Getting started Parts checklist Your telephone contains the following items.

Save your sales receipt and original packaging in the event warranty service is necessary. Quick start guide User's manual Telephone line cord Telephone base power adapter Battery compartment covers (2) Batteries (2) Wall bracket Telephone base Charger and power adapter Handsets (2) To purchase a replacement battery or power adapter, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or dial 1 (800) 267-7377. 1

Getting started Installation Install the telephone base close to a telephone jack and a power outlet not connected to a wall switch. For optimum range and better reception, place the telephone base in a central and open location. Depending on the environmental conditions, make sure that your Bluetooth wireless technology enabled cell phone is within 15 feet of where you install the telephone base in order to maintain a reliable connection between your Bluetooth wireless technology enabled cell phone, telephone base and cell tower.

This product may be shipped with a protective sticker covering the handset and/or telephone base display. Remove it before use. Avoid placing the telephone base too close to: · Communication devices such as personal computers, computer routers, television sets, VCRs, wireless routers (wireless broadband, Wi-Fi, or 802.11) or other cordless telephones. · Excessive heat sources.

· Noise sources such as a window with traffic outside, motors, microwave ovens, refrigerators, or fluorescent lighting. · Excessive dust sources such as a workshop or garage. · Excessive moisture. · Extremely low temperature. · Mechanical vibration or shock such as on top of a washing machine or work bench. 2

Getting started Telephone base and charger installation Install the telephone base and charger as shown below. Make sure that the electrical outlet is not controlled by a wall switch. If you subscribe to digital subscriber line (DSL) high-speed Internet service through your telephone line, you must install a DSL filter between the telephone line cord and the telephone wall jack. The filter prevents noise and caller ID problems caused by DSL interference. Contact your DSL service provider for more information about DSL filters. Electrical outlet not controlled by a wall switch Telephone base power adapter Telephone wall jack Telephone line cord DSL filter (not included) is required if you have DSL high speed Internet service Power adapter Charger Telephone base · Use only the power adapters supplied with this product. To order a replacement, visit our website at www.vtechphones.com or call 1 (800) 595-9511. In Canada, go to

vtechcanada.com or dial 1 (800) 267-7377. · The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet. 3 Getting started Battery installation Install the battery as shown below. 1. If the battery compartment cover is on the handset, press the indentation and slide the cover to remove. 2. Plug the battery connector securely into the socket inside the handset battery compartment, matching the color-coded label. 3.
Place the battery with the label ThIS SIDe uP facing up and the wires inside the battery compartment.

4. Align the cover flat against the battery compartment, then slide it towards the center of the handset until it clicks into place. 5. Charge the handset by placing it in the telephone base or charger.

The ChARGe light is on when the handset charges. 1 2 3 4 5 ChARGe light · If the handset will not be used for a long time, disconnect and remove the battery to prevent possible leakage. · To purchase a replacement battery, visit our website at www.vtechphones.com or call 1 (800) 595-9511.

In Canada, go to www.vtechcanada.com or dial 1 (800) 267-7377. 4 Getting started Battery charging Once you have installed the battery, the screen indicates the battery status (see the table below). If necessary, place the handset in the telephone base or charger to charge the battery. For best performance, keep the handset in the telephone base or charger when not in use. The battery is fully charged after 16 hours of continuous charging. See the table on page 62 for battery operating times. If the screen is blank, you need to charge the handset without interruption for at least 10 minutes to give the handset enough charge to use the telephone for a short time. When the battery is low, the handset beeps and shows low battery and a flashing .

If you are on a call in low battery mode, the handset beeps every minute. The following table summarizes the battery charge indicators and actions to take. Battery indicators The screen is blank. Battery status Battery has no charge and the handset cannot be used. Battery has very little charge and the handset cannot be used. Battery has enough charge to be used for a short time. Battery is charged. Action Charge without interruption until the screen shows hANDSeT X (at least 10 minutes). Charge without interruption until the screen shows hANDSeT X (at least four minutes). Charge without interruption until the screen shows hANDSeT X (at least 30 minutes).

To keep the battery charged, place it in the telephone base or charger when not in use. The screen shows Place in charger and flashes. The screen shows low battery, flashes, and the handset beeps. The screen shows hANDSeT X. 5 Getting started Installation options Your telephone base is ready for tabletop use. If you want to mount your telephone on a wall, use the provided wall bracket to connect with a standard dual-stud telephone wall-mounting plate. If you do not have this mounting plate, you can purchase one from many hardware or consumer electronics retailers. You may need a professional to install the mounting plate. Tabletop to wall-mount installation 1. If you are using a DSL filter, plug the line cord into the filter now.

Plug the telephone line cord (or DSL filter) into the wall jack. Plug the power adapter into a power outlet not controlleo page all system handsets (page 39). 10 Getting started handset main menu To enter the main menu: 1. Press MeNu/SeleCT when the handset is not in use. 2. Press or to select a handset feature menu, then press MeNu/SeleCT to enter that menu. To return to the previous menu, press oFF/CleAR. To return to idle mode, press and hold oFF/CleAR. Directory - store and search for names and numbers. Call log - review the caller ID history or delete all call log entries.

Directory Cal log l Intercom Bluetooth Ringers Directory Cal log l Intercom Bluetooth Ringers Intercom - intercom call with a system Bluetooth - set up and manage your handset. Bluetooth enabled devices. Directory Cal log l Intercom Bluetooth Ringers Directory Cal log l Intercom Bluetooth Ringers Ringers - set up ringers for the home and cell lines. Settings - change your telephone settings. Directory Cal log l Intercom Bluetooth Ringers Cal log l Intercom Bluetooth Ringers Settings 11 Bluetooth Introducing Bluetooth Your new DS6311 telephone system with Bluetooth wireless technology has the following features: · Pair up to four Bluetooth enabled cell phones with the telephone base. · Connect a maximum of two cell phones to make and receive cell calls. Only one cell phone can be active on a call at a time. · Connect a Bluetooth enabled headset for making and receiving home calls. · Conference cell and home calls. · Make and receive calls using your cell phone plan while utilizing the ease and comfort of your home telephone system.

IMPoRTANT INFoRMATIoN · · · · After plugging in the telephone base, wait at least 20 seconds before connecting a Bluetooth device. The screen shows Bluetooth system busy if you try to connect too soon. Refer to the user's manual of your Bluetooth enabled cell phone or headset for more information about how that device uses Bluetooth connectivity. Bluetooth wireless technology operates within a short range (about 30 feet maximum) from the telephone base. Keep connected cell phones and headset within this range.

If your cell phone has poor reception in your home, the DS6311 cannot improve the reception. However, if you have a location in your house with better reception, you can leave your cell phone in that location while you use the DS6311 cell line. In order for this to work, the telephone base must be within 30 feet of the cell phone. Charge your cell phone while it is connected to the telephone base. Your cell phone's battery will discharge faster while it is connected to the telephone base via Bluetooth wireless technology.

Monitor your cell phone's usage because minutes are deducted from your cellular plan for the duration of all cell calls. · · Refer to the Bluetooth setup section (page 14) to learn how to set up and manage your Bluetooth enabled device(s). Refer to the Telephone operation section (page 34) on how to operate your Bluetooth devices with your new DS6311 telephone system with Bluetooth wireless technology. Refer to the Troubleshooting section (page 65) if you experience difficulty using the telephone system. The Bluetooth ® word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by VTech Holdings Limited is under license. VTech Holdings Limited is a member of Bluetooth SIG, Inc. Other trademarks and trade names are those of their respective owners. 12 Bluetooth Glossary of terms Below are some terms used in this user's manual to help you become familiar with using your Bluetooth enabled devices and your new DS6311 telephone system. Active devices - a maximum of two paired devices (two cell phones, or one cell phone and one headset) on the active devices list can be connected to the telephone base, but only one cell phone or headset can be on a call at a time.

Bluetooth cell phone - refers to a Bluetooth enabled cellular telephone. Cell line - the telephone line associated with your cell phone service. On your DS6311 handset, press /Cell to use the cell line. Connected - a Bluetooth enabled device (cell phone or headset) can only be used when it is connected to the telephone base. When a Bluetooth enabled device is connected to the telephone base and active on the active devices list, it will be ready for use.

Disconnected - a diagonal line appears across devices 1 and/or 2 when the corresponding Bluetooth enabled device is disconnected from the telephone base. Discoverable mode - before a Bluetooth enabled device can be paired, it must be set to this mode. When pairing your cell phone, the telephone base will be set to this mode. When pairing a headset, the headset must be set to this mode. Depending on the manufacturer, this mode is sometimes referred to as Find Me or Visibility.

home line - your conventional telephone land line. On your DS6311 handset, press /hoMe/FlASh to use the home line. Paired devices - once Bluetooth enabled devices have been paired with the telephone base, they will appear on the paired devices list. A maximum of four devices can be paired with the telephone base, but only two can be on the active devices list. Pairing - this refers to the process of Bluetooth enabled devices registering device information with each other.

The telephone base must be paired with a Bluetooth enabled cell phone or headset before the Bluetooth device can be used. Depending on the manufacturer, this is also referred to as Bonding. PIN - by default, the PIN is 0000 for the telephone base and for most Bluetooth devices. PIN information must be exchanged between Bluetooth devices before they can be used. This is also known as a Passkey or Passcode.

13 Bluetooth Bluetooth setup To use a Bluetooth enabled cell phone or headset with your DS6311, you must first pair and connect your Bluetooth device(s) with the telephone base. All DS6311 handsets can be used to make or answer on the cell phone line. Bluetooth wireless technology operates within a short range. When you pair a Bluetooth cell phone or Bluetooth headset to the telephone base, move closer to the telephone base to maintain sufficient signal strength. Pair a cell phone Before you begin, make sure that you have cellular coverage and your Bluetooth enabled cell phone is not connected to any other Bluetooth device. Refer to your cell phone user's manual to learn how to search for or add new Bluetooth devices. To pair and connect a cell phone: 1. Press MeNu/SeleCT on the handset when it is not in use. 2. Press or to highlight Bluetooth, then press MeNu/SeleCT.
