10. Charges apply for each message sent even if not received. 12 13 SMS Service Centre numbers The Telstra SMS Service Centre Send and Receive numbers are preset in your T1000C SMS phone. If you accidentally change the Send or Receive numbers you will need to re-enter them in order for your text messaging service to work. Telstra's Send SMS service number is 01983391. Telstra Receive SMS service Centre number is 01983391. The default terminal number is 0. Changing the terminal number To change the terminal number or sub-address for sending and receiving text messages: 1. Press Display will show "TERMINAL ID 0". 2.
Enter the new terminal number (1 to 9). 3. Press to store the new number. Two or more SMS phones on the same line If you have more than one SMS phone on the same line the phones may not operate properly when receiving text messages. To overcome this you should change the terminal number(s) so that only one phone has a terminal number of 0.
@@@@@@Press Display will show "TERMINAL ID 0". 2. Press Display will show "OUTGOING SMSC 01983391". 3. Enter the new number.
4. @@Press Display will show "TERMINAL ID 0". 2. Press Display will show "INCOMING SMSC 01983391". 3. Enter the new number. 4. Press to store the new number. Note: SMS Service Centre phone numbers cannot be blank. Sub-addressing of text messages Telstra's fixed text messaging service allows you to send text messages to a specific phone when there is more than one phone connected to a telephone line.

This may be useful when you want to direct a message to a specific household member for privacy reasons. Each phone can be given a different terminal number (from 1-9), text messages can be sent to an individual phone by simply adding an extra digit to the phone number corresponding to the terminal number of the particular phone. For example, if a text message is sent to a fixed line with an additional digit "1" added to the telephone number, only a phone set up with terminal number "1" on that line would receive the message. The default terminal number for your phone is "0" and your phone will automatically receive all text messages sent unless they have an additional sub-address digit added. 14 15 .
