*in the correct position. THE MACHINE VIBRATES OR IS NOISY * Check if all transport devices have been removed. * Check if the appliance touches the walls or furniture. * Check if the legs are adequately levelled and the nuts tight THE MACHINE DOES NOT FILL * Check if the water tap is on.*

[You're reading an excerpt. Click here to read official ZANUSSI FLS 522 C user guide](#)

<http://yourpdfguides.com/dref/1149739>

** Check if the tap is clogged. * Check if the inlet hose is bent. * Check if the water inlet filter is clogged.*

*THE MACHINE EMPTIES AS IT FILLS * The end of the drain hose is too low (see page. 25) THE MACHINE DOES NOT DRAIN OR SPIN * Check if the drain hose is bent or squashed. * Check if the drain filter is clogged. * Check if the selected program includes spinning. * Check if the Rinse Hold button is pressed.*

If, after above checks, there is still a fault, call your Local Service Centre. Please make sure you give the model and serial number of the appliance and the purchasing date. IMPORTANT REMARK: This washing machine is provided with the latest technical advances in washing and water level reduction. It is quite right that you do not see the water through the door. 31 35.
