**Manual abstract:**

A glass shelf made up of various elements makes food storing easier 2. Tray with removable cover 3. Glass separator 4. Crispers 5. Door trays 6. Bottle  
retainer 7. Bottle rack 8. Rating plate (at the side of the crispers) 9. Fan Least cold zone Intermediate temperature zone Coldest zone B. Freezer Compartment  
10.

Rack for ice cube trays or ice packs (depending on model) 11. Freezer section 12. Compartment for storing frozen/deep frozen foods 13. Freezer door C) D)  
Removable plinth Control panel Note: The number of shelves and shape of accessories may vary, depending on the model. All shelves, door trays and racks  
are removable.

Important: Refrigerator accessories must not be washed in a dishwasher. @@@@ "ON" button for refrigerator compartment 2. Green indicator LED  
(refrigerator compartment) 3. Refrigerator compartment thermostat knob 4. "ON" button for freezer compartment 5.  
@@@ Internal light switch 6. 7. 8. @@@@ • Towards position Max for colder temperatures. The average recommended thermostat setting is 2-3 Note: The  
ambient air temperature, the frequency of opening the door and the position of the appliance can affect the internal temperatures of the refrigerator. These  
factors must be taken into account when setting the thermostat. Fan: The fan gives more even temperature distribution inside the refrigerator compartment,  
thus allowing better conservation of stored food. Important: The fan will run ONLY when the compressor is in operation. Do not obstruct the fan intake area  
(9a) with food. Substituting light bulb: This product uses a special bulb; to replace do not unscrew.
