ZyXEL

Gear Up for a New Era of HD Media Network! **N900**

- Compliant with 802.11n, wireless speeds of up to 450 Mbps* over concurrent dual-band connectivity
- True dual networks optimize HD media and web surfing experiences simultaneously
- Advanced QoS offers smoother media streaming over fiber broadband service
- SmartRange technology** widely extends the effective wireless coverage
- Gigabit Ethernet for reliable high-performance video streaming
- 2 NetUSB™ ports for sharing printers and USB mass storage wirelessly
- 51Psec VPN tunnels secure data transfer between home networks and remote sites
- LED light on/off button provides better environmental compatibility
- Green product with wireless on/off button and power on/off switch to save energy

Benefits

True dual networks optimize HD media and web surfing experiences simultaneously

With three dual-band antennas featuring MIMO technology, the NBG5715 provides you the ultimate visual experiences over the true dual networks at blazing data transfer rates of up to 450 Mbps*. You can simultaneously surf the Web over the common 2.4 GHz band with fast speeds and watch HD video or play online games over the interference-free 5 GHz band with smooth playback.

With four Gigabit Ethernet ports, the NBG5715 offers the best performance of video streaming with speeds 10 times faster than typical Ethernet connections.

Advanced QoS offers smoother media streaming over fiber broadband service

For users who demand high bandwidth media streaming services over fiber broadband service, the advanced QoS of ZyXEL NBG5715 enhances the stability of multiple HD video streams, gaming, voice over IP, and web surfing.
