Manual abstract:

Hold down keys H and G until the red indicator lamp remains lit. To visualise the first code digit, press PROG+ and count the flash pulses of the red indicator lamp. The digit "0" does not generate any flash pulse. 4. For the second code digit, press key PROG- and count the flash pulses of the red indicator lamp. 5. 6. the indicator lamp extinguishes after the last flash. 3. On page II of the separate code list enclosed, find the codes matching the make of the TV set which you want to control.

4. Hold down keys H and G until the red indicator lamp remains lit. 5. While the indicator lamp is on, with the keys PROG+ (1st number), PROG- (2nd number), VOL+ (3rd number), and VOL- (4th number), enter the 4-digit code. The red indicator lamp flashes whenever a key is pressed.

6. To save the code, press key H. the red indicator lamp goes off. 7. Hence it is advisable to record the codes needed for your devices.

3. Hold down keys H and G until the red indicator lamp remains lit. 4. Between two subsequent key depressions, give the red indicator lamp enough time to extinguish and light up again (about 1 second). Proceeding this way will enable you to see whether the set responds or not. 5.

For this reason, we recommend that prior to attempting to programme the remote control, you try it out by means of one of the methods described in this user manual. Please keep this guide along with the code list (provided separately), so that you can subsequently programme your remote control for use with other sets.
