Manual abstract:

Connect the plug on the AC/DC mains adapter cable to the DC IN socket at the back of the cradle then plug the adapter into a 230 V~50Hz mains wall outlet. Sit the headphones in the cradle, making sure the charging contacts on the headphone mate with the cradle contacts (headphones fully pushed towards the rear). Check that the Red charging light on the cradle comes on. If the volume is too low, the cradle switches off after 2 minutes of use.

@@@@@@@@@@@@@@@@ff the sound is poor, change to a different channel on the cradle and press the fine tuning button once more. Sit the headphones firmly in the cradle, pushing them back so the charging contacts on the headphone mate with the cradle contacts. Your WHP562 unit is a wireless Stereophonic Headphone set that uses 863 Mhz radio frequency transmissions to link the transmitter and headphones. @@.
