Manual abstract:

Copyright protection claimed includes all forms and matters of copyrightable materials and information now allowed by statutory or judicial law or hereinafter granted, including without limitation material generated from the software programs which are displayed on the screen such as icons, screen display tools, etc. Product names used in this guide may be trademarks or registered trademarks of their respective companies and are hereby acknowledged. All non-Xerox brands and product names are trademarks or registered trademarks of their respective companies. Thank you for purchasing this laser printer. The Xerox DocuPrint P8ex is a desktop laser printer specially designed for the demanding small office and home office environment. It uses highly innovative printing technology, which provides all the performance and power you need for your business, small workgroup and personal printing. In this guide you will find information essential for setting up and operating your laser printer. So, do keep it handy should you experience any difficulties with the printer. Save the carton and packing materials in case you need to repack the printer for service or storage. Make sure that your printer came packed with the following items: **• Xerox DocuPrint P8ex CD-ROM** This CD-ROM contains the software required to operate your printer, along with useful printer utilities and a complete Reference Guide.

@@@If any items are missing or damaged, notify your dealer immediately. Carefully remove any shipping tapes from the printer. place the printer on a flat, stable surface near your workstation. Leave at least 6 inches (15 cm) behind and on each side of the printer, and at least 1 foot (30 cm) in front of the printer, so that you can operate it properly and allow adequate air circulation. Dust accumulation may prevent the printer from functioning properly.

Face-up stacker Face-down stacker Stacker extender Tray extender Multipurpose paper feeder Manual feeder Paper guide for multipurpose paper feeder Paper guide for manual feeder Control Panel Unpack the new laser print cartridge by tearing open its packaging at the indicated notch, then carefully remove sealing tape from bottom of cartridge by pulling on sealing tape tab. Pull sealing tape completely out of cartridge. Do not expose cartridge to direct sunlight or strong room light. to avoid damaging photo-sensitive drum, never open drum shutter. To avoid damaging cartridge, complete cartridge installation as quickly as possible.

Pull up MPF extender until it stops. Pull up stacker extender until it stops. Fan stack of paper to loosen, then insert in MPF. Insert up to 10 envelopes into MPF (or one at a time into manual feeder). Use the following instructions to install the PCL 6 and/or PCL 5e printer drivers on a Windows-based PC. The printer driver enables you to control the DocuPrint P8ex's features and capabilities (see the table on the next page). Use the driver's on-line help for a complete description of its functionality. If necessary, consult your Windows documentation for instructions on accessing the driver. Your PC has at least 16 MB of RAM installed. • There is at least 20 MB of free disk space on your PC.

(A system reboot may be required after the software is installed. Turn on the printer, then turn on the computer and start Windows. 0 does not recognize the new printer, skip to Step 3. @@Follow the on-screen instructions to complete the installation. Turn on the printer, then turn on the computer and start Windows. @@Follow the on-screen instructions to complete the installation. Number of copies Page orientation Paper size Paper source Graphic quality Graphic mode TrueType fonts Toner Saver Overlays Multiple images (N-Up) Watermarks Select from supported paper sizes (see "Printer Specifications"). Select printing from multipurpose paper feeder or manual feeder. Create and use watermarks on documents. Installing the USB Port Driver (Windows 98) The USB port driver must be installed in order to print to the DocuPrint P8ex via a USB connection.

Currently, USB printing is only available through Windows 98. Installing the RCP and SM (Windows) The RCP (Remote Control Panel) and the SM (Status Monitor) software are Windows-based programs that allow the user to set default printer values as well as monitor the status of the printer. These two utilities can only be used when the printer is connected via the parallel interface. @@Select the appropriate language, then select USB Port Driver.

@@@@@Select the appropriate language, then select the Font Manager.
