.....31-49 English 2 1 Important Safety and important notice · Warning: Risk of overheating! Never install the product in a confined space.

Always leave a space of at least 10cm around the product for ventilation. Ensure curtains or other objects never cover the ventilation slots on the product. Never place the product, remote control or batteries near naked flames or other heat sources, including direct sunlight. Only use this product indoors. Keep this product away from water, moisture and liquid-filled objects. Never place this product on other electrical equipment. Keep away from this product during lightning storms. Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable. **LASER**

**CAUTION: USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE. CAUTION: VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCKS DEFEATED.**

**DO NOT STARE INTO BEAM. LOCATION: INSIDE, NEAR THE DECK MECHANISM.** . . . . Pb,Hg,Cd EU Conformity Statement This product is marked with "CE" and complies therefore with the applicable harmonized European standards listed under the Low Voltage Directive 2006/95/EC and the EMC Directive 2004/108/EC. ErP Directive 2009/125/EC, R&TTE 1999/5/EC Responsible for CE-marking is TOSHIBA INFORMATION SYSTEMS (U.K. ) LTD, Toshiba Court, Weybridge Business Park, Addlestone Road, Weybridge,Surrey,KT15 2UL, United Kingdom Following information is only valid for EU member States: Disposal of products The crossed out wheeled dust bin symbol indicates that products must be collected and disposed of separately from household waste. Integrated batteries and accumulators can be disposed of with the product. They will be separated at the recycling centres. The black bar indicates that the product was placed on the market after August 13, 2005. By participating in separate collection of products and batteries, you will help to assure the proper disposal of products and batteries and thus help to prevent potential negative consequences for the environment and human health.

For more detailed information about the collection and recycling programmes available in your country, please visit our website (<http://www.recycle-more.co.uk/>) or alternatively please contact your retailer where the product was purchased. Disposal of batteries and/or accumulators The crossed out wheeled dust bin symbol indicates that batteries and/or accumulators must be collected and disposed of separately from household waste. If the battery or accumulator contains more than the specified values of lead (Pb), mercury (Hg), and/or cadmium (Cd) defined in the Battery Directive (2006/66/EC), then the chemical symbols for lead (Pb), mercury (Hg) and/or cadmium (Cd) will appear below the crossed out wheeled dust bin symbol. By participating in separate collection of batteries, you will help to assure the proper disposal of products and batteries and thus help to prevent potential negative consequences for the environment and human health. For more detailed information about the collection and recycling programmes available in your country, please visit our website (<http://www.recycle-more.co>.

uk/ ) or alternatively please contact your retailer where the product was purchased. General Information This appliance may be fitted with a nonrewireable plug. If it is necessary to change the fuse in a non-rewireable plug the fuse cover must be refitted. If the fuse cover is lost or damaged, the plug must not be used until a replacement available from the appliance manufacturer is obtained. If the plug has to be changed because it is not suitable for your socket, or becomes damaged, it should be cut off and an appropriate plug fitted following the wiring instructions below. The plug removed must be disposed of safely as it is hazardous if inserted into a live socket. 3 English Disposal of your old product and batteries **IMPORTANT** The wires in this mains lead are coloured in accordance with the following code: **BLUE: NEUTRAL BROWN: LIVE** As the colours of the wires in the mains lead of this unit may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows: The wire that is coloured blue must be connected to the terminal in the plug which is marked with the letter N or coloured black. The wire that is coloured brown must be connected to the terminal which is marked with the letter L or coloured red. Do not connect either wire to the earth terminal which is marked by the letter E or by the safety earth symbol or coloured green or green-and-yellow. Use a 5A BS1362 fuse which is approved by ASTA or BSI.

Always replace the fuse cover after changing the fuse. Copyright notice This product incorporates copyright protection technology that is protected by U.S. patents and other intellectual property rights. Use of this copyright protection technology must be authorized by Rovi Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Rovi Corporation.

Reverse engineering or disassembly is prohibited. Disclaimers I. **HEALTH/SAFETY-RELATED IMPORTANT SAFETY INFORMATION CONCERNING 3D VIEWING** · If you or any viewer experiences the following symptoms or any other discomfort from viewing 3D video images, stop viewing and contact your health care provider: Convulsions Eye or muscle twitching Loss of awareness Altered vision Involuntary movements Disorientation Eye Strain Nausea/Vomiting Dizziness Headaches Fatigue · Some viewers may experience a seizure or blackout when exposed to certain flashing images or lights contained in certain 3D television pictures or video games. Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition, or has a family history of epilepsy, should contact a health care provider before using the 3D function. · If you feel eye fatigue or other discomfort from viewing 3D video images, stop viewing and take a rest until the condition is eliminated.

· Due to the possible impact on vision development, viewers of 3D video images should be age 6 or above. Children and teenagers may be more susceptible to health issues associated with viewing in 3D and should be closely supervised to avoid prolonged viewing without rest. · Avoid use of the 3D function when under the influence of alcohol. · Watching the screen while sitting too close for an extended period of time may cause eye strain.

<http://yourpdfguides.com/dref/5446595>

Consult your display manual to determine the ideal viewing distance. · Viewing in 3D may cause dizziness and/ or disorientation for some viewers. Therefore, to avoid injury do not place your player or display near open stairwells, balconies, or wires, and do not sit near objects that could be broken if accidentally hit. · CAREFULLY READ INSTRUCTIONS PROVIDED WITH YOUR DISPLAY AND/OR 3D GLASSES BEFORE 3D VIEWING. II.PERFORMANCE RELATED · This product is designed to playback Blu-ray™ discs that comply with the 3D specifications of Blu-ray Disc Association.

It is not compatible with other 3D specifications. English 4 · 3D capable display, 3D eyewear and High Speed HDMI cable (all sold separately) required for playback and viewing 3D content. · If you route your signal through an AV receiver or other video distribution device they must be 3D capable to support 3D viewing. Viewing HD content and upconverting DVD content may require an HDCP capable input on your display device. · While up-converting DVD video content may result in a picture that appears to be near HD quality, results may vary depending on content, display and settings. · 1080p capable display required for viewing content in 1080p. · 1080p/24 fps encoded content and an HD display capable of accepting a 1080p/24Hz signal required for viewing 1080p/24 fps content. · Performance of interactive and/or network features may vary due to disc design or content, and may also require an always-on broadband internet connection. Firmware update may be required for some interactive and/or network features. Some features may require additional bandwidth.

· BD-Live™ may require a USB flash drive with available storage capacity of at least 1GB (sold separately). · For Dolby® TrueHD and DTS-HD Master Audio \ Essential™ playback, content encoded in Dolby® TrueHD and DTS-HD Master Audio \ Essential™ format required. Supported file types: JPEG, MP3 and AVCHD. Some recordable media, cards or files may not be supported. Deep Color feature as specified in HDMI specification requires compatible Deep Color capable HD display and/or device.

Use of HDMI-CEC requires an HDMI-CEC compatible display device. Depending on the specifications of your display device, some or all HDMI-CEC functions may not work even if your display device is HDMI-CEC compatible. · Products do not play HD DVD discs. · Some features subject to delayed availability. · Because the Blu-ray™ format and 3D specifications use new technologies, certain disc, content, connection and other compatibility and/or performance issues are possible.

If you experience suclayback/Pause. Stop play. Open or close the disc compartment. Show information about the current status of this unit. Point the remote control at the IR sensor. Load a disc into the disc drive. (b\*/c/\*d/\*e\*) Notes: 1. These indicators are located in the sensor field. 2. The indicators will go off briefly after power on (except Power icon).

To turn on the indicators again, simply touch the sensor field, the indicators will be evolved and light up. 3. The sensor field is within the rectangular area. 1 2 3 4 NO a b c Control AC power cord COAXIAL jack HDMI OUTPUT jack LAN jack Function Connect to a standard AC outlet. Output digital audio signals when connecting the coaxial cable. 1.1n wireless module, which also supports the 802.11 a/b/g/n standards. For the best wireless performance, we recommend using an IEEE 802.11n certified Wi-Fi® network (access point or wireless router). Notes: You must use a wireless IP sharer that supports IEEE 802.

1.1a/b/g/n. (n is recommended for stable operation of the wireless network.) Wireless LAN, in its nature, may cause interference, depending on the use condition (AP performance, distance, obstacle, interference by other radio devices, etc.). Set the wireless IP sharer to Infrastructure mode.

Ad-hoc mode is not supported. When applying the security key for the AP (wireless IP sharer), only the following is supported. 1. Authentication Mode: WPAPSK, WPA2PSK 2. Encryption Type: WEP, TKIP, AES Connect USB device A USB flash drive provides an additional memory to software upgrade and enjoy BD-Live™ bonus content.

You can also enjoy playing back MP3/JPEG/ MPEG4 files stored in the USB flash drive. 1. Open the USB cover. 2. Connect the USB flash drive to the USB jack on this product. Notes: - To enjoy BD-Live™ bonus content, as your local storage, use a 1 GB or larger USB flash drive. -For some Blu-ray™ discs with BD-Live™ feature, you may need to plug in the USB flash drive before loading the disc. Otherwise, the disc may not playback. - TOSHIBA does not guarantee 100% compatibility with all USB flash drives. Connect Power 1.

Connect the AC power cable to: - the wall socket. · The product is ready to be set up for use. Notes: Before connecting the AC power cord, ensure you have completed all other connections. Risk of product damage! Ensure that the power supply voltage corresponds to the voltage printed on the back of the unit. The type plate is located on the back of the unit. 11 English 4 Preparation English 12 Always follow the instructions in this chapter in sequence. Note: - Use of controls or adjustments or performance of procedures other than herein may result in hazardous radiation exposure or other unsafe operation. Setting up the player Find the correct viewing input 1. Press 1 to turn on this product. 2.

Turn on the TV and switch to the correct video-in input (refer to the TV user manual on how to select the correct input). Initial Setting When you turn on this unit for the first time, you need to follow these steps. 1. A welcome page will be displayed when this product is powered on. 2.

Press OK to enter language setting. 3. Select your desired language, resolution and aspect ratio using /, then press OK. 4. Press SETUP to exit the Setup menu.

Use the SETUP menu 1. Press SETUP to display the Setup menu when the Blu-ray Disc™ Player is playing or no disc. And press SETUP to exit the Setup menu. Tip: - When playing high-definition sources, you must press STOP button to enter SETUP interface. Prepare the remote control 1. Open the battery compartment. 2. Insert one R03 battery with correct polarity (+/-) as indicated. 3. Close the battery compartment.

Notes: - If you are not going to use the remote control for a long time, remove the battery. - Risk of explosion! Keep battery away from heat, sunshine or fire. Never discard battery in fire. · The maximum operable ranges from the unit are as follows. - Line of sight: approx. 10 m - Either side of the centre: approx. 7 m within 30° - Above: approx. 7 m within 30° - Below: approx. 7 m within 30° 7m 10 m 7m Select menu display language 1. Press SETUP, [General Setting] menu is displayed.

2. Select [Language], then press . 3. Select [OSD], then press . - The language options may vary for different regions. 4. Press / to select a language, then press OK.

<http://yourpdfguides.com/dref/5446595>

Note: - If this disc player is connected to a HDMI CEC compliant TV, skip this setting. It switches automatically to the same OSD menu language as per your TV setting. 7m 10 m 7m 5 Playback Playback Functions Basic Playback 1.

Press button on the front panel or the remote control, your Blu-ray Disc™ player will turn on. The unit will take around 20 seconds to warm up. When the power supply is first switched on, the setup of the Power Down Mode is in Normal mode. 2. Turn on the TV, and then select the input setting on the TV that matches the connection method you used to connect your player. 3. Press OPEN/CLOSE Z to slide out the disc tray. 4. Place a disc on the disc tray with the label facing up, and then press OPEN/CLOSE Z to slide back and close the disc tray. The disc loading time depends on the types of disc you are loading, and loading a Blu-ray Disc™ will take longer time.

5. If the disc does not start playing automatically, please press B/X to start playback. 6. If a Blu-ray Disc™ or DVD menu displays, use cursor buttons to select PLAY. Then, press OK to confirm. 7. To eject the disc, press OPEN/CLOSE Z. Pause playback 1. Press B/X to pause playback. The sound will be muted.

2. Press B/X to resume the playback. Stop playback 1. Press STOP button once to go to resume mode, the TV screen will show the resume logo. 2.

Press STOP twice to stop the playback completely. 3. Press B/X to resume playback from the point where playback is stopped or from the beginning of the disc after the playback is completely stopped. Not all Blu-ray™ discs support the resume feature. Fast Forward and Fast Reverse 1.

Press F.F M to fast forward through the disc. The fast forward speed changes based on how many times you pressed the button. The speed will increase through the following sequence: 2X, 4X, 8X, 16X, 32X 2. Press B/X to resume playback. 3. Press F.R m to fast reverse through the disc. The fast reverse speed changes based on how many times you pressed the button. The speed will increase through the following sequence: 2X, 4X, 8X, 16X, 32X 4.

Press B/X to resume playback. Instant Search and Instant Replay 1. During playback, press and hold M button, you can search 30 seconds forward. 2. During playback, press and hold m button, you can instant replay the content from 10 seconds before. Previous and Next During playback, press PREV . button, and you can skip back to the previous chapter or track. Each press of this button will allow you to skip a chapter or track till the beginning of the disc. Press of NEXT > button during playback will allow you to skip the playback to next chapter or track. Slow Forward 1.

Press =B during normal playback. The slow forward speed is 1/16 in default. 2. To change slow forward speed, press =B repeatedly, and the slow forward speed will be changed in the following sequence: 1/16, 1/8, 1/4, 1/2, normal. 3.

To exit slow forward mode and return to normal playback, press B/X. Step Forward Use this feature to help you to enjoy the video frame by frame. 1. Press B/X during normal playback, then playback will change to pause state. 2.

Press ==B repeatedly to advance the picture frame by frame. 3. Press B/X to resume normal playback. CONNECTED To open the MC and directly into the Connection folder. 13 English Advanced Playback DISPLAY Press this button and the screen will display some information about disc, such as: Title number, Chapter number, Track number, Elapsed Time, Mode, Audio, Angle, and Subtitle languages. Press this button again to turn off the information display.

REPEAT Press REPEAT repeatedly to select different repeat modes. Blu-ray Disc™ :Repeat Chapter and Title. DVD:Repeat Chapter, Title and All. VCD PBC Off/CD-DA/JPEG/MP3:Repeat Track and All.

A-B To play certain section within the video or song, press A-B button to set the start point. Then, press A-B button again to set the end point and complete the setting. The selected section will be played repeatedly. Press A-B button the third time to cancel this function. The end point cannot be set until 5 seconds of playback has elapsed from the start point. Not all Blu-ray™ discs support the repeat A-B feature. GOTO During playback, press GOTO button to edit Title, Chapter, and Time. Press / and OK button on the remote control to select Title, Chapter, or Time. Then press the numeric buttons or / and then press OK. The playback will skip to the desired location.

For Time Search, press / to select Title or Chapter time search. SUBTITLE Press this button repeatedly and the screen will display "X/XX XXX" or "Off". The "X" indicates the current number of this language; "XX" indicates the total number of language; "XXX" indicates the language. The number of available languages depends on the disc. RETURN Press this button to return to the previous on-screen menu in setup menu such as External Memory Information, Parental Control, Country Code, etc.

During MP3/JPEG/VIDEO playback, press RETURN once, it will return back to Media Center page. During VCD disc playback and PBC On is selected, press the button to return to PBC Menu. ANGLE During playback, press this button to change the angle of the picture. The screen will display "Angle X/X."

The first "X" indicates the current number of angle, and the second "X" indicates total number of angle.

Not all Blu-ray™ or DVD has the multi-angle feature. The screen will take around 5 seconds to change. TOP MENU You may press this button at any time, and the Blu-ray Disc™ or DVD video disc playback will pop up the disc menu. POP UP/MENU During Blu-ray Disc™ playback, press POP UP/MENU to display the disc title, and the playback will not be stopped even the menu is on the screen. 1. Press the /// buttons to select an option, then press OK to confirm.

2. Press POP UP/MENU to close the menu. During DVD playback, press POP UP/MENU to open the disc menu. During VCD playback, press POP UP/MENU to switch PBC On/Off.

During displaying USB and Data Disc file content in media center, press POP UP/MENU to add the Photo/Music/Video files to the playlist. 1. Press /// buttons to select an option under the Photo/Music/Video files. 2. In the file browser, press to select the file(s) to be added to the playlist. " " will appear beside the selected files. 3. Press POP UP/MENU button, a pop up menu will appear, then press / and OK button to select "Add to Playlist" to add the files to the Playlist. "Select all" and "Clear all" options are also available. Select "Cancel" to exit the pop up menu.

All the selected files will be added to the "Playlist" folder. You can play or delete the files in the playlist. Press POP UP/MENU to delete the selected files in "Playlist". Note: -This function is disabled for media server browsing. SETUP Press the SETUP button, and the screen will display some information about the player, such as: · General Setting · Display Setting · Audio Setting · System Information English 14 PROGRAM During CD/DVD/VCD playback, you can press this button to edit the sequence of the playlist.

3. It may take awhile when loading default is in progress. Please wait...

Load Default Loading default, please wait... 30% Previous OK Next Press / to select an option. Press OK.

Setting wizard is complete! Now press the OK button to finish and return to the Setup Menu. 4. TV will display as follow: Welcome to the Toshiba Blu-ray Disc Player Setting Wizard. Some simple settings are suggested before you begin. You can also access detailed settings from the Setup Menu. Previous OK Finish OK Next 5. Press OK, enter language setting. Press/ to select a language option. Choose an OSD language before starting. The language selected will be applied not only here but also in other OSD windows, menus etc.

English Previous OK Next 8. Press OK to return to [General Setting] Menu. · [Upgrade] For software upgrades to enhance performance, you could select the following upgrade method and start to upgrade. {Disc}/[USB Storage]/[Internet] SW upgrade by Disc/USB Storage Upgrade the software from the disc or USB flash drive. 1. Insert the disc or connect the USB flash drive which contains the upgrade file package. 2. Follow the instruction on the TV screen to confirm upgrade operation. - The system will reboot after 5 seconds or OK key is pressed. 17 English 480i/576i Notes: - If set [Disc Auto Playback] to [Off], after you insert the disc that contains the upgraded information to upgrade system, you have to start upgrade from this option of SETUP Menu. - If the upgrade file package did not pass the verification, error prompt is displayed, check the package again (such as the package is not complete). - Make sure the firmware version is not an old version. - When you upgrade the system using USB flash drive, you should make a new folder named UPG\_ALL, and copy the upgrade file into this folder. SW upgrade by Internet introduction There are two modes to upgrade via internet: Automatic Mode and Interactive Mode. Automatic Mode: The player will check the internet whether it is connected automatically when powered on.

If connected, player will try to connect the Toshiba server to check if there is new firmware for the player. If yes, the player will pop up a message on the screen to inform you that an upgrading firmware is available on the internet. You can choose whether to upgrade or not. Upgrade New software found! Upgrade? Upgrade New software found! Upgrade? English 18 Cancel OK Start If no, the player will pop up a message on the screen to inform you that there is no new firmware for the player. Upgrade Current version is latest.

Update is not available. Cancel Remark : If you choose to upgrade the new FW, 1. The player will begin to download the upgrade file and pop up a message to show the progress. Upgrade Downloading upgrade file. Please wait! Cancel Cancel OK Start Interactive Mode: You can also do Internet upgrade via setup menu. You should make sure that the player is connected to the internet first. Press SETUP button of the remote control, then choose "System -> Upgrade -> Internet" and press OK button. Then the player will connect the Toshiba server to check if there is new firmware for the player. Upgrade Connecting to the server. Please wait! 2.

When download is finished, the player will pop up a message for you, and you can choose whether to proceed with the upgrading or not. If you choose to upgrade, the player will begin to upgrade, and pop up a message to show the progress. When upgrade is done, the player will restart. Attention! Do NOT cut off the power supply when the firmware is upgrading! If not, the player might become unworkable. · [External Memory] External Memory would be used in BDLiveTM function. When you plug in the USB flash drive which has at least 1GB free space to play BD-LiveTM function, the Blu-ray DiscTM system would make a directory named BUDA automatically. Information will display the Free size. 1. Press OK. 2.

Follow the instruction on the TV screen to select {Information}. General Setting System Language Playback Security Network Screen Save Information Disc Auto Playback CEC Free size is : OMB Off On On On More... Erase If yes, the player will pop up a message on the screen and you can choose whether to upgrade or not.

Disc Auto Upgrade Load Default Move cursor key to select menu option then use "OK" key to select RETURN Return 3. Press OK to select "Erase", the data in the BUDA folder will be cleared. · [Power Down Mode] Quick Start can reduce the time of Power On or Power Off significantly. But the power consumption is higher in Quick Start mode. Setting methods: Setup Menu -> General Setting -> System > Power Down Mode -> Normal/Quick Start (Default as Normal).

Choose Quick Start to go into Quick Start mode. This mode will only be activated upon your next standby Off/On. Generally, in Normal mode, Power On or Power Off takes longer time and its standby power consumption is low. In Quick Start mode, Power On or Power Off takes shorter time and its standby power consumption is higher. Notes: -Please be noted that the responding time to the video output varies for different TV, therefore the responding time to power on the TV in Quick Start mode may vary. -The player will reset to Normal mode whenever the AC power recovers from a loss.
