.....27-36 English 2 1 Important Safety and important notice - Warning: Risk of overheating! Never install the product in a confined space. Always leave a space of at least 10cm around the product for ventilation. Ensure curtains or other objects never cover the ventilation slots on the product. Never place the product, remote control or batteries near naked flames or other heat sources, including direct sunlight.

Only use this product indoors. Keep this product away from water, moisture and liquid-filled objects. Never place this product on other electrical equipment. Keep away from this product during lightning storms. Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable. **LASER CAUTION: USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE. CAUTION: VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCKS DEFEATED. DO NOT STARE INTO BEAM. LOCATION: INSIDE, NEAR THE DECK MECHANISM.** Following information is only valid for EU member States: Disposal of products The crossed out wheeled dust bin symbol indicates that products must be collected and disposed of separately from household waste.

Integrated batteries and accumulators can be disposed of with the product. They will be separated at the recycling centres. The black bar indicates that the product was placed on the market after August 13, 2005. By participating in separate collection of products and batteries, you will help to assure the proper disposal of products and batteries and thus help to prevent potential negative consequences for the environment and human health. For more detailed information about the collection and recycling programmes available in your country, please visit our website (<http://www.recycle-more.co.uk/>) or alternatively please contact your retailer where the product was purchased. Disposal of batteries and/or accumulators The crossed out wheeled dust bin symbol indicates that batteries and/or accumulators must be collected and disposed of separately from household waste. If the battery or accumulator contains more than the specified values of lead (Pb), mercury (Hg), and/or cadmium (Cd) defined in the Battery Directive (2006/66/EC), then the chemical symbols for lead (Pb), mercury (Hg) and/or cadmium (Cd) will appear below the crossed out wheeled dust bin symbol.

By participating in separate collection of batteries, you will help to assure the proper disposal of products and batteries and thus help to prevent potential negative consequences for the environment and human health. For more detailed information about the collection and recycling programmes available in your country, please visit our website (<http://www.recycle-more.co.uk/>) or alternatively please contact your retailer where the product was purchased. . . . .

**Pb,Hg,Cd EU Conformity Statement** This product is marked with "CE" and complies therefore with the applicable harmonized European standards listed under the Low Voltage Directive 2006/95/EC and the EMC Directive 2004/108/EC. ErP Directive 2009/125/ EC Responsible for CE-marking is TOSHIBA INFORMATION SYSTEMS (U.K.) LTD, Toshiba Court, Weybridge Business Park, Addlestone Road, Weybridge,Surrey,KT15 2UL, United Kingdom **General Information** This appliance may be fitted with a nonrewireable plug. If it is necessary to change the fuse in a non-rewireable plug the fuse cover must be refitted.

If the fuse cover is lost or damaged, the plug must not be used until a replacement available from the appliance manufacturer is obtained. If the plug has to be changed because it is not suitable for your socket, or becomes damaged, it should be cut off and an appropriate plug fitted following the wiring instructions below. The plug removed must be disposed of safely as it is hazardous if inserted into a live socket. **3 English Disposal of your old product and batteries** **IMPORTANT** The wires in this mains lead are coloured in accordance with the following code: **BLUE: NEUTRAL BROWN: LIVE** As the colours of the wires in the mains lead of this unit may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows: The wire that is coloured blue must be connected to the terminal in the plug which is marked with the letter N or coloured black. The wire that is coloured brown must be connected to the terminal which is marked with the letter L or coloured red. Do not connect either wire to the earth terminal which is marked by the letter E or by the safety earth symbol or coloured green or green-and-yellow. Use a 5A BS1362 fuse which is approved by ASTA or BSI. Always replace the fuse cover after changing the fuse. <http://yourpdfguides.com/dref/4298363>

- Press to return to the previous menu. [System] To change the following system option to personalize your Blu-ray Disc™ player. · [Screen Saver] Turn On or Off the screen saver mode. It helps to protect the TV screen. { On } Set the screen saver active after approximately 5 minutes with no operation. You can turn off the screen saver by pressing the SETUP button. - The Blu-ray Disc™ player will switch to standby mode if there is no operation OK Cancel 3. It may take awhile when loading default is in progress. Please wait..

. Load Default Loading default, please wait... 30% 4. TV will display as follow: Welcome to the Toshiba Blu-ray Disc Player Setting Wizard. Some simple settings are suggested before you begin. You can also access detailed settings from the Setup Menu. OK Next 14 5. Press OK, enter language setting. Press/ to select a language option. Choose an OSD language before starting. The language selected will be applied not only here but also in other OSD windows, menus etc. English Previous OK Next 6. Press OK, enter Resolution setting.

Choose a resolution that fits your TV. Change will be applied immediately, you have 15s to determine whether to save the setting or rollback to prior resolution. Better performance will be provided by an HDMI connection! Auto 480i/576i 480p/576p 720p 1080i 1080p Previous OK Next Press / to select an option. Press OK. Select "Yes" or "No" using /.

Resolution has been changed! 14s Yes No Does everything looks all right with this resolution? Press Yes if you want to apply it. Press No to rollback to previous one. Previous OK Next 7. Press OK, enter Aspect ratio setting. Choose an aspect ratio that fits your TV. The change will be applied in the next page. Determine whether to save the setting or rollback to the previous aspect ratio. 16:9 Full 16:9 Normal 4:3 Pan&Scan 4:3 Letterbox Previous OK Next Press / to select an option. Press OK. Setting wizard is complete! Now press the OK button to finish and return to the Setup Menu.

1. Insert the disc or connect the USB flash drive which contains the upgrade file package. 2. Follow the instruction on the TV screen to confirm upgrade operation. - The system will reboot after 5 seconds or OK key is pressed. Notes: - If set [Disc Auto Playback] to [Off], after you insert the disc that contains the upgraded information to upgrade system, you have to start upgrade from this option of SETUP Menu. - If the upgrade file package did not pass the verification, error prompt is displayed, check the package again (such as the package is not complete) - Make sure the firmware version is not an old version. - When you upgrade the system using USB flash drive, you should make a new folder named UPG\_ALL, and copy the upgrade file into this folder. SW upgrade by Internet introduction There are two modes to upgrade via internet : Automatic Mode and Interactive Mode. Automatic Mode: The player will check the internet whether it is connected automatically when powered on.

If connected, player will try to connect the Toshiba server to check if there is new firmware for the player. If yes, the player will pop up a message on the screen to inform you that an upgrading firmware is available on the internet. You can choose whether to upgrade or not. Upgrade New software found! Upgrade? Cancel Previous OK OK Start Finish 8. Press OK to return to [General Setting] Menu.

· [Upgrade] For software upgrades to enhance performance, you could select the following upgrade method and start to upgrade. {Disc}/[USB Storage]/[Internet] SW upgrade by Disc/USB Storage Upgrade the software from the disc or USB flash drive. Interactive Mode: You can also do Internet upgrade via setup menu. You should make sure that the player is connected to the internet first. Press SETUP button of the remote control, then choose "System -> Upgrade -> Network" and press OK button.

Then the player will connect the Toshiba server to check if there is new firmware for the player. 15 English Upgrade Connecting to the server. Please wait! 2. Follow the instruction on the TV screen to select {Information}. General Setting System Language Screen Save Information Disc Auto Playback CEC Free size is : 0MB English 16 Off On On On More... Erase If yes, the player will pop up a message on the screen and you can choose whether to upgrade or not. Upgrade New software found! Upgrade? Playback Security Network Disc Auto Upgrade Load Default Move cursor key to select menu option then use "OK " key to select RETURN Return Cancel OK Start If no, the player will pop up a message on the screen to inform you that there is no new firmware for the player. Upgrade Current version is latest.

Update is not available. Cancel Remark : If you choose to upgrade the new FW , 1.The player will begin to download the upgrade file and pop up a message to show the progress. Upgrade Downloading upgrade file.Please wait! Cancel 2. When download is finished, the player will pop up a message for you, and you can choose whether to proceed with the upgrading or not. If you choose to upgrade, the player will begin to upgrade, and pop up a message to show the progress. When upgrade is done, the player will restart. Attention! Do NOT cut off the power supply when the firmware is upgrading! Or the player might become unworkable. · [External Memory] External Memory would be used in BDLive™ function.

When you plug in the USB flash drive which has at least 1GB free space to play BD-Live™ function, the Blu-ray Disc™ system would make a directory named BUDA automatically. Information will display the Free size. 1. Press OK. 3. Press OK to select "Erase", the data in the BUDA folder will be cleared. · [Power Down Mode] Quick Start can reduce the time of Power On or Power Off significantly. But the power consumption is higher in Quick Start mode. Setting methods: Setup Menu -> General Setting -> System -> Power Down Mode -> Normal/Quick Start (Default as Normal). Choose Quick Start to go into Quick Start mode.

This mode will only be activated upon your next standby Off/On. Generally, in Normal mode, Power On or Power Off takes longer time and its standby power consumption is low. In Quick Start mode, Power On or Power Off takes shorter time and its standby power consumption is higher. Notes: - Please be noted that the responding time to the video output varies for different TV, therefore the responding time to power on the TV in Quick Start mode may vary. - The player will reset to Normal mode whenever the AC power recovers from a loss. [Language] Set up the OSD(On-Screen Display), Menu, Audio and Subtitle default language for the player. General Setting System Language Playback Security Network Move cursor key to select menu option then use "OK " key to select SETUP Exit OSD Menu Audio Subtitle English English English ·[OSD] Select the default on-screen display language. mpeg') 8 Troubleshooting English 23 If you experience any of the following difficulties while using this unit, check the list below before consulting your nearest TOSHIBA dealer. Problem No reaction to the remote control. Tip Connect the product to the power outlet. Point the remote control at the product.

Insert the battery correctly.

Insert new battery in the remote control. No video signal on the display device. Turn on the TV. Set the TV to the correct external input. Select the correct video resolution. Set TV System of TV correctly. Incorrect or no audio / video signal on the amplifier/display device via HDMI cable. No high-definition video signal on the TV. If the unit is connected to the unauthorized display device with an HDMI cable, the audio/video signal may not be output. Ensure the amplifier/display devices setting match the Blu-ray DiscTM player.

Does the disc contain high-definition video? High-definition video is not available when the disc does not contain it. Does the TV support high-definition video? High-definition video is not available when the TV does not support it. No audio signal from the loudspeakers of the audio system. Cannot play back a disc. Turn on the audio system. Set the audio system to the correct external input. Increase the volume level of the audio system. Make sure that the Blu-ray DiscTM player supports the disc. Make sure that the Blu-ray DiscTM player supports the region code of the DVD or Blu-ray DiscTM. For DVD+RW/+R or DVD-RW/-R, make sure that the disc is finalized.

Clean the disc. Cannot play back JPEG files from a disc. Cannot play MP3 files from a disc. Make sure that the disc was recorded in the JPEG/ISO format. Make sure that the disc was recorded in the ISO format.

Make sure that the bit rate of the MP3 files is between 8 and 320 kbps. Make sure that the sample rate of the MP3 files is 32kHz, 44.1kHz or 48kHz. Cannot find a JPEG file. Make sure that the selected group (folder) does not contain more than 9,999 files for DVD and 999 files for CD.

Make sure that the file extension is .jpg, .JPG, .jpeg or .JPEG. Make sure that the selected folder does not contain more than 9,999 files for DVD and 999 files for CD. Make sure that the file extension is .mp3 or .MP3. When you upgrade the system with USB flash drive, you should make a new folder named UPG\_ALL, and copy the upgrade file into this folder.

When you upgrade the system by network, please make sure the player is connected to the internet when upgrading the SW. English 24 Cannot find a MP3 file. Cannot upgrade SW. Sometimes the options of setup menu cannot be selected. When playing a DVD disc or Blu-ray DiscTM, press STOP button once, the player will go into stop resume mode, meanwhile you cannot change some settings in setup menu such as language subitem menu, audio, subtitle etc. If you want to change that, press STOP button twice, the player will go into full stop mode, then you can do it. 9 Glossary Aspect ratio Aspect ratio refers to the length to height ratio of TV screens. The ratio of a standard TV is 4:3, while the ratio of a high definition or wide TV is 16:9. The letterbox allows you to enjoy a picture with a wider perspective on a standard 4:3 screen. AVCHD/AVCHD is a new format for high definition video camcorders which can record and play high-resolution HD images.

AVI Audio Video Interleave, known by its acronym AVI, is a multimedia container format. AVI files can contain both audio and video data in a file container that allows synchronous audio-with-video playback. BD-JavaTM With some Blu-ray DiscTM which support JavaTM applications, you can enjoy the interactive functions such as games or interactive menus. BD-LiveTM BD-LiveTM is a BD-video (BD-ROM version 2 Profile 2.0/Profile 1.

1) which contains new functions (e.g. Internet connection), in addition to the BONUSVIEWTM function. Blu-ray DiscTM Blu-ray DiscTM is a next generation optical video disc capable of storing five times more data than a conventional DVD. The large capacity makes it possible to benefit from the features such as high-definition videos, multichannel surround sound, interactive menus and so on.

BONUSVIEWTM This is a Blu-ray DiscTM-Video (Final Standard Profile or Profile 1.1) that supports interactive content encoded on the disc, such as picture-in-picture. This means you can play the primary video and secondary video simultaneously. Chapter Just as a book is split up into several chapters, a title on a Blu-ray DiscTM-video or DVD-video is usually divided into chapters. Digital Audio Digital Audio is a sound signal that has been converted into numerical values. Digital sound can be transmitted through multiple channels. Analogue sound can only be transmitted through two channels. @@It offers you sound of stereo (2ch) or multichannel audio. @@Blu-ray DiscTM supports 7.1 multi-channel surround sound output.

@@Blu-ray DiscTM supports 7.

<http://yourpdfguides.com/dref/4298363>

1 multi-channel surround sound output. DTS® DTS is a multi-channel surround sound system. DTS surround sound technologies were developed by DTS, Inc. Blu-ray Disc™ supports 7.1 multi-channel surround sound output. Audio doesn't get any better than this. HDCP High-bandwidth Digital Content Protection. It delivers high quality picture and sound quality. HDMI is fully backward compatible with DVI. JPEG A very common digital still picture format. Indicates the boundaries of a particular network. MP3 A file format with a sound data compression system. PBC Playback Control. A digital audio encoding system. This unit only plays discs that have compatible region codes. You can find the region code of your unit on the product label. Some discs are compatible with more than one region (or ALL regions). The numbers of sampling in one second defines as sampling frequency. The higher the rate, the better the sound quality.

Title A collection of chapters on Blu-ray Disc™ video or DVD-video. Track Audio CD use tracks to divide up the content of a disc. The Blu-ray Disc™ video or DVD video equivalent is called a chapter. Each software component is copyrighted by a third party. The same applies even when the copyright holders or relevant third parties have been informed of the possibility of such loss. "Loss" here includes normal, special, incidental and indirect loss (including, but not limited to, the loss of data or its accuracy; loss incurred by the user or any third party; and interface incompatibility with other software). Please read each EULA for details on the use conditions and items that must be observed regarding these software components. The table below lists the software components pre-installed in this product, which are subject to EULAs. The user should read the applicable EULAs carefully before using these software components. The EULAs are exhibited in their original text (English) as exactly written by the respective parties.

Preamble The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it.

(Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. Whether that is true depends on what the Program does. 1. 2. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code.

[You're reading an excerpt. Click here to read official TOSHIBA BDX 1300 user guide](http://yourpdfguides.com/dref/4298363)  
<http://yourpdfguides.com/dref/4298363>

*(This alternative is allowed only for non-commercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.*

*) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License.*

*Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it. 6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.*

*You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices.*

*Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/ donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.*

*This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License. 8.*

*If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 29 English b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 9.*

*The Free Software Foundation may publish revised and/ or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.*

*10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM,*

*TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 12.*

*IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.*
