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by your network operator. @@@@ This view is called standby. @@ Contact your operator for more information. 5 This is an Internet version of this publication.

© Print only for private use. Help In addition to this User guide, Feature guides and more information are available at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). There are also help functions and a User guide in your phone.

See the following instructions on how to access them. . . . To access the User guide in your phone Select Menu > Settings > User help > User guide. To view tips and tricks Select Menu > Settings > User help > Tips and tricks. To view information about functions Scroll to a function and select Info, if available. In some cases, Info appears under Options. To view the phone status Press a volume key. Phone, memory and battery information is shown. · Supported services and features Some of the services and features described in this User guide are not supported by all networks and/or service providers in all areas. Without limitation, this applies to the GSM International Emergency Number 112. Please contact your network operator or service provider to determine availability of any specific service or feature and whether additional access or usage fees apply.

Charging the battery The phone battery is partly charged when you buy it. The phone battery cannot be removed. To charge the battery 1 2 Connect the charger to the phone. Remove the charger by tilting the plug upwards. Maximising battery performance . . . Charge your phone often. The battery lasts longer if you charge it frequently. If you are in an area with no coverage, your phone repeatedly scans for available networks. This consumes power. If you cannot move to an area with better coverage, turn off your phone temporarily. Turn off 3G and Bluetooth™ wireless technology when you do not need these functions.

6 This is an Internet version of this publication. © Print only for private use. · Do not cover the phone antenna when you are engaged in a call. Go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to learn more about how to maximise the battery performance. 7 This is an Internet version of this publication. © Print only for private use.

Screen icons These icons may appear on the screen: Icon Description The battery is almost fully charged The battery needs charging The network coverage is good No network coverage (also shown in flight mode) A 3G network is available A UMTS HSPA network is available Missed calls Calls diverted Ongoing call The microphone is muted The loudspeaker is on The phone is in silent mode New text message New multimedia message New email The music player is playing The radio is playing A handsfree is connected The Bluetooth function is activated A Bluetooth headset is connected The phone is connected to the Interneta memory, in the phone memory and on the SIM card. Pictures, videos and music are saved in the Media memory.

If the Media memory is full, pictures videos and music are saved in the phone memory. Messages and contacts are saved in the phone memory, but you can choose to save them on the SIM card. Phone language You can select a language to use in your phone. 1 2 To change the phone language Select Menu > Settings > General > Language > Phone language. Select an option. Entering text to enter text. The Quick text input You can use multitap text input or Quick text input method uses a dictionary application in your phone. 11 This is an Internet version of this publication. © Print only for private use. · To change the writing language When you enter text, press and hold down To change the text input method When you enter text, press and hold down .

. . . To shift between upper- and lower-case letters or numbers When you enter text, press . To enter numbers When you enter text, press To enter a number, press 1 2 repeatedly until . appears at the top of the screen. . To enter a number from text input mode, you can press and hold down 1 2 To enter punctuation marks and symbols briefly. When you enter text, press Scroll to a symbol and select Insert. To select from the most commonly used punctuation marks, you can also press . 1 2 3 4 5 To enter text using Quick text input Select, for example, Menu > Messaging > Write new > Message. is not displayed, press and hold down to change to Quick text input.

If Press each key only once, even if the letter you want is not the first letter on the key. For example, to write the word "Jane", press , , , . Write the whole word before looking at the suggestions. To view word suggestions, press or press the navigation key downwards. Press to accept a suggestion and add a space.

To enter text using the multitap method Select, for example, Menu > Messaging > Write new > Message. is displayed, press and hold down to change to multitap text input. If Press repeatedly until the desired letter appears. Press to add a space. To add words to the phone dictionary When you enter text using Quick text input, select Options > Spell word.

Write the word using multitap input and select Save. 1 2 3 4 1 2 12 This is an Internet version of this publication. © Print only for private use. Calling You need to turn on your phone and be within range of a network. Making and answering calls 1 2 To make a call Enter a phone number (with international country code and area code, if applicable). Press the Call key. You can call numbers from Contacts and your call list. · 1 2 3 · To end a call Press the End key. To make international calls Press and hold down until a "+" sign appears. Enter the country code, area code (without the first zero) and phone number.

Press the Call key. To re-dial a number When Retry? appears, select Yes. Do not hold your phone to your ear when waiting for the call to connect. When the call connects, your phone gives a loud signal. . . . 1 2 To answer a call Press the Call key.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA user guide](http://yourpdfguides.com/dref/4296656)  
<http://yourpdfguides.com/dref/4296656>

To reject a call Press the End key. To change the ear speaker volume during a call Press the volume keys up or down. To mute the microphone during a call . appears. Press and hold down Press and hold down again to resume.

To turn on the loudspeaker during a call Select Spkr on. appears. Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing. · · To view missed calls from standby appears.

Press the Call key to open the call list. Emergency calls Your phone supports international emergency numbers, for example, 112 or 911. You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network. In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.

· To make an emergency call Enter 112 (the international emergency number) and press the Call key. 13 This is an Internet version of this publication. © Print only for private use. 1 2 To view your local emergency numbers Select Menu > Contacts. Scroll to New contact and select Options > Special numbers > Emerg. numbers. Networks Your phone switches automatically between GSM and (UMTS) or networks depending on availability. Some network operators allow you to switch networks manually. 1 2 To switch networks manually Select Menu > Settings > Connectivity > Mobile networks > GSM/3G networks. Select an option.

Call list You can view information about answered , dialled and missed or rejected calls. To call a number from the call list Press the Call key and scroll to a tab. Scroll to a name or a number and press the Call key. 1 2 Contacts You can save names, phone numbers and personal information in Contacts.

Information can be saved in the phone memory or on the SIM card. You can synchronise your contacts using the Sony Ericsson PC Suite. Default contacts You can choose which contact information is shown by default. If Phone contacts is selected as the default, only contact information saved to the phone memory is listed in Contacts. If you select SIM contacts as the default, only names and numbers saved on the SIM card are shown in Contacts. 1 2 3 To select default contacts Select Menu > Contacts.

Scroll to New contact and select Options > Advanced > Default contacts. Select an option. Phone contacts Phone contacts can contain names, phone numbers and personal information. They are saved in the phone memory. 1 2 3 4 5 6 7 8 To add a phone contact Select Menu > Contacts.

Scroll to New contact and select Add. Enter the name and select OK. Scroll to New number: and select Add. Enter the number and select OK. Select a number option.

Scroll between the tabs and add information to the fields. Select Save. Calling contacts 1 2 To call a contact Select Menu > Contacts. Scroll to a contact and press the Call key. 14 This is an Internet version of this publication. © Print only for private use. · To go directly to the contacts list Press and hold down . To call with Smart search Press to enter a sequence of (at least two) digits. All entries which match the sequence of digits or corresponding letters are shown in a list. Scroll to a contact or a phone number and press the Call key.

To turn on or off Smart search Select Menu > Settings > Calls > Smart search. Select an option. 1 2 1 2 Editing contacts 1 2 3 4 5 To add information to a phone contact Select Menu > Contacts. Scroll to a contact and select Options > Edit contact. Scroll between the tabs and select Add or Edit. Select an option and an item to add or edit. Select Save. If your subscription supports Calling Line Identification (CLI) services, you can assign personal ringtones and pictures to contacts. 1 2 3 1 2 3 To copy names and numbers to phone contacts Select Menu > Contacts. Scroll to New contact and select Options > Advanced > Copy from SIM.

Select an option. To copy names and numbers to the SIM card Select Menu > Contacts. Scroll to New contact and select Options > Advanced > Copy to SIM. Select an option. When you copy all contacts from your phone to the SIM card, all existing SIM card information is replaced.

1 2 3 1 2 To automatically save names and phone numbers on the SIM card Select Menu > Contacts. Scroll to New contact and select Options > Advanced > Auto save on SIM. Select an option. To save contacts in the Media memory Select Menu > Contacts. Scroll to New contact and select Options > Advanced > Save to memory.

SIM contacts SIM contacts can contain names and numbers only. They are saved on the SIM card. 1 2 3 4 5 6 To add a SIM contact Select Menu > Contacts. Scroll to New contact and select Add. Enter the name and select OK. Enter the number and select OK. Select a number option and add more information, if available. Select Save. 15 This is an Internet version of this publication. © Print only for private use.

Deleting contacts 1 2 3 To deactivate and say "Answer", or say any other word. Select Yes to accept or No to make a new recording. Wait for the tone and say "Busy", or say any other word. Select Yes to accept or No to make a new recording. Follow the instructions that appear and select Continue. Select the environments in which you want to activate voice answering. To answer a call using voice commands Say "Answer." 1 2 3 4 5 6 7 · 17 This is an Internet version of this publication. © Print only for private use. 1 2 3 To re-record a voice command Select Menu > Settings > General > Voice control > Voice dialling > Edit names.

Scroll to a command and select Options > Replace voice. Wait for the tone and say the command. Diverting calls You can divert calls, for example, to an answering service. When Restrict calls is used, some divert call options are not available. 1 2 3 4 To divert calls Select Menu > Settings > Calls > Divert calls.

Select a call type and a divert option. Select Activate. appears. Enter the number to divert calls to and select OK. Call waiting You will hear a beep if you receive a second call while call waiting is active.

· To activate call waiting Select Menu > Settings > Calls > Manage calls > Call waiting > Activate. More than one call You can handle more than one call at a time. For example, you can put an ongoing call on hold while you make or answer a second call. You can also switch between the two calls. You cannot answer a third call without ending one of the first two calls. · · · 1 2 3 · · · To switch between two calls During the call, press the Call key. To join two calls During the call, select Options > Join calls. To end an ongoing call and return to the call on hold Press the End call key, then the Call key. To make a second call During the call, press the Call key.

Enter the phone name and select OK. Using Bluetooth™ wireless technology Use Bluetooth™ technology to wirelessly connect to other devices, free of charge. You can, for example: . . . . Connect to handsfree devices. Connect to several devices at the same time. Connect to computers and access the Internet. Exchange MP3 files, virtual business cards, photos, and more. Play multiplayer games. A range of less than 10 metres (33 feet), with no solid objects in between, is recommended for Bluetooth communication. Before using Bluetooth wireless technology You must turn on the Bluetooth function to communicate with other devices. You may also have to pair your phone with other Bluetooth devices.

To turn on the Bluetooth function Select Menu > Settings > Connectivity > Bluetooth > Turn on. Make sure that the device you want to pair your phone with has the Bluetooth function activated and Bluetooth visibility turned on. 1 2 3 To pair the phone with another device Select Menu > Settings > Connectivity > Bluetooth > Add new device. Select a device. Enter a passcode, if required. 32 This is an Internet version of this publication. © Print only for private use. 1 2 3 4 To allow connections to the phone Select Menu > Settings > Connectivity > Bluetooth. Select a device from the list. Select Options > Allow conn.

Select Always ask or Always allow. This is only possible with devices that require access to a secure service. Power saving You can save battery power with the Power save function. In Power save mode you can only connect to a single Bluetooth device. If you want to connect to more than one Bluetooth device at the same time, you must turn off this function. To turn on Power save Select Menu > Settings > Connectivity > Bluetooth > Options > Power save > On. @@@@Select an option. In phone transfers sound to the phone. @@@@You can move content between the Media memory and the phone memory. @@@@© Print only for private use. 1 2 3 Computer: Start the Sony Ericsson PC Suite from Start/Programs/Sony Ericsson/ Sony Ericsson PC Suite. @@Go to the backup and restore section in the Sony Ericsson PC Suite and restore your phone content. 34 This is an Internet version of this publication. © Print only for private use.

Updating your phone You can update your phone with the most recent software for optimal performance and to get the latest enhancements. This is done with the Update Service application. You have two options to update your phone with the Update Service application: . . Using a computer Wireless update Remember to back up your phone content before updating with a computer. See Backing up and restoring on page 33. Updating your phone using a computer You can update your phone with the latest software by connecting it to a computer on which the Update Service application is installed. You need a USB cable and an Internetconnected PC. To learn how, go to [www.sonyericsson.com/update](http://www.sonyericsson.com/update). Updating your phone wirelessly You can update your phone over the air using the Update Service application in the phone. You do not lose personal or phone information. Update Service requires data access such as GPRS, 3G or HSDPA. To select settings for Update Service Select Menu > Settings > General > Update software > Settings > Internet settings. To use Update Service Select Menu > Settings > General > Update software. Select Search for update and follow the instructions that appear.

<http://yourpdfguides.com/dref/4296656>

In the File transfer manager 37 This is an Internet version of this publication. © Print only for private use. you can also install downloaded Java applications, and pause, resume or cancel downloads. 1 2 3 To access a file using File transfer Select Menu > Organiser > File transfer. Scroll to the file. Press the centre selection key to access the file, or select Options for other actions. 38 This is an Internet version of this publication. © Print only for private use. Synchronising You can synchronise your phone in two different ways: using a computer program, or using an Internet service. Use only one of the synchronisation methods at a time with your phone.

For more information, go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to read the Synchronisation Feature guide. Synchronising using a computer You can use a USB cable or Bluetooth wireless technology to synchronise phone contacts, appointments, bookmarks, tasks and notes using an online service or a computer program such as Microsoft® Outlook®. Before synchronising, you need to install the Sony Ericsson PC Suite. Sony Ericsson PC Suite software is available for download through PC Companion or from [www.sonyericsson.com/support](http://www.sonyericsson.com/support). Mac® compatible software is also available for download at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

1 2 3 To synchronise using the Sony Ericsson PC Suite Computer: Start Sony Ericsson PC Suite from Start/Programs/Sony Ericsson/ Sony Ericsson PC Suite. Follow the instructions in the Sony Ericsson PC Suite for how to connect. When you are notified that the Sony Ericsson PC Suite has found your phone, you can start synchronising. For usage details, see the Sony Ericsson PC Suite Help section once the software has been installed on your computer.

Synchronising using an Internet service You can synchronise with an Internet service using SyncML™ or a Microsoft® Exchange Server using Microsoft Exchange ActiveSync. For more information, go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to read the Synchronisation Feature guide. 39 This is an Internet version of this publication.

Scroll to a theme and select Set. Main menu layout You can change the layout of the icons in the main menu. 1 2 To change the main menu layout Select Menu > Options > Layout. Select an option. Ringtones 1 2 1 2 3 · To set a ringtone Select Menu > Settings > Sounds & alerts > Ringtone.

Find and select a ringtone. To set the ringtone volume Select Menu > Settings > Sounds & alerts > Ring volume. Press the navigation key left or right to adjust the volume. Select Save. To turn off the ringtone .

Press and hold down The alarm signal is not affected. appears. 1 2 To set the vibrating alert Select Menu > Settings > Sounds & alerts > Vibrating alert. Select an option. Games Your phone contains preloaded games. You can also download games. For more information, go to [www.sonyericsson.com/fun](http://www.sonyericsson.com/fun). Help texts are available for most games.

1 2 To start a game Select Menu > Entertainment > Games. Select a game. 43 This is an Internet version of this publication. © Print only for private use. · To end a game Press the End key. Applications You can download and run Java applications. You can also view information or set different permissions. If you cannot use Java applications, see I cannot use Internet-based services on page 48. 1 2 1 2 3 To select a Java application Select Menu > Organiser > Applications. Select an application.

To set permissions for a Java application Select Menu > Organiser > Applications. Scroll to an application and select Options > Permissions. Set permissions. Java application screen size Some Java applications are designed for a specific screen size. For more information, contact the application vendor.

1 2 3 1 2 3 To set the screen size for a Java application Select Menu > Organiser > Applications. Scroll to an application and select Options > Screen size. Select an option. To set a Java™ application as a wallpaper Select Menu > Settings > Display. Select Wallpaper > Application.

Select a Java application. You can only see the Java applications that have support for wallpaper. Antivirus Antivirus identifies and removes applications you install on your phone that become infected by viruses. It automatically scans applications during installation. When an infected application is detected, you can delete or release the infected application. You can select a 30-day free evaluation or enter a subscription number. We recommend that you update the antivirus application with the latest virus protection frequently. You need the correct Internet settings in your phone to use this function. Our inclusion or your use of antivirus software does not ensure that your use of this product will be free from exposure to viruses, malware or other harmful software. 1 2 1 2 To turn on Antivirus scanning Select Menu > Settings > General > Security > Antivirus.

Follow the instructions to use the setup wizard. To turn off Antivirus scanning Select Menu > Settings > General > Security > Antivirus > Virus scan. Select Off. 44 This is an Internet version of this publication. © Print only for private use. PIN codes SIM protection This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN (Personal Identity Number). If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator.

1 2 3 1 2 3 4 To unblock the SIM card When PIN blocked appears, enter your PUK and select OK. Enter a new four-to-eight-digit PIN and select OK. Re-enter the new PIN and select OK. To edit the PIN Select Menu > Settings > General > PIN codes > SIM protection > Change PIN. Enter your PIN and select OK.

Enter a new four-to-eight-digit PIN and select OK. Re-enter the new PIN and select OK. If Codes do not match appears, you entered the new PIN incorrectly. If Incorrect PIN appears, you entered the old PIN incorrectly. 1 2 3 To use the SIM card lock Select Menu > Settings > General > PIN codes > SIM protection > Protection.

Select an option. Enter your PIN and select OK. Phone protection You can stop unauthorised use of your phone. Change the default phone lock code (0000) to any four-to-eight-digit personal code. It is important that you remember your new code. If you forget it, you need to take your phone to your local Sony Ericsson retailer. 1 2 3 To use the phone lock Select Menu > Settings > General > PIN codes > Phone protection > Protection. Select an option. Enter the phone lock code and select OK. When Automatic phone protection is activated the phone protection code must be entered when another SIM card is inserted.

· 1 2 3 4 To unlock the phone When Phone locked appears, enter your phone lock code and select OK. To change the phone lock code Select Menu > Settings > General > PIN codes > Phone protection > Change code. Enter the old code and select OK. Enter the new code and select OK. Repeat the code and select OK. IMEI number Keep a copy of your IMEI (International Mobile Equipment Identity) number in case your phone is stolen. 45 This is an Internet version of this publication. © Print only for private use. · To view your IMEI number Press , , , . 46 This is an Internet version of this publication.

© Print only for private use. Troubleshooting Some problems can be fixed using Update Service. Using Update Service on a regular basis will optimise the phone's performance. See Updating your phone using a computer on page 35. Some problems will require you to call your network operator.

For more support go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support). Common questions Where can I find the regulatory information such as my IMEI number if I cannot turn on my phone? I have problems with memory capacity or the phone is working slowly Restart your phone every day to free memory or do a Master reset.

Master reset If you select Reset settings, the changes that you have made to settings will be deleted.

If you select Reset all, your settings and content, such as contacts, messages, pictures, sounds and downloaded games, will be deleted.

[You're reading an excerpt. Click here to read official SONY ERICSSON XPERIA user guide](http://yourpdfguides.com/dref/4296656)  
<http://yourpdfguides.com/dref/4296656>

You may also lose content that was in the phone at purchase. 1 2 3 To reset the phone Select Menu > Settings > General > Master reset. Select an option. Follow the instructions that appear. What do I do if the phone freezes or hangs? Press and hold down the volume down key and the power key simultaneously for 10 seconds. 47 This is an Internet version of this publication. © Print only for private use. No battery icon appears when I start charging the phone It may take a few minutes before the battery icon appears on the screen. Some menu options appear in grey A service is not activated.

Contact your network operator. I cannot use Internet-based services Your subscription does not include data capability. Settings are missing or incorrect. You can download settings using the Settings downl. or from [www.sonyericsson.com/support](http://www.sonyericsson.com/support). 1 2 To download settings Select Menu > Settings > User help > Settings downl.. Follow the instructions that appear.

This feature might not be available in all markets. Contact your network operator or service provider for more information. I cannot send messages from my phone To send messages, you need to set a service centre number. The number is supplied by your service provider and is usually saved on the SIM card. If the number of your service centre is not saved on your SIM card, you must enter the number yourself.

To send most picture messages, you must set an MMS (Multimedia Messaging Service) profile and the address of your message server. If no MMS profile or message server exists, you can receive all the settings automatically from your network operator, using the Settings download, or go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support). 1 2 3 4 5 1 2 1 2 3 4 To enter a service centre number Select Menu > Settings > Connectivity > Message settings > Text message and scroll to Service centre.

The number is shown if it is saved on the SIM card. If there is no number shown, select Edit. Scroll to New serv. centre and select Add. Enter the number, including the international "+" sign and country code. Select Save. To select an MMS profile Select Menu > Settings > Connectivity > Message settings > Multimedia msg. Select an existing profile or create a new one. To set the message server address Select Menu > Settings > Connectivity > Message settings > Multimedia msg. Scroll to a profile and select Options > Edit.

Scroll to Message server and select Edit. Enter the address and select OK > Save. The phone does not ring or rings too softly Make sure that Silent mode has not been set to On. See To turn off the ringtone on page 43. Check the ringtone volume. See To set the ringtone volume on page 43. Check the profile. See To select a profile on page 42. Check the divert call options. See To divert calls on page 18.

The phone cannot be detected by other devices using Bluetooth wireless technology You have not turned the Bluetooth function on. Make sure that the visibility is set to Show phone. See To turn on the Bluetooth function on page 32. 48 This is an Internet version of this publication. © Print only for private use.

I cannot synchronise or transfer content between my phone and the computer, when using a USB cable. The software or the USB drivers have not been properly installed. Go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to read Feature guides which contain detailed installation instructions and troubleshooting sections. Error messages Insert SIM There is no SIM card in your phone or you may have inserted it incorrectly. See To insert the SIM card on page 4. The SIM card connectors need cleaning. If the card is damaged, contact your network operator. Insert correct SIM card Your phone is set to work only with certain SIM cards. Check if you are using the correct operator SIM card. Incorrect PIN/Incorrect PIN2 You have entered your PIN or PIN2 incorrectly. Enter the correct PIN or PIN2 and select OK. PIN blocked/PIN2 blocked You have entered your PIN or PIN2 code incorrectly three times in a row. To unblock, see SIM protection on page 45.

Codes do not match Codes that you have entered do not match. When you want to change a security code, for example your PIN, you have to confirm the new code. See SIM protection on page 45. No network . . . Your phone is in flight mode. See Flight mode on page 40. Your phone is not receiving any network signal, or the received signal is too weak. Contact your network operator and make sure that the network has coverage where you are. The SIM card is not working properly. Insert your SIM card in another phone. If this works, it is probably your phone that is causing the problem.

Please contact the nearest Sony Ericsson service location. Emerg. calls only You are within range of a network, but you are not allowed to use it. However, in an emergency, some network operators allow you to call the international emergency number 112. See Emergency calls on page 13.

PUK blocked. Contact operator. You have entered your personal unblocking key code (PUK) incorrectly 10 times in a row. 49 This is an Internet version of this publication. © Print only for private use.
